HASHEESH! HASHEESH!

One of the oldest Remedies known to Medical Science.

THE HASHEESH CANDY

Now imported and prepared by the SYLVAN ORIENT CO., under the supervision of one of the most thorough Medical Chemists in the country, is the only pleasant and reliable preparation of this Remedy ever offered to the public, and is fast taking the place of, and will soon supercede, all other Medicines now used for the alleviation or cure of

NERVOUSNESS, NEURALGIA, GENERAL DEBILITY, DYSPEPSIA, HEADACHE,

and all diseases of the Nervous System. In Oriental countries, HASHEESH has, for centuries, been the theme of Poets, Philosophers and Novel Writers, both for its marvelous influence on the mind, when used experimentally, and for its almost miraculous qualities, when prepared as a Medicine.

The Bengal Dispensatory says "the effects of Hasheesh are popularly known in the south of Africa, Turkey, Egypt, Asia Minor, India and all the adjacent territories; and in all the popular medicines of those nations, we find it extensively employed for a multitude of afflictions." In a standard treatise of Materia Medica, more than six hundred years old, it is described as the most valuable of all remedies.

Sold by all Druggists. Imported only by the

KNOWLEDGE OF TEN SAVES LIFE.

Every living being has in his system

When these are within their natural limits, our health is good; but when they are in excess, pains, colds, rheumatism, gout, debility, costiveness, diarrhea, dysentery, erysipelas, &c., &c., afflict us. Local.

NOTICE.—The Publisher of the Chronicle desires that it be publicly understood, that the noise which has recently, on numerous occasions, been heard in the Chronicle Building, late at night, and sometimes on the Sabbath, to the disturbance of the neighbors and the scandal of ourselves and all concerned,—does not originate in the Chronicle office, but in the hall in the rear of the same, which is occupied by the Granite State Club, so called—which, whatever their design and employment, is regarded by the neighbors as at least a very noisy and disorderly institution. The room was leased to them for a "Reading Room;" but their "loud" and untimely proceedings, (by which they have forfeited their lease and laid themselves liable to indictment, if not for brawl and tumult, at least for keeping a disorderly house—not to mention the legal injunction which might be procured by any neighbor to prevent and restrain them from occupying the premises on account of the danger from fire by their late carousals, smoking, &c.,) have caused them, after several warnings and expostulations, to be warned from the room, from which our safety and a decent self-respect demands their expulsion as soon as possible. But the so foolish fellows appear,—as is often the case with offenders against law and order,—to be determined to delay in their "movements," by claiming whatever technical rights of longer occupancy they may make a show of—we deem it but just to ourselves to throw the responsibility where it belongs—upon this G. S. Club, whatever and whoever they may be; and whose names we shall publish in a day or two, unless they vacate our premises immediately. Meantime, if Exchange Buildings get on fire, we at least shall know where to locate the blame.

FRANK W. MILLER.

Portsmouth, Dec. 18, 1865.

ATTEMPTED ROBBERY.—On Saturday evening last, as Mr. William B. Blake, Post-Master at Raymond, was returning to that place from Epping, a man jumped from a place of concealment by the roadside and attempted to grasp the horse by the head. The animal was rather a spirited mare, and upon being struck with the whip by Mr. Blake, made so sudden a start as to throw the assailant down, when the carriage ran over him, and Mr. B. went on his way rejoicing. As Mr. Blake has been in the habit of carrying considerable sums of money about his person, the attacking party evidently expected a rather different conclusion to his essay as a "road agent."

☞ We learn that a man named John Morrison, residing in Jackson street in this city, employed in the Blacksmiths' Department at the Navy Yard, on Tuesday morning met with a severe and perhaps fatal accident. He wished to move a steam trip hammer an inch or two for the purpose of withdrawing a piece of iron from under it, and in starting the belt slipped it too suddenly on the pulley causing the ponderous hammer to strike the lump of iron on its edge, throwing it into the air, and in its descent it fell on the head of Mr. M., knocking him down and rendering him insensible for some time. A carriage was immediately procured and he was conveyed to his home in this city.

☞ The wife of Mr. John Grimshaw, at the West End of this city, was severely burned on Monday evening by the bursting of a lamp containing fluid, which communicated the flames to every portion of her clothing, and placed her in imminent danger of being burned to death.

POLICE COURT, Dec. 19.—Maria Adams, so far forgetting her womanhood as to become intoxicated, was sentenced to pay a fine of $3, and costs $4.80, in default of which she was sent to the House of Correction.

DRAMATIC.—W. D. Winslow & Co.'s Combination are to perform here on Friday and Saturday evenings of this week. The troupe is quite a large one, and will offer a good selection from the popular drama. Advertisements hereafter.

☞ The ladies of the Middle Street Society will hold a Fair in the Court House, this (Wednesday) P. M. at 3 o'clock and evening at 7 o'clock. Also on Thursday evening at 7 o'clock.

Sale of choice articles for Christmas and New Year's gifts at *low prices*. Refreshments of all kinds.

☞ Sec. Seward, by order of the President, has directed the Provisional Governor of Alabama to cease acting in that capacity, and resign his powers in favor of the Governor lately elected. Perley suggests that Congress must now also acknowledge the State, or take issue with the President.

TENNESSEE.—In consequence of the Legislature of Tennessee having refused to admit negro testimony in the civil courts, Gen. Fiske, Assistant Commissioner of the Freedmen's Bureau for that State, has issued an order which provides for special courts, under his superintendency, to hear cases in which negroes are interested.

GOLD, Tuesday, 146 1-2.

— The stallion "Dirigo" has been sold to Captain Charles B. Sanford for $3500.

☞ On Monday, at St. Louis, another great jam of ice was broken by the current, and 17 steamers stove or sunk. Loss $200,000; insured for about $100,000.

John O. Fallon, one of the oldest, richest and most charitable citizens of St. Louis, and a large contributor to science and education, died Monday. He was worth $6,000,000. He was Aide to Gen. Harrison in the war of 1812, and commanded Fort Walden at that period.

— President Johnson has approved the bill to prevent the importation of cattle, and the bill for the selection of jurors in the District of Columbia. These are the first two laws that have passed since he attained the Presidency.

The House Committee on the Judiciary have agreed to report Mr. Farnsworth's resolution on a constitutional amendment to bar the payment of the rebel debt.

☞ Rev. T. H. Miller is to preach at South Hampton, Sunday, Dec. 31.

☞ The Collections, which were taken last Sunday in Congregational Churches, for building Meeting Houses in aid of domestic missions, must have amounted to much more than the $200,000 proposed. So we judge from the returns which we have seen.

☞ We perceive some papers jump at the conclusion that the late rebel States can do all things as formerly,—merely from the fact that Sec. Seward "counts them in," as among the number, and admits some of them to the high privilege of voting for the abolition amendment. Some even go so far as to imagine that all their elected members of Congress *must* now come in. But this is, we think, a *non sequitur*. The movements of the next month, however, will enable all to see more clearly the *status* of these communities, and of their Representatives.

— The Richmond Examiner says it has high authority for asserting that Gen. Grant, while in Richmond the other day, that he was in favor of admitting, immediately, all Southern Congressmen elect who can take the test oath, and that on his return to Washington he should urge such a course. Very doubtful.

— Rev. Henry D. Moore was installed Pastor of the Plymouth Congregational Church in Pittsburgh, Penn., Dec. 13, ministers of two or three denominations taking part in the services.

— Friday, Dec. 22, is Forefathers' Day, the anniversary of the landing of the Pilgrims at Plymouth, Mass.

— A colony of some fifty families, gathered from various localities in Maine and New York, are to embark in July next for Palestine, to set up their house-hold gods. This colonial movement is to be under the lead of Rev. G. J. Adams, of Indian River.

FOR CALIFORNIA.—We call the attention of our readers and the merchant public of our community, to the Pacific Mail Steamship Company's advertisement in our columns. We cheerfully recommend this line to all who are desirous of visiting the golden shores of the Pacific, as possessing conveniences and accommodations surpassing all others. Read the advertisement.

PEARLS AND RUBIES.—White teeth cropping from out of ridges of ruby, a breath spicy as the airs from Araby the Blest. Who can resist such fascinations? To realize them, to perpetuate them, to make the mouth a casket of pearls and rubies, and every sigh a gush of fragrance, all that we have to do, fair ladies, is to use that matchless vegetable preparation, Fragrant Sozodont. dec19eod1w

A Card.

I most sincerely thank CHAS. H. TUCKER, a vigilant Watchman in our city, for his promptness in giving the alarm when my house was on fire, and for his exertions in saving my property by prompt and action. Also the Fire Department and the "South End Bucket Company." The latter on this occasion was very efficient.

THOS. MCGRATH.

Portsmouth, Dec. 19, 1865

A Card.

MRS. PARRY JONES would return her most cordial thanks to those kind friends, citizens and the Fire Department, who so efficiently and carefully preserved her property at the fire on Thursday evening. Absence from the city has prevented an earlier recognition of these services.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, under the Act of 1837,)

76 State street, opposite Kilby street,

Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for obtaining Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and a full account of all patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessary of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

—DEALERS IN—

S. Vance's Submerged Well PUMP.

This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.

ITS ADVANTAGES.

FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.

SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.

THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.

FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.

FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can never by corroded, consequently it brings up pure water at every stroke.

SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.

☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,

ISRAEL MARDEN & CO.,
39 Congress Street.

☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony their excellence.

VINELAND

FARM AND FRUIT LANDS.

In a mild and healthful climate. Thirty miles south of Philadelphia by Railroad, New Jersey, on the same line of latitude as Baltimore, Md.

The soil is rich and *productive*, varying from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country*. Five hundred Vineyards and Orchards have been planted, and are producing fruit-growers. Grapes, Peaches, Pears, &c, produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste*. It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.

Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.

Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.

For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.

Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.

Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.

From Report of Solon Robinson, Agricultural Editor of the Tribune: *It is one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* n1—dawóm

The Chronicle.

I DO NOT LIKE TO HEAR HIM PRAY.

I do not like to hear him pray,
Who loans at twenty-five per cent.,
For then I think the borrower may
Be pressed to pay for food and rent;
And in that book we all should heed,
Which says the lender shall be blest,
As sure as I have eyes to read,
It does not say, "take interest."

I do not like to hear him pray
On bended knees about an hour,
For grace to spend aright the day,
Who knows his neighbor has no flour:
I'd rather see him go to mill
And buy the hungry brother bread,
And see his children eat their fill,
And laugh beneath their humble shed.

I do not like to hear him pray,
"Let blessings on the widow be!"
Whose power seeks her home to say,
"If want o'ertakes you, come to me."
I hate the prayer so loud and long,
That's offered for the orphan's weal
By him who sees him crushed by wrong,
And only with the lips doth feel.

I do not like to hear her pray,
With jewelled ears and silk and dress,
Whose coachman scowl at the door,
And then is asked to "work for less."
Such pious shavers I despise;
With folded hands and sire demure,
They lift to heaven their "angel eyes,"
Then steal the earnings of the poor:

I do not like such soulless prayers;
If wrong, I hope to be forgiven;
No angel's wing them upward bears—
They're lost a million miles from heaven.

— Two gentlemen from Arkansas are in Augusta, Georgia, for the purpose of hiring 900 laborers for plantations.

— In a public school near Salisbury, England, an examiner said to a pupil: "Well, my good boy, can you tell me what vowels are?" "Vowels, sir? Ees, of course I can." "Tell me, then, what are vowels?" "Why, vowels be chickens!"

— D. S. Warren, mail carrier from Iowa City to Washington, was frozen to death a few nights since on his way to the latter place. Mr. Warren was seventy-eight years of age, and his horse being fast in a mud-hole, and the night being dark from a snow storm, the old man and his horse both perished.

— The counsel for the defence in a case in a New Haven court having pestered a witness on the opposite side, she raised herself up proudly and exclaimed: "I ain't afraid of the whole of you; you can't scare me: I have lived in Chicago ten years, and any one that has lived in Chicago ten years need not be afraid of the devil."

— The last Legislature of Utah enacted a law ostensibly for taxation to erect school houses, but really to grind the face of the Gentile merchants for the propagation of the Mormon faith. Several Salt Lake merchants were assessed a total of $8000, and thereupon rebelled and appealed to the courts; and the Supreme Court granted their prayer for an injunction, on the 14th of November.

— A Georgia letter writer says that "for one Northern man coming into the Carolinas to live, there are at least twenty coming into Georgia. It is plain fact and no exaggeration to say that there are hundred of such men locating in Northern and Western Georgia. They come mainly from Ohio, Indiana and Illinois, though there are men from New York, Connecticut, Michigan and Wisconsin. The greater portion of all these are soldiers."

SUFFERERS

From Dyspepsia

READ! REFLECT!! ACT!!!

TARRANT & CO

Gentlemen. I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabiche, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,

I am very respectfully yours,
S. D. C. HENRIQUEZ,

Morning Chronicle.

LEOPOLD, King of the Belgians, as well as of Belgium, died Dec. 9, aged 75. He was one of the most deservedly popular sovereigns of this or any other age. He was *chosen* King of Belgium in 1830, and having made some conditions which were complied with, he began his reign in July, 1831. In '48, when the thrones of Europe tottered, he offered to resign if his people so desired: but he was desired to hold on by their *unanimous* voice! He married, 1. the Princess Charlotte of England, in 1816:—a love match on both sides: but the young wife died in a year and a half after the marriage, leaving no child living. He married, 2. the Princess Louisa of France, the daughter of Louis Phillippe, in 1832. She died in 1850, leaving three sons; and one daughter, who is now the wife of Maximilian in Mexico. Leopold was a good father and husband, as well as a good King: and he had two superior women for wives; yet in the fifty years from 1816 to 1866, he has passed 30 years of widowhood to less than 20 of married life. He was cautious, honest, thrifty, and became immensely rich; and his Kingdom and people are now one of the most wealthy communities on the face of the globe.

☞ Last Sunday, in Boston, two boys, about 14 years of age, named Andrew Morgan and Thomas Ludden, got drunk, and were carried by their companions to Park street, and there left to recover from the effects of the liquor. They were found about three o'clock in the afternoon, insensible from the cold, and were carried to the station house, where they were with difficulty brought to. Had they not been discovered they would soon have frozen to death. If they keep on in the course they have begun, they might as well be frozen now as at any future time.

☞ The Washington correspondent of the New York Tribune says:

"Several Senators and Representatives, who lately had conversations with the President, state that the President does not intend to force any issue with Congress, but to abstain from whatever might lead to a conflict between the Legislative and the Executive branches of the Government. A more cordial feeling is gaining ground and it is expected that a good understanding will be preserved.

☞ The North Carolina Legislature has adjourned—but no law was passed or bill presented for the government and protection of the freedmen. [Not much matter—for Congress will of course find it needful to enact some *general* laws on the subject.]

— Benj. Robinson, editor of the Fayetteville (N. C.) News, has been arrested upon the order of Gen. Huger for articles which have appeared in his paper unfriendly to Government. He was taken to Raleigh on Saturday and admitted to bail.

— The N. Y. Home News, the organ of the Orangemen, is very exultant over the disorganization of the Fenian Brotherhood and predicts that by the time the Congress meets "hardly the tips of the tails belonging to the rival factions will be left."

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, DECEMBER 21, 1865.

☞ The President has done his share towards reconstructing the ex-rebel States: Congress has an importance work before it in the same direction, and will doubtless deliberate before it acts decisively: and above all, the *People* will have, as they should, a voice in the matter. It was *the people* that rose up to avenge the attack on our flag at Sumter, that raised men and money, that demanded emancipation, and that put down rebels and copperheads together, when they elected Lincoln, Johnson, and the present Congress. This same people should now instruct its servants at Washington to guard well the rights of person, liberty, and property, belonging to every inhabitant of this land; and keep a strict watch over all the late disloyal.

FRANCE AND MEXICAN AFFAIRS.—A special Washington dispatch says that while the President was preparing his message the French minister emphatically stated that the Emperor would much regret any expression in the message which would make it impossible to recede from his Mexican scheme without humiliation. The minister also assured Mr. Seward that the French troops would be withdrawn from Mexico in a little while, and asked for patience on the part of our Government. It is reported that Gen. Logan is satisfied there will be no difficulty, and that the Republic of Mexico will soon be peacefully reinstated.

IN THE U. S. SENATE, Tuesday, the resolution of adjournment was taken up and amended so as to adjourn on Thursday to the 3d of January, and then passed. [But the House did not consent.]

Notice was given of a bill to enlarge the powers of the Freedmen's Bureau, so as to secure freedom to all persons in the United States, and protect every individual in the full enjoyment of the rights of person and property.

In the House, the resolution reciting the that Harris of Maryland had been convicted by Court Martial of disloyalty, &c., and instructing the Committee on Elections to inquire into the facts, and report such action as they deem proper, with power to send for persons and papers, was passed.

☞ Pres. Johnson sent a Message to the Senate on Wednesday, stating that the rebellion has been suppressed, and the late rebel States reconstructed, to some extent; and he is very hopeful for the future.

NEW HAMPSHIRE ITEMS.

—— Gov. Smyth has arrived at home, from his business visit to Washington.

—— Mr. Enoch Bunker of Farmington recently killed a pig seven months old, that weighed 477 1-2 pounds three days after it was slaughtered.

—— Two young boys in Great Falls, sons of Thomas J. Mallard, of the ages of nine and twelve years, were out skating on the morning of the 15th instant, when the ice broke and the youngest was drowned.

—— The Manchester Mirror reports the death of a man named Frank Parry by burning. He was employed in the Suncook Mills. His clothing was burned from him, and his flesh was so horribly burned that it seemed to be baked upon his bones.

—— That grand military Levee and Reunion of the Officers of late N. H. Regiments, is to come off at Concord (Eagle Hall) New Year's Night—and will be a glorious and brilliant rally round the old battle flags. Two or three thousand invitations are out; and all who can, will be happy to "assist" on the gay and festive occasion.

—— Friday, the 8th inst., at about 6 o'clock in the morning, the newly fitted up saw mill at Barnstead Centre was discovered to be on fire, and was entirely consumed. It was owned by Messrs. Hodgdon & Blaisdell, and the loss is supposed to be about $3000. At the same time fire was discovered under the grist mill, but was extinguished without damage. All supposed to be the work of incendiaries.

—— A New Railroad that would be of interest and value to Newburyport, is projected by the people of Exeter, and that neighborhood—the extension of the Salisbury branch of the Eastern railroad to Exeter, which is only about seven miles, and over a way where a road can be easily built. By this extension there would be a competition between the Eastern road and the Boston & Maine for passengers and freight, over quite a line, which would affect prices. The Eastern would be able to tap the Upper route, drawing patronage from a number of the towns on and near the proposed route. To Amesbury and Salisbury, which are coming to be of good proportions, and will furnish a large railroad business, it will be invaluable, as allowing ingress and egress to their beautiful and thriving village, with better train accommodations, which they have long needed.

Communication.

Messrs. Editors:—Mention has been made in your paper of the erection, the past week, at the Navy Yard, of a new set of Masting Shears, and of the serious injury of the Boatswain of the Yard in connection therewith. Few who have not witnessed any undertaking of the kind, can form a correct idea of the magnitude of the job of raising such a structure to its position. The shears are very massive, of great length and immense weight, and required much careful preparation, and a powerful purchase for their erection. Two attempts to raise them failed by the giving way of the purchase gear—from the second of which resulted the injury to the Boatswain, who was in the act of inspecting the working of the purchase at the instant it gave way, and was caught by there bounding rope and thrown many feet into the air.

The difficulty encountered was the want of a proper security or holding place for the leading purchase or snatch-block. After the occurrence of the second failure, and the injured Boatswain, who had the direct supervision of the work, was carried from the ground, Capt. Pickering, Executive Officer of the Yard, appealed to the quarterman and gang of riggers employed, for a suggestion as to where or how the snatch-block could be secured so as to hold; but received no response, until Mr. Andrew J. Locke, a mason employed at the Yard, who happened to be standing by, stepped forward and modestly remarked that the proper and only available place to secure the block was to the feet of the temporary shears, by which the new shears were to be hoisted, and that with the block well fastened there, the work in hand could be accomplished without further difficulty.

Capt. Pickering, like the gentleman he is, although answered by one he did not address, attentively listened to Mr. Locke's suggestion and his reasons therefore, replied that he was right, and at once gave orders for rigging the purchase accordingly. With this arrangement the new shears were raised to within a few feet of their proper elevation on Saturday, leaving but little more to be done to place them in position.

I have troubled you with this communication on a subject perhaps of little interest to you, because I think modest merit is deserving of applause. Mr. Locke is an unassuming young man, and well known to be a superior mechanic in his line. He has shown himself in this instance to possess scientific ideas outside of his profession. The correctness of his suggestion upon scientific principles, will be apparent, when it is reflected that it gave to the leading purchase a holding power equal at least to the weight of both the hoisting shears and those being hoisted, and of course could not but result in the successful raising of the latter. To an officer of the ability and quick perception of Capt. Pickering, it was only necessary to name the plan to have it at once comprehended and adopted.

AN OBSERVER.

Communication.

MORE WATER AND LESS FIRE.—*Messrs Editors:*—We noticed that at the late fires with which we have been visited, that two of our principal reservoirs have given out before the fires were completely extinguished, which proves conclusively, that they are not nearly extensive enough. Now if they have not capacity enough for two such small fires as those were, of what real benefit would they be after the first half hour in an extensive conflagration, such as we have witnessed in our city several times?

It must be remembered that we now have some powerful steam engines, that throw an immense amount of water in a very short space of time, therefore it is necessary that our reservoirs should be extensive enough for any conflagration that might happen in any part of our city.

At all fires when it is practicable for the steam engines to draw from the river, then we have an inexhaustible supply. Why not make that supply available at all fires in any part of the city, when it can be done with such trifling expense? Instead of selecting some of the most expensive locations for a reservoir—as they all are—blasting through ledges, then laid up in cement, and built at a cost of from two to four thousand dollars each, and then only furnishing a half hour's supply; we could select within a few rods of these same locations, a spot clear of ledge, where a reservoir could be sunk and stoned up, as you would a well or cellar, just sufficient to keep the dirt from caving in; or there could be trenches dug in some of our streets, stoned up and covered with flat stones near the surface of the ground, and then connect with the mill-pond or river with a six-inch pipe (cast iron), and we should have high water at all times in every part of our city. Those reservoirs could all be connected, (excepting in those cases where it would be cheaper to have direct communication with the river,) so that in drawing from one, we should draw from the whole—mill-pond and all. The effect would be the same as though the engine were stationed upon a wharf.

Besides, we should relieve the aqueduct company from supplying that amount of water for the extinguishment of fires, and enable them to supply their customers more promptly than they can possibly do, when so large a drain is made upon their limited resources; for at the last two fires, the supply for family use was cut off in many localities, so that if by accident a fire had taken place there, they could not have procured a single drop from the aqueduct to extinguish it.

In the burning of Congress Block, the reservoir on Market Square gave out, but if there had been a salt water one at the corner of Vaughan and Congress streets, they might have played away until doomsday, and never failed. So of the one on Middle street, that gave out; but if the salt water ones had been put in that vicinity—as they might have been, and several of them, too, at less cost than that one—then they there would be no need of the Fire Companies retreating to Market Square, but they could nobly have stood their ground and bid defiance to the raging element, until every spark was quenched, and that, too, without depriving our citizens of their daily supply of fresh WATER.

Communication.

Messrs. Editors:—We approve of the plan that is adopted in Germany, when a man is suspected of firing his property, and no evidence is found against him: he is paid, but his name is given to all other Insurance Companies, and from that time he can *never* have his property insured again—he is a Cain to the Insurance Companies; everybody suspects him. Were the Insurance Companies of New England to adopt that method, a vast amount might be saved to them, and it would be a terror to the incendiary, and a great saving to the honest Insured—and the same is recommended to our Insurance officers. J.

WASHINGTON ITEMS, Dec. 19.—Perley telegraphs:

There is much speculation here to-night on the probable action of Congress on the question of Reconstruction. Gen. Grant's report is unquestionably entitled to high consideration, but he certainly cannot have had much opportunity to learn the real condition of the people of the South during the few days that he was there, associating with army officers and their friends. Gen. Schurz and other closer and and more careful observers tell a different story.

The Camden and Amboy Railroad monopoly was slaughtered in the House today, notwithstanding the free distribution of free passes. If the Senate adopts the bill, President Johnson will undoubtedly sign it.

☞ On Monday in Washington, an explosion took place in a small building situated at the Arsenal, in which workmen were engaged in sorting ammunition, removing cartridges, &c., which was most terrible and was felt at remote distances in the city.

Seven persons are reported to have been killed and several others so badly injured that their recovery is deemed impossible. They are all employees who had formerly been in the army but who had been given work at the Arsenal. The explosion demolished the building, which extinguished the flames and prevented a great conflagration, as the other buildings near by were stored with ammunition.

☞ With the new year the publishers of Magazines are making great efforts to please the reading public.

Messrs. Ticknor & Fields keep the Atlantic Monthly up to the high standard of the past, while "Our Young Folks," *the* Magazine for children, is even an improvement upon the last year.

— The venerable Mrs. Partington once asked us if we believed that everything was foreordained beforehand in advance. We were compelled to answer that sometimes we did and sometimes we didn't. She remarked that her son Isaac says he knows one thing was foreordained sure, and that is, that the J. Monroe Taylor Gold Medal Soap will supersede and run out every other kind of soap made. The old lady further remarked, that she believed so too, and was sure there was no other as good, for she had tried it. 25

— It appears that while the English are unable to stay the cattle plague, which has carried off 20,000 cattle since it began, the Hollanders are meeting with great success by resorting to homeopathy.

— According to a calculation in a recent Paris journal, the total nominal strength of the armies of Europe is 4,735,782 men; or, for a population of 372,000,000, one soldier to about 75 inhabitants. At the minimum cost of 600f per man, the total would be 2,841,469,200f per annum.

— A retired actress has lately opened in Paris what she styles a "Temple of Fashion." The goods are extravagant in beauty and price, and advertised as suitable for those only whose incomes are commensurate with the modern decrees of fashion. The shopmen engaged will be allowed only to exhibit the goods, without praising, or urging the customers to purchase.

— Capt. Severy, of Farmington, Me., lost a cow last week without any apparent disease; but an examination after her death discovered the cause—a piece of hoop skirt steel spring about two inches in length, which the cow had swallowed, and not being able to digest it, had worked through the stomach and had just penetrated the heart, causing instant death.

"*Great oaks from little acorns grow.*" The worst diseases known to the human race spring from causes so small as to almost defy detection. The volumes of scientific lore that fill the tables and shelves of the medical library only go to prove and elaborate these facts. Then guard yourselves while you may. The smallest pimple on the skin is a tell tale and indicator of disease. It may fade and die away from the surface of the body, but it will reach the vitals, perhaps, at last, and death be the result and final close. MAGUIRE'S BILIOUS, DYSPEPTIC and DIARRHEA PILLS cure where all others fail. While for Burns, Scalds, Chilblains, Cuts, and all abrasions of the skin, MAGUIRE'S SALVE is infallible. Sold by J. Perry's Moth and Freckle Lotion.
☞ Chloasma, or Mothpatch, (also called Liver-spots,) and freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they rarely mar the beauty of either; and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, reliable and harmless.
Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.

KNOWLEDGE OFTEN SAVES LIFE.

Every living being has in his system IMPURITIES.

When these are within their natural limits, our health is good; but when they are in excess, pains, colds, rheumatism, gout, debility, costiveness, diarrhea, dysentery, erysipelas, &c., &c., afflict us. What we have to do to recover our health is to take out from the BOWELS AND THE CIRCULATION the excess of impurities This done, health follows of necessity.

DESTRUCTIVE FIRE.—By a dispatch from the Reform School, Manchester, to Hon. Horton D. Walker of this city, Pres. of the Institution,—we learn that a fire broke out in the Cook Room of the Reform School building, early Wednesday morning, and that the building would doubtless be a total loss.

Later accounts state that the woodwork of the building was entirely destroyed, only the brick walls left standing. Much of the furniture is saved. The new barn was not injured. The loss is estimated at $40,000; insured for about $20,000. The fire broke out at half-past 5 o'clock in the morning, and Mr. Shattuck, the superintendent, says it was incendiary. Eight or ten boys ran away. The rest are in the Stark Mansion House, on the same farm.

☞ Speaking of that Grenite State Club—whose name is significant of we don't know what, unless it be that theirs is a very "hard" institution—and who don't exactly "disturb our *slumbers*," though only because we don't sleep near them, but find rest at the West End, the best and most quiet part of the city—we were going to say, concerning this Club, that a young man in Treadwell's Block, State Street, and who sleeps there, tells us that when they were located in that building, never a wink of sleep could he get, for their late carousals. "Oh! their offence is rank—it smells to heaven." Tobacco strong enough to knock a decent man down.

☞ The ladies of the Middle Street Society will hold a Fair in the Court House, this (Thursday) P. M. at 3 o'clock and evening at 7 o'clock.

Sale of choice articles for Christmas and New Year's gifts at *low prices*. Refreshments of all kinds.

☞ The lecture upon California life, to be delivered this evening by Mr. Spurr, is said to be one of great interest. A merchant in Boston, and well known in this city, Mr. S. speaks of things of which he knows, having lost one arm in an encounter with a grizzly bear in the modern El Dorado.

W. D. WINSLOW & Co.'s Dramatic Combination open at the "Temple" two evenings of this week, viz. Friday and Saturday. The troupe comprises members from the leading theatres of the country, and are spoken of in the warmest terms by the entire press of Portland, where they are now playing. Their opening pieces are "The Hidden Hand" and "My Neighbors Wife," which will introduce the whole of the company to a Portsmouth audience. They should crowd the Temple both evenings.

☞ The best and most appropriate Christmas Gift that can be made, is the "Poets of Portsmouth," which, in the various styles of binding, can be procured of Joseph H. Foster.

QUICK PASSAGE.—Ship Charger, built at this port, (of Boston) arrived at Boston Tuesday morning from San Francisco, in a little over 93 days passage.

INSURANCE CASE.—In the Boston Superior Court, Lord, J., in the case of Daniel Webster, Jr., vs. the Prescott Fire & Marine Insurance Company, which was an action to recover $2500 insurance on a stock of goods insured by defendants at 65 Broad street, and which has been on trial some days, the jury Tuesday afternoon returned a verdict for the defendants.

Some time since the plaintiff, with others, was tried for setting fire to the store 65 Broad street, but the Jury disagreed, but this jury agreed that he ought not to get his pay.

☞ Hon. Thomas Corwin, of Ohio, aged 71 years, died at Washington on Tuesday. He was an ardent loyal man, and had filled several important public stations.

Business Notices.

THE HOLIDAYS.—The gayest season of the entire year is now approaching, but whilst we are enjoying this festive season, let us not forget that in time of health we must always be prepared for disease. Coughs, colds, sore throat, croup, asthma, and whooping cough are speedily cured by Coe's Cough Balsam. Whilst dyspepsia, constipation, sick headache, sour stomach, indigestion—the most prolific source of ill-health, are certainly cured by the timely use of Coe's Dyspepsia Cure. d19-eodawlw

By ALBERT D. RICHARDSON,

N. Y. Tribune Correspondent.

1,000 COPIES SELLING PER DAY!

The most interesting and exciting book ever published, embracing Mr. Richardson's unparalleled experience for four years. Travelling through the South in the secret service of The Tribune at the outbreak of the war, with our armies and fleets, both East and West, during the first two years of the Rebellion; his thrilling capture; his confinement for twenty months in seven different Rebel prisons; his escape, and almost miraculous journey by night of nearly 400 miles. It abounds in stirring events, and contains more of the fact, incident and romance of the war than any other work yet published.—Horace Greeley says of it:

"A great many books will yet be written concerning this war, in addition to the many already in print; but not one of them will give, within a similar compass, a clearer, fuller, more readable account, entirely from personal observation, of the nature, animus, purposes, tendencies, and instrumentalities of the Slaveholders' Rebellion, than does the unpretending narrative of Mr. Richardson."

Teachers, ladies, energetic young men, and especially returned and disabled officers and soldiers, in want of profitable employment, will find it particularly adapted to their condition.—Send for Circulars. Address

HASHEESH! HASHEESH!

One of the oldest Remedies known to Medical Science.

THE HASHEESH CANDY

Now imported and prepared by the SYLVAN ORIENT CO., under the supervision of one of the most thoroughly Medical Chemists in the country, is the only pleasant and reliable preparation of this Remedy ever offered to the public, and is fast taking the place of, and will soon supersede, all other Medicines now used for the alleviation or cure of

NERVOUSNESS, NEURALGIA, GENERAL DEBILITY, DYSPEPSIA, HEADACHE,

and all diseases of the Nervous System. In Oriental countries, HASHEESH has, for centuries, been the theme of Poets, Philosophers and Novel Writers, both for its marvelous influence on the mind, when used experimentally, and for its allmost miraculous qualities, when prepared as a Medicine.

The Bengal Dispensatory says "the effects of Hasheesh are popularly known in the south of Africa, Turkey, Egypt, Asia Minor, India and all the adjacent territories; and in all the popular medicines of those countries it is extensively employed for a 'multitude of afflictions.'" In a standard treatise of Materia Medica, more than six hundred years old, it is described as the most valuable of all remedies.

Sold by all Druggists. Imported only by the

VINELAND

FARM AND FRUIT LANDS.

In a mild and healthful climate. Thirty miles *south* of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.

The soil is rich and *productive*, varying from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country*. Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense yields. Vineland is one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. Flourishing, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.

Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.

Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.

For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.

Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.

Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.

From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and suitable conditions for pleasant farming that we know o this side of the Western Prairies.* nl—dawôm

The Chronicle.

— The attempt to stock the Australian rivers with salmon has been so far successful that the rivers Derwent and Plenty now contain upwards of two thousand of that valuable fish.

— Roman tombs, more than fifteen hundred years old, containing cinctary urns and fragments of pottery, have been exhumed close to Queen Victoria's palace, at Windsor.

— The "Trent"—the historic vessel associated with the seizure of Mason and Slidell, has not long survived the American war. At last accounts she was at the Isle of Dogs, where she was to be broken up. Her career is ended.

— The town and canton of Vica, Andalusia, Spain, are being ravaged by an invasion of spiders. All vegetation is eaten up by those insects, and their bite produces a very painful swelling.

— The Galena (Ill.) Gazette states that the people of Warren county are using corn for fuel. The reason assigned is cheapness. Corn in the ear gives more heat than the same bulk of wood. Ear corn is worth ten cents per bushel and seventy bushels make a cord, worth seven dollars. A cord of wood costs nine dollars and a half, a difference of two dollars and a half in favor of the corn, with the increased heating power thrown in.

— They had in Waterbury, Conn., the other day, a practical illustration of "Nothing to Wear," an inebriated individual being found in one of the principal streets stark naked. He was toted home on a wheelbarrow.

— The property left to his children by Tom Sayers, including the value of his personal effects amounted to about $18,000. About $2500 were found sewed up inside his vest after he died.

— The recent severe earthquake in California was followed by a rise in the streams of Santa Cruz county, which bids fair to be permanent. If so it will be worth millions of dollars, in water power, to the county, not to mention facilities for stock raising and irrigation.

— A French vessel which recently arrived at Tonlon had on board an immense vase taken from the temple of Venus, said to have been erected by the Phœnicians at the ancient city of Amathonte, in the island of Cyprus. The temple has long been a mass ruins. The vase weighs thirteen tons.

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!
TARRANT & CO
Gentlemen, I am a resident of Curacoa, and have often been gratifiaed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.
For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabinis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.
I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.
Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,
I am very respectfully yours,
S. D. C. HENRIQUES,
Merchant, Curacoa, S. A.

VOL. XXVII. PORTSMOUTH, N. H. FRIDAY, DEC. 22, 1865 : 356. No. 149.

Morning Chronicle.

☞ In the Superior Court, in Boston, Judge Russell on the bench, Hector McLean and John Farrell, who were arrested Wednesday morning for garroting and robbing an Italian named John Silvas of $47, have since been indicted, tried and convicted, and on the Tuesday following were each sentenced to hard labor in the State Prison for the term of 25 years. That is prompt justice, and a righteous sentence.

HARNESS THIEVES.—Early on Monday evening a man entered the yard of Mr. Prentiss Hill's stable, on Main street, in Charlestown, Mass., and unharnessed a horse which was hitched to a buggy, and carried off the harness, leaving the horse and vehicle behind. There have been about a dozen thefts of harnesses in the suburban cities around Boston within a few nights, and it is believed that there exists an organization of horse thieves who have a ready market for their plunder.

☞ About a week ago, six or eight students of the Freshmen class at Harvard indulged in a raid among the quiet citizens of Old Cambridge, destroying street lamps, unhinging gates, etc., and mutilating a fountain representing the Goddess of Liberty on the grounds of Mr. Hastings, Brattle street. Two of these frisky fellows, named Wm. T. Bule, of Rhode Island, and Saml. Dinsmore, of Keene, N. H., were arrested by the police and fined by Justice Ladd of the Police Court $20 for breaking street lamps and disturbing the peace.

Since their conviction in the Police Court, the Faculty of the College have made an examination into the matter, and found that the facts as alleged are true, and consequently for the good name and reputation of old Harvard, on Tuesday expelled the above named young men from College.

—Miss Harriet E. Prescott, the authoress, was married to Richard S. Spofford, Jr., Esq., of Newburyport, Tuesday.

— There is at present living in Sweden a young man aged 19, who is nine feet five inches in hight; at 8 years of age he was five feet four inches.

— Kansas is have a State University, to be located at Lawrence. It has an endowment of 46,000 acres of land and $15,000 as an initiatory investment, and its prospects are said to be very encouraging.

— The widow of Ex-Governor Allston (and sister of the late J. L. Pettigrew) is keeping a school in Meeting street, Charleston. That is right.—If she has learning, let her instruct the ignorant who abound there. Why should she hide her light under a bushel?

— The Mississippi Legislature recently passed a law prohibiting freedmen from renting or leasing lands. The Vicksburg Herald says that as soon as information was received in Washington of the passage of the bill, the President ordered it to be disregarded. Gen. Howard issued an order to the Superintendent of the Freedmen's Bureau in the State, and the Secretary of War has ordered measures to be taken for the redress of such freedmen as may be arrested for violating the law.

— The Savannah Herald contains an order from Col. Bogart putting the town of Thomasville, Ga., under martial law, as the municipal government is unable to protect the lives and interests of its inhabitants or prevent attempts at assassination of unarmed United States soldiers. One J. A. Seward and City Marshal Atkinson of Thomasville are to be tried by court martial for stabbing an unarmed colored soldier.

Portsmouth, N. H.

FRIDAY, DECEMBER 22, 1865.

GEN. GRANT'S VIEW OF THE SOUTH.—Gen. Grant has given his views of the present condition of the late rebel States, derived from his late visit, and it is very favorable; more so, we believe, than it would have been, had he staid among those States a little longer; and much more favorable than it will be next Spring, if Congress should act as if all was right there.

He tells us in his Report, that as Virginia is so near Washington:

I hastened through the State without conversing or meeting with any of its citizens. In Raleigh, N. C., I spent one day; in Charleston, S. C., I spent two; and in Savannah and Augusta, Ga., each one day.

In these brief stops, and in travelling on the railroads, he conversed with army officers and citizens, and says:

I am satisfied that the mass of thinking men at the South accept the present situation of affairs in good faith. And yet he tells us the rebellion and war throughout the the States have left the people, possibly, in that condition not to yield that ready obedience to civil authority which the American people have generally been in the habit of yielding. I did not meet any one, either those holding offices under the Government, or citizens of the Southern States, who thought it necessary to withdraw the military from the South at present. The white and black mutually require the protection of the general government.

He therefore recommends the keeping of a small force of white troops at many points in the interior of these States, and to employ black troops only in the Forts on the seacoast. He gives as a reason for this advice that black troops in the interior, might produce a bad effect on the freedmen, and says "There is danger of collision from such causes." [Though the telegraphic report as rendered in the papers makes him (very absurdly) to say, "There is *no* danger."]

He says:

My observations lead me to the conclusion that the citizens of the Southern States are anxious to return to self-government within the Union as soon as possible; that while reconstructing they want and require the protection from the Government that they think is required of the Government, and is not unmilitary to them as citizens, and that if such a course was pointed out they would pursue it in good faith. It is to be regretted that there cannot be a greater commingling at this time between the citizens of the two sections, and particularly of those intrusted with the law-making power.

[The rush of a body of unconverted rebels into the "law-making power" (that is, Congress) aided by the copperhead element now there, would make confusion worse confounded, and lead to another Jamaica or St. Domingo trouble.]

Gen. Grant says:

I did not give the operations of the Freedmen's Bureau that attention I would have done if more time had been at my disposal. He finds some defects and faults in its administrations in some of the States, but he speaks highly of Gen. Howard, its head, adding:

In some form the Freedmen's Bureau is an absolute necessity until the civil law is established and enforced, securing to the freedmen their rights and full protection.

The Freedmen's Bureau being separated from the military establishment of the country, requires all the expense of a separated organization. One does not necessarily know what the other is doing, or what orders they are acting under. It seems to me this could be corrected by regarding *every officer* on duty with the troops in the Southern States as agents of the Freedmen's Bureau, and then have all orders from the head of the Bureau sent through the Department commanders.

If we consider how thoroughly proslavery views and plantation manners prevailed at West Point before the war, we should feel somewhat doubtful what sort of justice some of the officers trained there would deal out to the working people of the South:—some would doubtless do well, but they should be selected.

WASHINGTON ITEMS, Jan. 20: by Perley. The Senate Committee on Manufactures, of which Governor Sprague is Chairman, gave a hearing to J. G. Kennedy, the discharged Superintendent of the census, who complains that his name has been omitted from the volume published since his dismissal.

It is rumored that Napoleon has ordered the concentration of the French troops in Mexico, preparatory to their withdrawal. Another is that Maximilian has recruited Austrians to take their place.

The election at Washington, on negro suffrage, will be a farce, as the friends of that act of justice will not go to the polls.

Secretary Welles has prohibited naval officers from coming to the District unless ordered, which will prevent Congress from being bored about increased pay.

The House Committee of Military Affairs will report a bill for the equalization of war bounties, after the holidays.

☞ A great gale of wind at New York, on Thursday, did mischief among the vessels. A schooner was wrecked on Long Branch, and captain, his wife, and three of the crew were lost.

CONGRESS.—On Wednesday, Dec. 20, both Houses agreed to adjourn to meet Jan. 5th.

In the Senate, the bill for the payment of $25,000 to the widow of Pres. Lincoln was passed.

A bill was reported removing the distinctions of color from the elective franchise in the District of Columbia.

The bill to maintain the freedom of inhabitants of the States lately in rebellion, was taken up, and Mr. Sumner proceeded to speak of the right of Congress to pass the bill, and read a number of letters from the Southern States, private and public, to show that the spirit of rebellion still existed there, and that the rights of the freedmen were being disregarded in all of the Southern States.

In the House, the resolution that Jeff. Davis should be tried and punished for treason, and for inhumanity to starve prisoners, was ordered to be printed.

Mr. Stevens of Pennsylvania presented the petition of Judge Warmouth, asking to be admitted to the House as a delegate from Louisiana, and purporting to be signed by 19,000 voters. Referred to the Reconstruction Committee.

The House passed the Senate joint resolution authorizing the President to divert certain funds heretofore appropriated, for the immediate subsistence of destitute Indians and Indian tribes.

HAYTI.—An arrival from Port au Prince, 13th inst., reports Gen. Salnave at Monte Christo, in San Domingo, with his staff and Senate. He was recruiting his army, which was being strongly reinforced by deserters from Geffrard's forces. There was great excitement at Port au Prince. Reinforcements were being sent forward to Cape Haytien, where an attack from Salnave was expected. Gen. Geffrard sent a commissioner to the San Domingo government to request the delivery of Salnave, and afterwards offered $40,000 for his capture, and various sums for the persons of his Council. The Haytiens universally favor the revolution against Geffrard.

[Universally is a very strong word—and in this case throws a doubtful shadow on the veracity of the relater.]

A GOOD-LOOKING CONGRESS.—The Washington correspondent of the Methodist gives the following complimentary characterization of the personal appearance of the new Congress:

The personal appearance of this Congress, in face, dress, manner, and in that indefinable something which we call "air," is far superior, as our memory reports, to anything in the history of the past. There seems to be but few representatives of the class of "fast men" who formerly figured so conspicuously in Washington—no dapper, whip-snapper looking specimens; the roughs, too, seem scarce, and the great mass wear an air of thoughtfulness as though they understood and felt the magnitude of the errand that brought them to the Capitol.

APPREHENDED TROUBLE AT NORFOLK. The Norfolk Post says a general impression pervails in that city that the negroes are armed and contemplate mischief. It warns them against making a disturbance, telling them that if any happens, "Morant Bay [Jamaica] will be repeated, and Norfolk will not be a comfortable place ever after for a colored man."

Exactly so. The Slavocracy of Virginia, like that of Jamaica, and like the Bourbons, forget nothing and learn nothing. An old fool, or an old tyrant, like an old drunkard, is certainly *almost* irreclaimable,—but not quite. A moral earthquake, or a dreadful war, can change the aspect. And if this nation, and its several parts, are not ready to do justice and show mercy now, there are yet more judgments in store for us: for verily there is a *reward* for the [wicked as well as for the] righteous: verily there is a God that judgeth in the earth.

CONFESSED AT LAST—That Herrick Allen's Gold Medal Saleratus is the best article known for making nice light Bread, Biscuit, Pies, Puddings, &c. Baseless imitators are trying to palm off to the public their article, saying it is Gold Medal, or as good; therefore, all who would preserve their stomachs and health, look and see that the name of Herrick Allen is on the wrapper, and be not put off with the spurious because the Merchant tells you that it is as good. Have nothing but the genuine Gold Medal. Dyspeptics can use it, and it will do them good. Try it. 26

☞ Speaking of the debate between Senators Sumner, Johnson, Sherman, Doolittle and others, Perley says:

It is now very evident that after the holidays there will be animated debates, and some hard personal hits exchanged in Congress; but the Democrats who hope to obtain possession of the government, will find themselves mistaken.

☞ A Georgia editor says it is a much more vital question to the South, whether the whites will work, than whether the blacks will refuse to work. The loudest and noisiest blatherskites about the constitutional laziness and persistent indolence of the negro, are stout young white men, who loaf about the corners, with their hands in their pockets, chew tobacco and drink bad whiskey, while their mothers keep boarding houses to pay family expenses and keep up appearances.

GOLD, Thursday, 146 1-4: inactive.

Local.

☞ A friend informs us that the Stars and Bars has some sort of mention of us, relative to the Granite State Club. We haven't seen but one copy of that delectable sheet (respecting which which we guess the post must have written that famous couplet, "I slit a sheet, and a sheet slit me,") for several months; we have better business than looking after such dirty fellows as they of the Club or their defenders, unless they get under our nose—and especially at this time, when we are so busy signing our autograph testimonials to subscribers for 1866.

☞ Mr. A. L. Jennes informs us that there was but $1000 insurance on his stable—in a Springfield Company. The Journal states Mr. Woodbury Locke's insurance on his livery stock, at $4660; and Mr. Leonard Akerman's on house, barn furniture and all, only $3350. The Christian Church had but $1500 insurance—and all these buildings must be considered as insured very lightly. Mr. Jennes was in Hampton, the night of the fire, and saw the blaze plainly, but located it at the South End or in New Castle. Everybody who looks at the ruins and the surroundings, must conclude that no fire department ever managed a fire better, than did ours this,—to stop it where it began, and especially to save the Church and Mr. Akerman's house after they had got so completely on fire.

☞ We learn that Lieut. I. H. Washburne of the U. S. Marine Corps, formerly stationed here, and recently of the U. S. receiving ship Vermont at the Brooklyn Navy Yard, has been detached and ordered to the steamer Rhode Island.

☞ Master H. Richard Billings has been ordered to steamer Mackinaw, now fitting at this station—to report for duty 5th prox. He has been on leave for four months, and has now asked to be dismissed the service.

☞ On Thursday afternoon, a story was afloat at the Navy Yard concerning the drowning of a man near the Dry Dock, but we learn that there was no truth in the report, it having arisen from the fact of a boat being adrift near the steamer Speedwell, the heavy wind and sea having parted her moorings.

☞ The Philharmonic Society will Rehearse at Mercantile Hall, on Saturday evening at 8 o'clock—the programme for their Christmas Concert. 2t

☞ The light caused by the burning of the stable on State street in this city on Thursday evening last; was so plainly seen in Dover as to cause an alarm of fire there.

PROMPT.—The General Agent of the Massasoit Insurance Co. of Springfield arrived in town on the morning train Tuesday, and at once adjusted the loss of A. L. Jennes on his stable in State street, and left town in the 11 1-4 train. Jos. D. Pillow is the Local Agent of that Company.

☞ "Hours at Home," for January, at J. H. Foster's.

☞ The Manchester Union, in a particular account of the fire at the Reform School, gives the following item as to the origin of the fire:

The basement room, where the fire originated, was used only for a water tank and the storage of a few barrels of flour, and had in it no inflammable materials; was shut from all access to the boys within, and it is supposed must have been set on fire from the window on the outside. Approach to the window (common glass with no grating) was easy from without. The room was locked, and no fire had been used in it. The door was closed till Mr. Shattuck burst it open and saw the fire near the window.

It is said this building, aside from the land, cost $34,000;—and being insured for $20,000, can be so repaired as to be used again, for that sum.

NEW HAMPSHIRE ITEMS.

—— Nearly if not quite 200 voters of Lancaster have joined in a request and promise of assistance to the Selectmen of the town, to summarily dispose of the liquor traffic, which has occasioned the unusual and disgraceful spectacles, seen during the last few Saturdays in our streets. There is good prospect that the sale will be voluntarily closed. Lancaster will speedily assert her position as an order-loving and temperate town.—*Coos Republican.*

—— Nearly or quite four hundred voters of the Town of Claremont, we believe, if they could without the bias of interest, favor affection, express their real sentiments upon the subject, would not only unite "in a request and promise of assistance to the Selectmen of the town to summarily dispose of the liquor traffic;" but, if again unsuccessful in such request, would feel very much disposed to "try some other herb," as the good deacon was advised to do who stumbled at the word "*hyssop.*" We have a sort of presentiment, that if the sale is not "voluntarily closed" here before the "ides of March" come round, something will happen, "not dreamed of in our philosophy."—*Claremont Eagle.*

—— The Cocheco Manufacturing Co. pays a semi-annual dividend, at this time, of $40 on a share.

☞ A fire at Camp Douglas, (near Salt Lake,) on Wednesday, destroyed the last U. S. storehouse there, full of government supplies, worth $1,000,000. Supposed incendiary.

Notice.

There will be a SABBATH SCHOOL EXHIBITION at the Methodist Church in Greenland, on **Christmas Evening**, Monday, Dec. 25th, commencing at 6½ o'clock. After which, Santa Claus will appear and distribute Presents from a Christmas Tree. If stormy, first fair evening after. d22—3t*

THE SECRET SERVICE, THE FIELD, THE DUNGEON, AND THE ESCAPE.

By ALBERT D. RICHARDSON,

N. Y. Tribune Correspondent.

1,000 COPIES SELLING PER DAY!

The most interesting and exciting book ever published, embracing Mr. Richardson's unparalleled experience for four years. Travelling through the South in the secret service of The Tribune at the outbreak of the war, with our armies and fleets, both East and West, during the first two years of the Rebellion; his thrilling capture; his confinement for twenty months in seven different Rebel prisons; his escape, and almost miraculous journey by night of nearly 400 miles. It abounds in stirring events, and contains more of the fact, incident and romance of the war than any other work yet published.—Horace Greeley says of it:

"A great many books will yet be written concerning this war, in addition to the many already in print; but not one of them will give, within a similar compass, a clearer, fuller, more readable account, entirely from personal observation, of the nature, animus, purposes, tendencies, and instrumentalities of the Slaveholders' Rebellion, than does the unpretending narrative of Mr. Richardson."

Teachers, ladies, energetic young men, and especially returned and disabled officers and soldiers, in want of profitable employment, will find it particularly adapted to their condition.—Send for Circulars. Address

AN ANNIVERSARY.—The Round Table, to whose criticism any foible (however sanctioned by public usage,) is a legitimate mark, has characterized fin, silver and golden weddings, as "benefit nights for married beggars." But we have to record an anniversary which, coming under neither of these heads, cannot be placed under the Round Table's caustic lash. A pleasant family party gathered at the Franklin House in this city, on Thursday evening, to commemorate the thirty-ninth anniversary of the marriage of Gen. Josiah Hadley, the landlord.

Gen. Hadley has been long and favorably known in this city, from his extended connection with the hotel business. At the time of the occurrence of the happy event, whose anniversary he has just celebrated, he was clerk for Mr. Ebenezer Clark, the landlord of the Farmer's Hotel, standing on the lot now occupied by the Post Office. Mr. H. was clerk for Mr. Clark from June, 1824, until 1827, when the latter died; and Mr. Hadley kept the house for his widow, until his lease expired, which was in 1828. With Mr. Clark's widow Mr. Hadley kept the old house, under the name and firm of Hadley & Clarke, until it was taken down. Mr. Hadley bought the Farmers' Hotel in 1832, and in 1833 he had it pulled down, in order to erect the Piscataqua House upon its site. This latter house he kept until June, 1857, when it was removed to make room for our new Post Office Building.

From that time until about a year since, Mr. Hadley lived the life of a private citizen; but the public he had served so long and faithfully, felt the want of a good landlord for the Franklin House, since the time of Mr. Barnabee's decease, and the General again put on the harness, which he had ever worn with credit to himself and to the pleasure of his patrons. He now has his son-in-law, Mr. Perkins, for partner; and the "old gentleman" seems not to carry more than half the years he has passed through, and we hope may celebrate double this anniversary of to-day.

☞ W. D. Winslow & Co.'s Dramatic Combination opens this evening at the Temple, with their large and talented organization, appearing in two capital pieces, Mrs. E. D. E. N. Southworth's emotional story, "The Hidden Hand, or the Mystery of Hurricane Hall," and the laughable farce of "My Neighbor's Wife." The whole company is in the cast. Judging from the flattering notices in the Portland papers, this troupe is somewhat better than are in the habit of visiting that city. Our citizens will of course see them and then judge of their merits. Their stay is limited to this and to morrow evenings. To-morrow an entire change of performance.

☞ We learn that a subscription is on foot, (and we hope it won't get tired,) to build the long-talked-of Bridge across the North Mill Pond. It will be sixteen feet wide, for carriages as well as foot passengers; and will start from the foot of Lime (which should be called Cabot) street, near Sagamore Mill, and land we believe at foot of Sparhawk street, opposite City Farm, on the other shore. This bridge ought to have been built long ago, and also another across the South Pond. And a company of men would have done the latter a few years ago,—and we have no doubt somebody would *now*—if the land on the southerly shore could be bought. But as is the case in too many localities in this city, like all similar old places,—there is too much land in a few hands who won't use it or allow it to be used, for the interest or growth of the place—and you have to "wait for somebody to die," before you can hope for this or that improvement, according to a common expression. But all the old fogies are not gray-headed, by a great sight.

☞ The Philharmonic Concert for Christmas Night, at the Temple, will be one of the most interesting entertainments ever given by our home talent. The programme embraces some of the grandest sacred choruses and most beautiful glees, with songs, &c., to make up a pleasing variety. Mr. Morey's fine song and chorus, the Flag of the Free, will be just in order at this time. Secure your tickets in season.

☞ It is again reported that the French troops are about to leave Mexico; but it may not be true: or if true, Austrians may supply their place.

— Henry Ward Beecher's Church gave $10,000 toward the Congregational Church building fund; Rev. Dr. Storrs' Church, Brooklyn, gave nearly $2000.

— A lady writes from Richmond under date of the 28th ult.; "Our Orphan Asylums, both Protestant and Catholic, are in the most dreadful need—they are in a state of perfect destitution: no fuel, no food, no clothes. What is to become of these poor helpless children during the next trying months of winter? There are no rich here to help the poor—our city is one wilderness of poverty. In your bright gay world you cannot realize the sorrows and troubles of ours."

Business Notices.

PEARLS AND RUBIES.—White teeth cropping from out of ridges of ruby, a breath spicy as the airs from Araby the Blest. Who can resist such fascinations? To realize them, to perpetuate them, to make the mouth a casket of pearls and rubies, and every sigh a gush of fragrance, all you have to do, fair ladies, is to use that matchless vegetable preparation, Fragrant Sozodont. dec19eodlw

HASHEESH! HASHEESH!

One of the oldest Remedies known to Medical Science

THE HASHEESH CANDY

Now imported and prepared by the SYLVAN ORIENT CO., under the supervision of the most thorough Medical Chemists in the country, is the only pleasant and reliable preparation of this Remedy ever offered to the public, and is fast taking the place of, and will soon supercede, all other Medicines now used for the alleviation or cure of

NERVOUSNESS, NEURALGIA, GENERAL DEBILITY, DYSPEPSIA, HEADACHE,

and all diseases of the Nervous System. In Oriental countries, HASHEESH has for centuries been the theme of Poets, Philosophers and Novel Writers, both for its marvelous influence on the mind, when used experimentally, and for its almost miraculous qualities, when prepared as a Medicine.

The Bengal Dispensatory says "the effects of Hasheesh are popularly known in the south of Africa, Turkey, Egypt, Asia Minor, India and all the adjacent territories; and is all the popular medicines of those nations, we find it extensively employed for a 'multitude of afflictions.'" In a standard treatise of Materia Medica, more than six hundred years old, it is described as the most valuable of all remedies.

Sold by all Druggists. Imported only by the

Special Notice.

"Great oaks from little acorns grow." The worst diseases known to the human race spring from causes so small as to almost defy detection. The volumes of scientific lore that fill the tables and shelves of the medical fraternity only go to prove and elaborate these facts. Then guard yourselves while you may. All we ask, the smallest pimple on the skin is to tell tale and indicator of disease. It may fade and die away from the surface of the body, but it will reach the vitals, perhaps, at last, and death be the result and final close. MAGGIEL'S BILIOUS, DYSPEPTIC AND DIARRHEA PILLS cure where all others fail. While for Burns, Scalds, Chilblains, Cuts, and all abrasions of the skin, MAGGIEL'S SALVE is infallible. Sold by J. MAGGIEL, 42 Fulton street, New York, and all Druggists, at 25 cents per box. dec6eod&wly

FARM AND FRUIT LANDS,

In a mild and healthful climate. Thirty miles *south of Philadelphia* by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.

The soil is rich and *productive*, varying from a clay to a sandy loam. Adapted to Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country.* Five hundred Vineyards and Orchards have been planted by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.

Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.

Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the lines of Steam Power, with room, can be rented.

For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.

Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.

Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.

From Report of Solon Robinson, Agricultural Editor of The Tribune, published in 1864: *"Nine fertile tracts, in an almost level position with the condition far pleasant farming that we this side of the Western Prairies.* F

WHEN IN OUR NURSERY GARDEN,

When in our nursery garden falls a blossom,
And we who kiss the hand and fold the feet,
We cannot see the smile in Abraham's bosom,
Nor hear the footfall in the golden street?

When all is silent, neither moth nor cheering,
The hush of hope, the cold of all our cares,—
All but that harp above, beyond our hearing,
Then most we need to trouble Him with prayers;

Then most we need the thoughts of Resurrection,
Not the life here, 'mid pain, and sin, and woe,
But ever in the fulness of perfection,
To walk with Him in robes as white as snow.

— In Wilmington, Del., two negro men named John Walker and Robert McKay, convicted of larceny by the New Hanover County Court, have been sentenced to be sold into servitude for a period not exceeding five years. The sentence is agreeable to the laws of the State in relation to freedmen before the war.

Exactly so: but Delaware must consid er now, that slavery is abolished in spite of her stupid conservatism. She should revise her criminal code. She probably does not sell white men for theft, though we do not see why she might not, as well as to put them in the State Prison. Men forfeit their freedom to the State by crime; and States forfeit their powers to the Union by their crimes.

SINGULAR CASE IN THE RETURNS OF THE INCOME TAX.—A gentleman in the year 1863, made $80,000 by speculations in cotton, and in January of 1864 reported the same, but during the first part of the year, owing to the great fall in cotton and gold, he lost not only what he had made, but all his own and friends' money in unlucky speculations. On last May the payment of the tax on the earnings of 1863 became due, and found the gentleman penniless. The United States claimed the payment, and still claims it, and, though no proceedings have yet been taken to get it by law.

THE MINT.—The amount of coinage at the U. S. Mint for the last fiscal year was as follows: gold coin, $25,107,217.50; unparted and fine gold bars, $5,578,482.45; silver coin, $636,308; silver bars, $313,910.69; cents coined, including the two and three-cent pieces, bronze and nickel, $1,163,330; total coinage, $32,819,248.64; number of pieces of all denominations coined, 87,323,851.

☞ A vessel which lately arrived in New York from China reports having picked up, about six weeks ago, midway between Africa and South America, an empty half barrel, painted with the name "Vinson," and supposed to have belonged to the little shell with sailed for Europe eighteen months ago, with two men and a dog, and has not been heard from since.

— J. B. Wiggin, master workman in the blacksmiths' gang at the Navy Yard at Charlestown, Mass., has been suspended without pay by a court martial, for receiving money from persons for furnishing them situations on the Yard.

— Secretary Seward has addressed a communication to Provisional Governor Johnson of Georgia, relieving him from the duties of his office. The dispatches are identical in language with those in the case of Alabama, which have been already published.

— The truest christian politeness is cheerfulness. It is graceful, and sits well on old as well as young. It is the best of all company, and adorns the wearer of it more than rubies and diamonds set in gold. It costs nothing, and yet is invaluable.

— A wiseacre writing to the Portland Argus asks why Herod's wife was like a Fenian organization, and says it is because she had a head sent her (head centre).

THE LIGHT OF THE WORLD.
DR. MAGGIEL'S
PILLS AND SALVE.

These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these

Life-giving Pills!

Have been used with the greatest success. Their mission is not only to prevent death, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be

A Very Fountain of Youth,

For in every case they add new life and vitality, and restore the vigor of youth to their pristine state. To the young and middle aged, they will prove most invaluable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth over.

AN ETERNAL SPRING!

It was left for this day and hour to realize the dream, and show, in one glorious fact, the magic that made it fair.

These Famous Remedies

Cannot stay the flight of years, but they can force back and hold aloof, diseases that might triumph over the aged and decaying. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

FOR BILIOUS DISORDERS

Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once, and the usual accompaniments of the most distressing disease are removed. These remedies are made from the purest

VEGETABLE COMPOUNDS.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

For Cutaneous Disorders

And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.

DR. MAGGIEL'S PILLS

Invariably Cure the Following Diseases:

Asthma,
Bowel Complaints,
Coughs,
Colds,
Chest Diseases,

BOSTON.

ABOUT AN EXTENSIVE PRACTICE OF UPWARDS OF TWENTY years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. The Agency is not only the largest in New England, but through its connections, have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE, and the abundant evidence of SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, can prove, that at no other office of the kind are the charges for professional service so moderate. The longest practice of the subscriber during nearly years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessary fees, a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS:

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy* than Mr. Eddy, to prepare their applications in a form to secure for them an early and favorable consideration at the Patent Office."
CHAUNCEY SMITH,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, some of the claims broad and unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him for the procuring of their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
HON. J. M. ADAMS,
Late Commissioner of Patents.

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!

TARRANT & CO

Gentlemen: I am a resident of Curaçoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabinlis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

Trusting that you will give this publicly, and repeating my earnest gratitude and thanks,

I am very respectfully yours,
S. D. C. HENRIQUEZ,

Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some have attempted, however, to try to deceive their customers by selling cheap and worthless compounds in order to make money. Be not deceived—ask for these medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with full statements in regard to any disease with which ladies or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,

UNSINKABLE SHIPS.—The British are building vessels with air-tight compartments between the deck-beams, and in the broken stowage between the knees in the end; so that in the event of their springing aleak they will not sink lower than the deck. The buoyancy is known of each vessel, hence the weight of the cargo will be regulated accordingly. This plan is designed more for the purpose of saving the lives of those on board than the vessels, although it may be equally available for both when near a port. Along the coast of Great Britain, where collisions are of frequent occurrence, it must be of great value.

☞ The Chicago Tribune expresses its views of public men in the following elaborate simile:

"If President Johnson is at the brakes and Sumner is at the driving-wheel of the train of progress, Wendell Phillips performs the double function of the Drummond light and the cow-catcher. We judge him to be more effective, however, in knocking cattle off the track than in casting a strong light forward into the darkness. It is a necessary consequence of his position and functions that he should occasionally hit some perfectly respectable gentleman, and leave only an interesting family of widow and orphans to mourn his loss."

— A gentleman in Lewiston, Me., says the other day a girl called at his door, and asked if his family "wanted house help." He replied they did. "Do you have small children?" she asked. "No." "Do you have your washing done out of the house?" "No." "Will my room be carpeted?" "Yes." After going on awhile in this manner, the gentleman turned the tide, and said he would like to ask her a few questions. "Can you play the piano?" he began. "Oh, no." "Can you speak French?" "No." "Can you sing the opera?" "No." "Can you dance the Lancers?" "No." "Well, then," he concluded, "if you can't do any of these, you won't suit," and off went the astonished maiden, smelling mice.

— The Richmond Times laments that the fine old Virginia gentlemen, who carried gold-headed canes and were the pride of society, are rapidly dying off. It ascribes their unusual mortality to their use of new apple brandy during the war, instead of good old liquors, and to other deprivations and anxieties. Virginia can spare them.

No. 39 Congress St., Portsmouth, N. H.
—DEALERS IN—
S. Vance's Submerged Well PUMP.
This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.
ITS ADVANTAGES.
First, Simplicity.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.
Second, Durability.—Its peculiar construction, and the fact that it is always submerged, combine to make it the most durable of all Pumps yet invented.
Third, Never Freezes.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.
Fourth, Power.—For the amount of power applied, this Pump excels anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.
Fifth, It is invaluable.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.
Sixth, Cheapness.—This Pump is so made that it costs but a trifle, and is warranted to last in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.
☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,
ISRAEL MARDEN & CO.,
39 Congress Street.
☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony their excellence.

VINELAND
FARM AND FRUIT LANDS.
In a mild and healthful climate. Thirty miles *south* of Philadelphia by Railroad, in New Jersey; in the same line of latitude as Norfolk, Va.
The soil is rich and *productive*, varying from a clay to a sandy loam, suitable for Wheat, Grass, Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country*. Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste*. It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented. For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fruit farms, and on a climate level question, and suitable condition for pleasant farming that we know of this side of the Western Prairies.* B1—dawtu

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, DECEMBER 23, 1865.

WASHINGTON ITEMS, Dec. 22.—In accordance with the resolve of the city authorities a test question was presented to-day as to negro suffrage. About 7000 votes were recorded against and only about 75 in favor of thus extending the franchise. It is said that the friends of the measure, who abstained from the polls, are obtaining signatures to a petition to be presented to Congress, preferring this mode rather than the ballot of expressing their wishes.

Secretary Seward has forwarded communications to Provisional Governor Perry and Governor elect Orr of South Carolina, precisely similar to those sent to Alabama and Georgia. The former is relieved of his duties, and the latter becomes Governor.

Gen. Grant's new residence, the central house in Douglas row, it now being fitted up, and fifty Bostonians have each contributed $50 for the purchase of a library.

The Southern members have met in caucus and agreed to return to their homes, leaving one from each State to look after their interests.

Correspondence of the Chronicle.

BOSTON, Dec. 22.—Last evening the young ladies of Dr. Lewis's Seminary held what they are pleased to term a "physiological soiree," at the Lexington House, in Lexington, receiving their friends to the number of about two hundred, which with the hundred and fifty inmates of the institution, tested the pleasant hall to its utmost. It was one of the few "physiological" things which we have found to be also agreeable, and the admirable manner in which the committee of arrangements fulfilled their duties leaves no point upon which we feel competent to offer suggestions for improvement. Old Harvard sent a full delegation to do homage at the central seat of physical culture, and the habitues of the haunts of fashion were charmed by the exhibition of an unusual sight of natural feeling.

The order of dances included one in which invited guests were not expected to join. It was set down as "Dumb Bell Exercise," and was performed with wonderful precision and energy by about eighty belles, who were anything but dumb. The soiree closed at half past ten o'clock, and from this early hour and the harmless nature of the refreshments, it took its name.

To-day, the 245th anniversary of the landing at Plymouth Rock, the streets of Boston are witnessing a spectacle that proves the sons of those sires are not unworthy their parentage. The representatives of more than three-score regiments and batteries are marching with the banners, torn and battle-stained, which they bore so bravely and so well through the terrible ordeal of our civil war. The procession is a long one, and the pride which shows itself in the eyes and bearing of the remnants of those once complete organizations is justifiable.

Rent by shot and shell, torn by the charge through the thicket, blackened by smoke and stained by the storm, those flags tell of victory and the triumph of the right, of continued perseverance and its ultimate success; but they also tell of the fearful price in the heart's coin, blood, by which those results were won; and to the men who bear them and who follow them, every name emblazoned upon them speaks of some comrade fallen, of some home left desolate, of heroic suffering and death. The splintered staffs, the dingy, tattered banners, are a legacy to the future which the legators may well be proud to transmit to posterity, and their mute record will be more emphatic in appeal than clarion tongue or facile pen. ION.

☞ The Gale of Wind on Thursday, did much damage at Buffalo, N. Y. Among the items are these:

St. John's Church turret was damaged and the windows broken; the spire of the Universalist Church rocked so badly that it crumbled the capstones and dislodged some of them; part of the roof of the Courier office was blown off; the smoke stack and part of the roof of the Buffalo steel works were blown down; the steam barge International was blown from its moorings and carried down the Niagara for some distance, and a large number of chimneys in all parts of the city are blown down.

☞ The best and most appropriate Christmas Gift that can be made, is the "Poets of Portsmouth," which, in the various styles of binding, can be procured of Joseph H. Foster.

☞ Harper's Monthly for January, filled with choice reading and profusely illustrated, comes to us from A. Williams & Co., Boston. J. H. Foster has it for sale.

— Gen. Sheridan reports a peaceful state of affairs along the Rio Grande. Maximilian's troops have all disappeared.

— A high wind which prevailed in Queen's county, Ireland, a short time since, blew the thatch from the cottage of one Patrick Murphy, and revealed to him a box filled with 4000 guineas and several Spanish dollars.

Correspondence of the Chronicle.

WASHINGTON, D. C., Dec. 21.

Messrs. Editors:—A disinterested observer would be entertained just now, in watching the tempest that has arisen here in prospect of the enfranchisement of the negroes of the District. It is a many-sided quarrel, and unusually spicy, even for this climate. The ball was set in motion by Mr. Sumner, in Congress, on the first day of the session, and has been kept moving by the working of the members on every side. The colored men themselves appear by petitions and in the public prints, in a dignified and argumentative manner, and they are almost the only parties to the question, out of Congress, who make any effort to preserve a gentlemanly behavior. Petitions and remonstrances are in circulation each signed by a large majority of the citizens. The "Universal Suffrage Association" and the "National Democratic Association" have been holding meetings and making speeches; and the city authorities, after considerable heated discussion, have ordered a special election to take the sense of the people on the subject.

By these various means the discordant elements have been warmed and mixed, and our worthy Postmaster, Mr. Bowen, the other day applied the match which has precipitated the explosion, and brought on his devoted head a most diabolical storm. He covered nearly a column of the Washington Chronicle with expressions anything but flattering towards various parties, the city authorities among the rest. The latter, of course, responded in similar style, applying to Mr. Bowen the endearing epithets of "liar and scoundrel." This was but yesterday, and we are now looking with interest for further amusement. Congress meantime goes its own gait, as usual, influenced as much by the clamors of these mighty bodies as by the howlings of a party of contentious cats.

By the way, "liar and scoundrel" are fashionable epithets of late, and have been adopted by Mr. Bradley, one of our most ancient and *respectable* legal practitioners, in addressing the Circuit Court of the District. This Mr. B. is surcharged with the hatred of the new order of things, peculiar to this latitude, which is ready to break out on the most trifling occasion.—There was no excuse for him, and it is to be hoped that when the case now pending (a very dirty one, such as Mr. B. most affects,) is disposed of, an example will be made of him sufficient to prevent a repetition of the offence.

Members of Congress have not always avoided these failings, but no one would have expected to polished a gentleman as Mr. Sumner to cast the implication of falsehood publicly upon the President, as he did yesterday; and, worse than all, to compare him with Franklin Pierce. Even if the President is wrong in his views according to Mr. Sumner's notions, it is not to be believed that he has prevaricated. At any rate, 'tis not becoming in a Senator of Mr. Sumner's standing to assert it.

As usual, the two Houses are playing the part of "bull and bear," the one to extend and the other to abridge the Christmas holidays. The matter will doubtless soon be compromised, for the House, like a cunning trader, always proposes more time than it is willing finally to accept.

The sad accident at the Arsenal, whereby ten or more men lost their lives, has made the whole city tremble, since it is known that the magazine near by the scene of the explosion, and which was in imminent danger of taking fire, contains 250,000 pounds of powder. The probable effects of the burning of *that* are terrible to contemplate. That part of the city would have been swept as by a whirlwind. The explosion that actually occurred, of but a few case-shot, left none to tell the cause of the accident. P.

NOTES OF FORMER DAYS.

Collected and Collated by UNCLE TOBY.

The Paper Money Insurrection, 1786—*How subdued and the evil corrected*, 1787.

In our last chapter we gave Belknap's account of the *quasi* battle of Sept. 13, 1786. Here we give his account of our Victory the next day.

The assembly being thus at liberty, requested the president to call out the force of the State to quell the insurrection. In the evening he issued his orders, and before morning companies of militia, well armed, began to come in from the neighboring towns. By ten of the clock in the morning, Sep. 21, 1786, sufficient body of horse and foot, with field-pieces and military music, having arrived, the president put them in motion against the insurgents, who were then parading, about a mile distant. Having by their spies obtained intelligence of the motion of the militia, the unarmed part of the insurgents retreated to a hill beyond the river; the others kept their ground till a party of light-horse appeared in view, and then the whole body retired. Some of them were taken by the pursuers; others recovered the bridge at King's fall, and being met by those who had first retreated, made an appearance as if they would dispute the passage. Orders were given by one of their leaders to fire; but the force of the government appeared so formidable that they dared not to obey. The officers of the militia rushed in among them, and seized their moderator and others, to the number of forty. The rest fled with precipitation, and no farther pursuit was made. The prisoners were disarmed and conducted to the town; where they were brought to an examination before the president and council. Had these men been engaged in a good cause, and commanded by proper officers, they would have maintained the honor of their country, and fought her battles with ardor and perseverance; but conscious of their incompetency in opposing a government of their own establishing, their native fortitude forsook them; and they gave an example of the most humiliating submission. Most of them professed to be ashamed of their conduct, and their shame appeared to be sincere.

The dignity of government being thus vindicated, its lenity was equally conspicuous. Six only of the prisoners were detained, and a party of light-horse was sent to apprehend two others of the most culpable. They were taken out of their beds and brought to Exeter. This manœuvre had an excellent effect, for some, who knew themselves equally guilty, were afraid to sleep in their own houses. The superior court being then in session at Exeter, these eight prisoners were arraigned on an indictment for treason. One dropping on his knees, pleaded guilty. Others hesitated when they pronounced the words "not guilty." They were ordered to recognize for their appearance at the next superior court, when their bonds were discharged. Some of them, who belonged to the presbyterian churches, were cited before the ecclesiastical session, and there censured, as opposers of just government. Others, being military officers, were tried by a general court martial; of these, some were cashiered, but not incapacitated for future service; some were reprimanded, and others were acquitted. The whole opposition was completely subdued; wavering minds became settled; converts were made to the cause of government; and the system of knavery received a deep wound, from which it has not since recovered.

The plan which had been issued by the assembly, for emitting paper money, was in course referred to the people, in their town meetings; and at the next session, Jan. 4, 1787, the returns were made, when a majority appeared against it. To finish the whole matter, two questions were put in the assembly. The first was "whether the legislature can, consistently with the constitution, and their oaths, pass an act making paper bills of credit, a tender to discharged private contracts, made prior to the passing such act?" The other was, "whether paper money be emitted on any plan which has been proposed?" Both these questions were determined in the negative.

To observe the progress of wisdom and virtue, and the obstacles which are laid in the way of vice, is a most pleasing entertainment to the philanthropist; and it is but just, in such a contemplation, to acknowledge that superintending influence, which brings good out of evil. It was feared by many, that the American revolution would not produce that sum of political happiness which its warmest advocates had fondly predicted. The efforts of faction in several of the States were very alarming. In New Hampshire, the assault being made directly at the supreme head of the government, the force of the State immediately rose and crushed it. In Massachusetts, the attacks were made on the judicial courts, which of themselves had no power effectually to oppose them. The disaffection there rose to a higher degree; it was more extensively diffused, and with more difficulty quelled. But at length, the constitutional powers of government being exerted with vigor, the spirit of anarchy was suppressed. In another neighboring State, the same spirit reigned triumphant. A depreciating currency was established by law, and pertinaciously adhered to by the government.

—A household without the J. Monroe Taylor Gold Medal Soap on hand is like a garden without flowers or a family without children. We pity each and all alike, but have no sympathy with the family who does not enjoy the luxury of nice, clean, white clothes, provided this celebrated and more than excellent Soap can be obtained, for these luxuries can only be enjoyed by its use; so do not cease trying until you obtain it. 26

GOLD, Friday, 146.

— In the case of the United States vs. the Greenwood plantation property of Braxton Bragg, the granted delay having expired and no defense having been filed, the Court ordered, on motion of the District Attorney, that all persons interested in the said property be considered in default, and the property be condemned and sold for the benefit of the United States.

THE SECRET SERVICE, THE FIELD, THE DUNGEON, AND THE ESCAPE.

By ALBERT D. RICHARDSON,

N. Y. Tribune Correspondent.

1,000 COPIES SELLING PER DAY!

The most interesting and exciting book ever published, embracing Mr. Richardson's unparalleled experience for four years. Travelling through the South in the secret service of The Tribune, and enjoying the confidence of Rebel armies and fleets, both East and West, during the first two years of the Rebellion; his thrilling capture; his confinement for twenty months in seven different Rebel prisons; his escape, and almost miraculous journey by night of nearly 400 miles. It abounds in stirring events, and contains more of the fact, incident and romance of the war than any other work yet published.—Horace Greeley says of it:

"A great many books will yet be written concerning this war, in addition to the many already in print; but not one of them will give, within a similar compass, a more faithful, more readable account, entirely from personal observation, of the nature, animus, purposes, tendencies, and instrumentalities of the Slaveholders' Rebellion, than does the unpretending narrative of Mr. Richardson."

Teachers, ladies, energetic young men, and especially those who disabled by wounds, and soldiers, in want of profitable employment, will find it particularly adapted to their condition.—Send for Circular. Address

Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing obstructions to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

☞ The high North West wind on Thursday caused the wall of Congress Block to tremble;—and some people trembled also, lest the bricks should tumble down and do damage. The police fenced off the sidewalk till the wind went down: but the wind *may* blow again before Spring. Mr. Knights moved from the building altogether, and Mr. Avery also withdrew from his portion of the house, while the stores of H. M. Clark & Co., Ferguson & Frye, and S. A. Avery were closed.

☞ On Tuesday evening, an Englishman walked off the end of Pier wharf. His outcries drew a man to the spot, who after considerable search, succeeded in finding and rescuing him, in an exhausted state. He is said to have been intoxicated, and will in all probability be now more than ever averse to cold water.

☞ We notice a habit our cotemporary the Boston Herald has of crediting some of our local items to the "Portsmouth (N. H.) Journal;" but if he will put on his glasses, he will discover that we have not yet changed the name of our paper,—and we also purpose to continue printing this "Chronicle" a while longer. REP.

☞ The Dramatic Combination gave an excellent entertainment at the Temple on Friday evening, establishing for themselves a good reputation in this city, and fully coming up to the representations concerning the talent of this Company, from the press elsewhere. We shall not attempt to particularize in relation to the characters represented in the drama of the "Hidden Hand" but we must say that each part was well sustained, especially "Capitola" by Miss Wallace, who evinced more than ordinary talent as an actress in personating this singular character. They should have a rousing house to-night, as it is the last opportunity that will be afforded one citizens of witnessing this talented Company. The "Wreck Ashore," and the farce entitled "Acting Mad," are on the board for tonight.

☞ The steamer Maratanza was undocked at the Navy Yard, on Friday, to make room for the steamer Galena.

☞ Thanks to Col. Frank Towle for late Richmond papers.

☞ In a debate in the U. S. House of Representatives, on Thursday:

Mr. Fink controverted Mr. Stevens' positions, and denied that the Southern States were out of the Union. He urged the admission of Representatives from that section, so as to secure the restoration of friendly and political relations heretofore existing.

Mr. Raymond of New York was glad to see indications on the opposition side of the House to support the Union. If these indications had been exhibited during the war, we should have been spared the lives of thousands of men, and the expenditure of rivers of blood and treasure. He said the ordinances of secession were simply a declaration of purpose and determination to secede. Whether practical effect could be given to the purpose, depended on their ability in the field. The effort was not a success, but a failure. Who did not wish that day might speedily come when we shall have a great Republic, one and indivisible, stronger than it has ever been before. He controverted at length the position of Mr. Stevens, denying that the States lately in rebellion were ever out of the Union. The House, by adopting such theories as those of Mr. Stevens, namely: "That we waged a war against the South as a separate nation," could not talk about the treason of Jeff. Davis, nor about loyal men in the South, if the South were an independent power. There was nothing in the opinion of the Supreme Court, in the cases quoted by Mr. Stevens, to show that the rebel States were an independent community or separate nation. A separate nation would have the right to contract debts, and we, being conquerors, would be successors of the debt. Mr. Raymond repeated, that we have to deal with the Southern States under the Constitution. He contended, however, that new guarantees should be given before the South are admitted to representation. He was as anxious now as he was during the war to see the Union restored. He would do nothing to dissever the Union, as the rebels had in vain attempted. He looked on the South as a part of the Union, and was for pursuing such a policy as would have the best effect. He was against imposing confiscation, but will require Representatives from that section to be loyal and national men, representing loyal constituencies.

A minister in Belgium has been discharged for being drunk in the pulpit.—*Exch.*

The reason why we don't have such events among the "fanatical" ministers of New England is, that the much abused total abstinence societies have created a strong *public opinion* favorable to total abstinence from wine and strong drinks among ministers and christians. If that same opinion could become universal, both as to those who hold it, and as to its subjects, society would be *reconstructed*, better than ever before.

"*Great oaks from little acorns grow.*" The worst diseases known to the human race spring from causes so small as to almost defy detection. The volumes of scientific lore that fill the tables and shelves of the medical fraternity only go to prove and elaborate these facts. Then guard yourselves while you may. The smallest pimple on the skin is a tell tale and indicator of disease. It may fade and die away from the surface of the body, but it will reach the vitals, perhaps, at last, and death be the result and final close. Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liverspot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either; and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for those discolorations, which is at once prompt, infallible and harmless.

HASHEESH! HASHEESH!

One of the oldest Remedies known to Medical Science.

THE HASHEESH CANDY

Now imported and prepared by the SYLVAN ORIENT CO., under the supervision of one of the most thorough Medical Chemists in the country, is the only pleasant and reliable preparation of this Remedy ever offered to the public, and is fast taking the place of all well known compounds, all other Medicines now used for the alleviation or cure of

NERVOUSNESS, NEURALGIA, GENERAL DEBILITY, DYSPEPSIA, HEADACHE,

and all diseases of the Nervous System. In Oriental countries, HASHEESH has, for centuries, been the theme of Poets, Philosophers and Novel Writers, both for its marvelous influence on the mind, when used experimentally, and for its almost miraculous qualities, when prepared as a Medicine.

The Bengal Dispensatory says "the effects of Hasheesh are popularly known in the south of Africa, Turkey, Egypt, Asia Minor, India and all the adjacent territories; and in all the popular medicines of those nations, we find it extensively employed for a 'multitude of afflictions.'" In a standard treatise of Materia Medica, more than a hundred years old, it is described as the most valuable of all remedies.

Sold by all Druggists. Imported only by the

The Chronicle.

THE ROMANCE OF A WOMAN'S LIFE. There recently died in Germany a woman eighty-five years old, whose life was quite a romance. When a girl, and about being married, she fled from her home during the wedding procession to a distant church, which wedding was to bind her, by the will of her parents, to a Mechlenberg gentleman, Von Hahn, whom she hated, and who was deformed. In her bridal dress she threw herself into a boat, was towed down the Peene, and joined Schill's corps, in which she served till the taking of Stralsund, where she was made prisoner by a French soldier, who, we suspect, was not deformed, for she married her captor subsequently. Her husband fell in Spain; her only son served in the Prussian army, but died before her. She lived at Frankfort on a small Prussian pension.

NANTUCKET.—The stockholders of the Nantucket fishing fleet had a meeting on 11th inst., at which it was announced that on the capital invested in the five vessels, a dividend of 17 1-2 per cent. would be paid, as the result of the first season's operations, and it was voted to purchase three additional vessels.

Robert Pitman, aged 82 years and 10 months, was found dead on the beach near Piney Point, on Monday forenoon last. He left home to go a clamming, and his death is supposed to have been caused by apoplexy. *New Bedford Mercury.*

— The horrid wretch Quantrell, who committed the awful massacre of the whole population of Lawrence, Kansas, is on his way to Washington to obtain a pardon. Why is the fiend permitted to travel through the land? Why is he not arrested at once? *Pardon?* When God pardons the devil, it will be time enough for men to pardon Quantrell.—*Louisville Journal.*

— A gentleman from the country, stopping at the Continental, entered into conversation with one of the boarders, asking questions about the fare, etc. After a few minutes' conversation, the boarder drew his cigar-case, saying: "Will you take a cigar, sir?" "Well, I don't mind if I do," was the reply. The cigar was passed to him, also the one which our boarder was smoking, for the purpose of giving a light. He carefully placed the cigar first handed him in his pocket, and took his knife and cut off that end of the lighted one—which had been in the mouth of his generous friend, and commenced smoking, saying—"It ain't often that a man from the country runs about as clever a fellow in the city as you are."

THE LIGHT OF THE WORLD.

DR. MAGGIEL'S

PILLS AND SALVE.

These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these

Life-giving Pills!

Have been used with the greatest success. Their mission is to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. In the second and third few doses of these valuable PILLS will prove to be

A Very Fountain of Youth,

For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle-aged, they will prove non-1 invaluable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth ever

AN ETERNAL SPRING!

It was left for this day and hour to realize the dream, and show, in one glorious fact, the magic that made it fair.

These Famous Remedies

Cannot stay the flight of years, but they can force back and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

FOR BILIOUS DISORDERS

Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the

VEGETABLE COMPOUNDS.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest child.

For Cutaneous Disorders

And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.

DR. MAGGIEL'S PILLS

Invariably Cure the Following Diseases:

Asthma,
Bowel Complaints,

ITEMS ABOUT DYING.—A physician who is a truly pious man, speaking in a prayer-meeting recently of the duty of impressing the idea of salvation upon those near death, made use of the following language. "For my part, I am never called to see a patient without feeling delighted to learn that he is prepared to die."

A very amiable old lady laments that she can find no convenient time to die. "If I die in the sping," she says, "I shall spoil Saratoga and Newport for the girls; and if I die in the fall I shall ruin the assemblies for them.—It is very provoking, and I don't know how I shall arrange it!"

We would never in the least degree encourage levity on the subject of death; but it is a remarkable fact that the Scriptures do not enjoin preparation for death, but always for living. One Apostle says, "I am now ready to be offerred, and the time of my departure is at hand." Entire accordance with the Divine will, is what the Christian believer should seek.

FREEDOM. — The correspondent of a Western paper, who has been for some time giving what appear to be very fair and truthful accounts of his late visit to Georgia, relates that he recently fell in with an ex-rebel Captain of three years' service, though always a Unionist at heart, who certainly delivered some remarkable observations upon the position of affairs in his native State. We quote the following specimen:

"The negro's first want is not the ballot, but a chance to live—yes, sir, *a chance to live.* You say the Government has given him freedom, and that many good men in the North believe that he must have the ballot, to secure that freedom. I tell you he's not got his freedom yet, and isn't likely to get it right away. Why, he can't even live without the consent of the white man. He has no land—he can make no crops except the white man gives him a chance. He hasn't any timber—he can't get a stick of wood without leave from the white man. We crowd him into the fewest possible employments, and then he can scarcely get work anywhere but in the rice-fields and cotton plantations of a white man who has owned him and who has given up slavery only at the point of the bayonet. Even in this city he can't get a pail of water without asking a white man for the privilege. He can hardly breathe, and he certainly can't live in a house without the consent of a white man. What sort of freedom do you call that?"

Whether this blunt speaker was right or not in his apparent estimate of negro suffrage—we think he was wrong, because the possession of any of the rights of citizenship would be some help to the possessor—there is too much reason (says the Boston Journal) to fear that his description of the general helplessness of the negro in the midst of an adverse white population is at least, as the novelists say, "founded on fact."

— A short street in Portland contains eight houses, and each one is occupied by a physician,—with the exception of that on the corner, which is used as a grave-stone maker's establishment.

— A Catholic priest in Albany, who had been refused hospitality, support and appointment by the Bishop, applied for alms from the laity, still without the sanction of the Bishop and was arrested for vagrancy but was discharged.

— Mr. Jackman of Newburyport, who obtained the contract to build two steamers for the new line between Boston and Liverpool, has laid the keel of one of them. It is 325 feet long, sided 16 1-2 inches and molded 17 inches with 10 feet length of scarphs, and is the longest and strongest keel ever laid on the banks of the Merrimac. The vessel will be 43 feet wide and 29 deep, with three decks, and will be launched by the 1st of April, 1866.

VINELAND
FARM AND FRUIT LANDS,
In a mild and healthful climate. Thirty miles *south* of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.
The soil is rich and productive, varying from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country.* Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses being constructed. Price of Farm land, twenty acre lots and upwards, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, will be found to pay.
For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Dr. Robinson, sent to applicants.
Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *Thousands of my readers, active fertile tracts, in an almost level position, and suitable condition for pleasant farming that we know of this side of the Western Prairies.* n1—dawtu

Morning Chronicle.

Portsmouth, N. H.

MONDAY, DECEMBER 25, 1865.

☞ Most of our citizens have seen an appeal for aid to the suffering white people of Charleston, S. C., who are now reaping the dire effects of the rebellion. We hope it will meet with a speedy response. Any of our citizens who are willing to contribute second-hand garments for the relief of the needy in Charleston, are requested to send them to the house of Rev. Geo. M. Adams, No. 1 Richards' Avenue, before the first of January. The appeal does not wholly disregard the black people,—but has so much more application to the whites, that a large amount of relief ought to come from such gentlemen and ladies as do nothing for the freedmen.

☞ Christmas services in the Unitarian Church at 10 o'clock this morning.

THE FREEDMEN OF SOUTH CAROLINA. Gen. Saxton, Commissioner of Freedmen of South Carolina, has presented a report embodying a large amount of information on the condition of affairs in that State, in regard to the condition and actions of the whites and negroes in his department. He represents that many of each class are disposed to annoy the bureau, but, on the whole, matters are progressing satisfactorily. The hostility of the whites toward the Government is daily disappearing, and a proper Union sentiment is becoming contagious, as the President's policy of restoration is comprehended. The colored people, as a class, are represented as having been industrious and enterprising. The crops are not as large as they were expected, on account of the blight, but they are ample to relieve the anticipated wants of the community. The public schools, organized under the auspices of the bureau, are in a flourishing condition and well attended by the colored people, many of whom are apt scholars. The Commissioner, in concluding his report, expresses himself as highly pleased with the aspect of affairs.

☞ The N. Y. Herald's Richmond correspondence says the people of that city are in a high state of excitement in apprehension of an outbreak among the negroes during the approaching holidays. It is reported that preparations for a gigantic insurrection have been made by the extensive gathering and secretion of arms. Fears are felt that the negroes will attack and rob railroad trains. The Superintendent of the Richmond and Danville railroad has issued a notice that no freight will be carried over it between the 21st of December and the 9th of January. The correspondent believes the apprehensions groundless.

RESTORATION OF THE UNION.—"Occasional," Colonel Forney, writes as follows to the Philadelphia Press:

I entertain little doubt, particularly in view of the President's special message, accompanied by the reports of Lieutenant General Grant and Gen. Carl Schurz, sent to the Senate in reply to the resolution of Mr. Cowan of Pennsylvania, that the steps taken by the Executive, in rehabilitating these States, and recognition of their reorganization, will meet the approval of the great body of citizens who elected Lincoln and Johnson in November of 1864.

It is not in the nature of things that the proposition of Mr. Stevens, to hold those States in a territorial condition for some years, or until certain amendments of the national constitution have been consummated, can be made a party test, not to speak of the necessity of maintaining under such a plan a military organization with all its incredible expenditures; no party could be held together in the free States in the face of the incessant turbulence, disaffection and bitterness, that must spread all over the Union, as a consequence of so chaotic and unsettled a policy.

We shall be very agreeably disappointed, if justice and equity shall so prevail in the ex rebel States, under any plan, that for years to come we can get along without a "military organization." Gen. Grant does not think we can!

OFFICIAL. — At Washington, Friday, Gen. Howard promulgated the following circular:

WAR DEPARTMENT,
Bureau of Refugees, Freedmen, &c.
WASHINGTON, Dec. 22.

The attention of assistant commissioners is called to the report of the Lieut. General, dated Dec. 18, 1865.

The most thorough inspection will at once be made, and the evils complained of corrected. No order from the War Department makes the bureau independent of the military establishment, and agents should be furnished with complete instructions according to the orders and circulars issued from this branch of the War Department. Any agent or officer who presumes to act contrary to such instructions will be forthwith removed, or reported to the department commander for trial by court martial.

In all matters of a military character, the officers and agents within a military department will report to the commander, in the same same manner as an officer of engineers building a fort in the same department reports directly to the chief engineer. Every assistant commissioner will constantly seek co-operation with the department commander, and must keep him furnished with all the information in his possession. His formal approval must be secured, when possible, to all orders and circulars issued by the assistant commissioner.

NEW HAMPSHIRE ITEMS.

— Rev. O. T. Moulton, pastor of the Free Baptist Church, Saco, has accepted a call to go to New Hampton, N. H.

— At the last term of the S. J. Court the number of divorces granted for the counties of Belknap, Merrimack and Hillsboro', was thirty-eight.

— John M. O'Brien, Esq., a native of Newburyport and the last surviving member of the first class graduated at Bowdoin College, died in Brunswick, Me., Dec. 19. He was educated to the law, but of late years has given his attention to literature, science and art.

— Josiah George, of West Lebanon, committed suicide on Monday, 18th inst., by shooting himself. He used a common shot gun, placing his head near the muzzle and pulling the trigger with his foot. His head was shockingly mangled. He was the keeper of the toll gate at Lyman's Bridge, and had for some time been subject to fits of temporary insanity.

ANECDOTES OF TOM CORWIN. — Mr. Corwin was almost of black complexion. His hair was as curly and almost as crisped as an African's; and he once replied to a friend who invited him to visit New Orleans: "If I should accept your kind proposition, I would not be in your city half an hour before I should find myself in one of your slave pens. I don't want to become a martyr to Woolfed and company."

On one occasion, while delivering a stump speech in Indiana, he assiduously struggled, at the request of the managers of the party, to avoid the negro question. He was going on descanting on the misdeeds of James K. Polk and eulogizing Henry Clay, when a voice in the crowd exclaimed: "How about abolition?" Mr. Corwin, for the moment was *nonplussed*; but recovering, he ejaculated: "I submit, Mr. President, if that is a fair question to ask a man of my complexion." The multitude burst into roars of laughter.

☞ Part 52 of the Rebellion Record, containing portraits of Maj. Gens. Howe and Custar, is received from D. Van Nostrand, publisher, New York. Its interest does not lessen as it approaches its close.

GOLD, Saturday, 145 1-2. Sent to Europe about $200,000.

— The system on which Brigham Young conducts his matrimonial affairs:—Quick returns and *small prophets*.

— In the city of Fall River resides a man fifty years of age, who has never moved from the house he now occupies, and yet has lived in two states and three towns.

— Mr. Bradley, the Washington lawyer, who in open court called the presiding judge "a liar and a scoundrel," has been adjudged guilty of contempt and fined one hundred dollars.

— Miss Amy Moody, 88 years old, living in Scarboro', Me., was so shockingly burned on Sunday morning by her clothes accidentally taking fire, that she died about an hour after. She was a person of feeble mind, and was well known over the neighborhood.

— A. H. Adams was arrested in Newport, Vermont, on Monday. It appears that he was arrested in Boston, some time since, for forgery, and placed under $2500 bonds; he ran away and forfeited the bail, and hence the arrest.

— On Saturday, 16th inst., a daughter of Mr. Haviland of Waterville, Me., was drowned in the Emerson Stream at that place, while skating. Her young brother, who was with her, also broke through the ice, but was taken out alive though unconscious.

— The Raleigh Progress says that some members of the North Carolina Legislature stated the other day that "they did not intend to pass any laws relative to the freedmen until after they got back into the Union, and then they could pass such laws as they pleased." [These poor ignorant creatures have a great deal to learn yet.]

— Evidence has been laid before the Freedmen's Bureau that the planters in the neighborhood of Fredericksburg, Va., have adopted a system under which the freedmen are required to work for from three to six dollars per month, or be driven from their homes. Decisive orders have been given in regard to the matter.

— Official information from the French Government has been received that the Emperor intends to withdraw the French troops from Mexico, yet it is vaguely given out by the French Minister in diplomatic circles that while such is his intention, Maximilian expects to supply their places with Austrian troops, numbers of whom are said to be on their way to Mexico.

— A contemporary suggests that the Fenian movement would result in great practical good if the funds raised were devoted to organize a steady emigration of the Irish people to the South and Southwest, where plenty of remunerative labor would be found; and it argues that such strengthening of republicanism would do more to vex John Bull than any physical demonstration.

WEST TENNESSEE.—Ten persons, mostly ex-officers in the Union army, residents of La Grange, Tenn., have addressed a letter to Gov. Brownlow, representing that a bitter feeling of hostility toward Union men prevails in that town, and requesting that he would appoint a true Union man to register the voters at the approaching municipal election, so that those who will not or cannot take the oath shall be deprived of the power of electing men of their own stripe to oppress Union citizens. They also transmit the following copy of a letter which was sent to a Union man recently:

"THE WARNING.

MARSHALL CO., Miss., Dec. 6, 1865.

Dr. Belcher, La Grange, Tenn.:

Sir: You are hereby 'ordered' to leave La Grange and vicinity by the 25th inst. This order includes Baird, Alexander, Elliott, Banks, Rawlings and all other negro worshippers in or about La Grange. Our motto is, peaceably if possible, forcibly if necessary. We are determined to get shed of all such characters from among us. We are 'determined!' So you all had better leave! You all have fought us for four years, and now think to make your fortune by selling arms and ammunitions to our former slaves to murder ourselves, women and children. But you will be foiled in your schemes.

For the present, let it suffice that we are imperative. We have given you all fair warning in time. MANY CITIZENS."

[A few bayonets might be useful in such cases.]

A MAN SHOT.—A trouble occurred at the Providence depot, yesterday evening, just before the half-past five train went out, between a negro and three men, the latter attempting to drive the negro from getting on the train. From what we could learn, the assailants were in liquor, and attempted to drive the negro from the depot, when he advised them to let him alone or he would shoot, and this he did, wounding one of his assailants, but the man was got off in the cars by his companions, and a dispatch received last night by Col. Kurtz, advises him of the arrest of the shooter at Mansfield. It is the impression here, so far as can be learned, that the negro was justified in his action.—*Boston Herald.*

THE SECRET SERVICE, THE FIELD, THE DUNGEON, AND THE ESCAPE.

By ALBERT D. RICHARDSON,

N. Y. Tribune Correspondent.

1,000 COPIES SELLING PER DAY!

The most interesting and exciting book ever published, embracing Mr. Richardson's unparalleled experience for four years. Travelling through the South in the secret service of The Tribune at the outbreak of the war, with our armies and fleets, both East and West, during the first two years of the Rebellion; his thrilling capture; his confinement for twenty months in seven different Rebel prisons; his escape, and almost miraculous journey by night of nearly 400 miles. It abounds in stirring events, and contains more of the fact, incident and romance of the war than any other work yet published.—Horace Greeley says of it:

"A great many books will yet be written concerning this war, in addition to the many already in print; but not one of them will give, within a similar compass, a clearer, fuller, more readable account, entirely from personal observation, of the nature, animus, purposes, endeavors, and instrumentalities of the Slaveholders' Rebellion, than does the unpretending narrative of Mr. Richardson."

Teachers, ladies, energetic young men, and especially returned and disabled officers and soldiers, in want of profitable employment, will find it particularly adapted to their condition.—Send for Circulars. Address

Half of HOUSE No. 25 Gates ect. Apply at 103 State street.

Local.

☞ About 11 o'clock Sunday night, fire broke out in the House of Correction (or Bridewell) at the City Farm, and the building was burnt to the ground, all save the brick walls; and four persons are said to have perished in the flames: Lawrence Gould; a man long resident on the premises, for whom (in the absence of a reporter on the spot,) we have no name but "Dutchy," and another man or boy, and a woman, whose names we did not learn.

The fire is said to have been set by a crazy or foolish Irish boy, who was burned to death; and the alarm was given by John Sheehan, who was confined there, and broke out on discovering the building on fire. The Fire Department and numerous citizens were promptly on the spot, though at a distance of two miles or more from the city, and prevented greater damage; though water was scarce.

If it is a little singular, if true as we are told, that the burning of the same building, or the old one on the same site, took place on Christmas Eve just four years ago, when a crazy woman was burnt. The loss is probably insured.

☞ The Concert to-night will undoubtedly be one of the finest ever given here by our home talent, or indeed by any other.—The programme, circulated to-day, speaks for itself; and the performances will be in keeping with the beautiful and grand music selected. It should be borne in mind that there will be no postponement even if bad weather; and that the Concert begins at a quarter (not half) past 7, and will close so early as not to interfere with other social Christmas gatherings.—The Journal thus speaks of the entertainment:—

THE GREAT CONCERT OF THE SEASON. We once more remind our readers of the concert by the Portsmouth Philharmonic Society, at the Temple next Monday evening. The programme is a splendid one. From the Oratorio of "The Creation," is selected two of the grandest choruses which have ever been produced—"The Lord is Great," and "The Heavens are Telling." The "Hallelujah Chorus," from "The Messiah," and "The Great Jehovah," from "Joshua," are also to be sung, and the rehearsals warrant us in assuring the public that their performance will be handsomely done. Most of the best musical talent of the city takes part in this entertainment. Aside from the music mentioned above, a varied and attractive programme is presented. A chorus of about one hundred voices, with half a year's regular rehearsal and three month's preparation for the concert, is an unusual affair for this vicinity, and should call out an overflowing house. The tickets are sold at a low price.—*Journal.*

☞ At a meeting of the St. Andrew's Lodge of Freemasons, at the U. S. Court Room on Friday evening, a beautiful Bible, with the square and compass, was presented to the Lodge by the members of different Lodges in Maine and New Hampshire, resident here—the gift being accompanied by an appropriate letter from Mr. J. Christie Lamos, in behalf of the contributors—expressive of the sympathy of the donors with the members of the St. Andrew's Lodge in consideration of their recent severe loss by fire, and urging the acceptance of the gifts above alluded to, as slight tokens of esteem and brotherly sympathy. This missive was fittingly responded to in a brief manner by a committee of the Lodge, thanking the friends for their generous contribution in an hour of need, suggesting that aside from the intrinsic value of the articles donated, they silently expressed a feeling of sympathy and love which far transcended all considerations of a material character, &c.

The above Lodge is again in good working order, having replenished themselves with all the implements necessary for the work of the institution, and through the courtesy of Sec. McCulloch have been tendered the temporary use of the U. S. Court Room in the Custom House, which will probably be retained until the proposed new Hall is ready for occupancy.

ROBBERY.—We are informed that on Friday evening last, between 7 and 8 o'clock, Mr. William A. McIntosh had his vest pocket cut out, while in front of the City Hotel, and was thus robbed of his pocket-book and contents, amounting to fifty dollars.

☞ The universal observance of to-day throughout Christendom will preclude any idea on the part of our patrons of receiving any paper on Tuesday morning.

Communication.

THOSE SHEARS ONCE MORE.—*Messrs. Editors:* I have read "Observer's" communication in your valuable paper, about the "magnitude" (yes, that is the word,) of raising those shears on the Navy Yard, where a mason proposed to have the "leaders" lashed to the foot of the temporary shears,—a new idea to Observer, no doubt, but old enough to every carpenter and rigger on the river. Now the fact is, the end mason (and he won't deny it,) opposed it with all the modesty he was possessed of, and came near carrying his point, but didn't. It was so understood by Capt. Pickering and every man within hearing; the reason he gave being that it would tend to lift the small shears.

Now the idea that Capt. Pickering, or that Mr. Dixon or any rigger, could not raise those shears, or any others, without advice from any one, must originate from the brain of some one who has never seen anything raised larger than a barn to put a cow in. Mr. Dixon got hurt by a bad breaking; not rigging, as stated by Observer. I think there is more credit due the men who minded their own business, and hove round the crab like good fellows, and by that means raised the *stupendous structure*, (as Observer calls it,) than to all the interlopers who were round. More might be said, but a man who will try to hurt others to build himself up, is not worth the powder it would take to blow him to—Texas.

OBSERVER No. 2,
Who lent a hand on the job.

POLICE COURT, Dec. 23.—Patrick Sheehan, whose name was so conspicuous in the recent Carleton murder case, was brought before the court on a charge of committing an assault upon Daniel Cronin, and fined $3, and costs—taxed at $4.80.

Business Notices.

☞ The best and most appropriate Christmas Gift that can be made, is the "Poets of Portsmouth," which, in the various styles of binding, can be procured of Joseph H. Foster.

Dec. 25th, 1867 Dec. 25th, 1865.

Two memorable eras in my experience not to be forgotten. On Christmas day, 1837, I left Salem, Mass., to locate in Portsmouth, and to carry on the Apothecary business. Through the kindness of friends and patrons, and close attention to business, I succeeded far beyond my expectations, and now after a period of 28 years, I find myself again, as it were, commencing business. The total destruction of all my stock of medicines, bottles, drugs and other fixtures, by fire, places me in the same condition as then, and as I once more solicit the patronage of the public, feeling assured that an acquaintance of many years will be rewarded by a share of their favors. Extending to all my patrons and physicians, my sincere thanks for their continued kindness, and soliciting the same for the future, I will simply say, that for the winter I may be found with a full supply of medicines, fancy articles, perfumery, trusses, &c., at the watchmaker's store of Messrs. Ham, opposite the Post Office. W. R. PRESTON.

A TENDER TETE-A-TETE looses half its charms, if the sweet words of either party are not mated with a fragrant breath. Sozodont is the only article that will assure this desideratum by keeping the teeth speckless, the gums healthy, the whole mouth pure and undefiled. It literally embalms the dental substance, preserving it from decay, through life. Use it daily. Will find it a pleasure.

dec26sod1w.

CURE YOURSELF OF Dyspepsia. This most aggravating of all complaints—a disease from which more people suffer and die than almost any other—has at last found its master. Coe's Dyspepsia Cure controls and completely cures it in its worse stages; no one who suffers from dyspepsia, sick-headache, souring and rising of the food, should be without it. Whilst in all cases of hard colds, stubborn coughs, sore throat, and all bronchial affections, Coe's Cough Balsam is the cheapest and best. These two articles are deservedly very popular with the masses.

Their are peculiar properties contained in the grain, that, if properly extracted, prove to be the best thing you can use for weak lungs. The Extract of Rye, made by C. A. RICHARDS, Boston is the most sure remedy yet discovered. Try it. For sale by most grocers and druggists. 6

DEATHS.

In this city, Dec. 24th, Mrs. SARAH MARDEN, aged 88 years, widow of Capt. Daniel Marden, who died almost forty years ago. We have before us a copy of the N. H. Gazette of Sept. 17th, 1816, in which is recorded the death of this her husband at the age of 37; and Mr. Charles E. Simpson her grandson, informs us that a couple of years ago the old lady desired this paper to be handed at her decease to the senior editor of the Chronicle—an old acquaintance, who knew her as a superior woman.

The Funeral will take place from her late residence on Cabot St., on Wednesday afternoon at 2 o'clock—and relatives and friends are invited.

HASHEESH! HASHEESH!

One of the oldest Remedies known to Medical Science.

THE HASHEESH CANDY

Now imported and prepared by the SYLVAN ORIENT CO., under the supervision of one of the most thorough Medical Chemists in the country, is the only pleasant and reliable preparation of this Remedy ever offered to the public, and is fast taking the place of, and will soon supersede all other Medicines now used for the alleviation or cure of

NERVOUSNESS, NEURALGIA, GENERAL DEBILITY, DYSPEPSIA, HEADACHE,

and all diseases of the Nervous System. In Oriental countries, HASHEESH has, for centuries, been the theme of Poets, Philosophers and Novel Writers, both for its marvelous influence on the mind, when used experimentally, and its almost miraculous qualities, when prepared as a Medicine.

The Bengal Dispensatory says "the effects of Hasheesh are popularly known in the south of Africa, Turkey, Egypt, Asia Minor, India and all the adjacent territories; and in all the popular medicines of those nations, we find it extensively employed for a 'multitude of afflictions.'" In a standard treatise of Materia Medica, more than six hundred years old, it is described as the most valuable of all remedies.

THE DYING YEAR.

Winter is come again. The sweet south-wind
Is a forgotten wind; and the strong earth
Has laid aside its mantle to be bound
By the frost-fetters. There is not a cloud,
Save of the skater's heel, and there is laid
An icy finger on the lip of streams,
And the clear lids hang cold and still,
And the snow-fall is noiseless as a shadow.
Spring has a rushing sound, and Summer sends
Many potent voices up to the ear of God,
And Autumn rustleth its decaying robe
With a complaining whisper. Winter's dumb!
God made his ministry a silent one,
And he has given him a foot of steel
And an unlovely aspect, and a breath
Sharp to the soul, and he comes at times that His
Temperath well, and hath a messing hid
Under the shadow of his hand. Look up!
And it shall be interpreted. Your home
Hath a temptation now. There is no voice
Of waters with beguiling for your ear,
And the cool forest and the meadow green
Which not your foot away; and in the dells
There are no violets, and upon the hills
There are no sunny places to lie down.
You must go in, and by your cheerful fire
Wait for the offices of love, and hear
Accents of human tenderness, and feast
Your soul upon the loveliness of the young.
It is a season for the quiet thought.
And the still reckoning with thyself. The year
Gives back the spirit of its dead, and time
Whispers the history of its vanished hours;
And the heart, calling its affections up,
Commeth its wasted treasure. Life stands still
And settles like a fountain, and the eye
Sees clearly through its depths, and sounds all
That stirred its troubled waters. It is well,
That Winter with the dying year should come!

☞ Some people say, "Are we never to hear the last of the negro?" We have heard nothing but the negro since the day of our birth. Well, why don't you suppress him? I tell you, you've got to dine and sup on negro meat, and lie down in lice. When you do, he'll stand away from caucuses, conventions, or parties; but unless you do, he'll haunt you there, until a blacker than he haunts you hereafter.—[Henry Ward Beecher.

SUFFERERS

From Dyspepsia

READ! REFLECT!! ACT!!!

TARRANT & CO

Gentlemen, I am a resident of Curacoa, and have often been disposed to write about concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.

For five or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabinis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,

I am very respectfully yours,

S. D. C. HENRIQUEZ,
Merchant, Curacoa, S. A.

New York, June 28th, 1865.

WE ASK

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.

Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

TROUBLES AT THOMASVILLE, GA.—A dispatch lately announced that martial law had been established at Thomasville, Ga., on account of the lawless proceedings of some of the citizens. From a full account in the Savannah papers it appears that the trouble arose out of the arrest of Gazaway Lamar, Jr., for connection with the cotton frauds. Shortly after the arrest of Lamar, while an unarmed orderly or the 103d U. S. colored troops was on his way to Colonel Rogart's headquarters, he was suddenly assaulted by three armed men, one of whom succeeded in stabbing the soldier in the back, inflicting a severe but not dangerous wound. In the darkness the assailants made good their escape, but James A. Seward, a prominent citizen, was shortly afterward arrested as the perpetrator of the deed, and was brought before Colonel Rogart, confessed his crime, and pleaded intoxication as an excuse.

The arrest of Seward was not executed without some difficulty, and was accomplished only with the assistance of a colored man named York, who was familiar with the locality, and conducted the military to Seward's hiding place. This act aroused feelings of the deepest indignation rmong the friends of Seward, who made many threats of what they would do to York when a favorable opportunity presented. On the evening of the arrest York was baited in street by City Marshal Atkinson and a party of friends, who denounced him bitterly, and one of them procuring a hatchet handed it to Marshal Atkinson, who struck York a violent blow, but failed to inflict any bodily injury, the hatchet cutting through the hat and clothing of York. Not long after this occurrence Atkinson made another desperate attempt to assassinate another orderly belonging to the 103d United States colored troops, by stabbing him with a dirk, but beyond the severing of his uniform in several places no injury was done. Atkinson was arrested by Col. Rogart, who finding the excitement on the increase, and society generally in a turbulent and disorderly condition, called upon Mayor Wright to ascertain if he could not restore order, otherwise he would be compelled to proclaim martial law. Mayor Wright replied that he was unable to suppress the lawlessness and subdue the excitement, and that under the circumstances he favored the immediate return of martial law, and believed the people would welcome it as the surest and safest return to peace and quietness. Col. Rogart thereupon issued a proclamation establishing martial law.

[Not a very flattering account of the reconstructed rebels. Gen. Grant is right in his opinion that the Freedmen's Bureau in some form is indispensable, with a military force to uphold its decisions.]

A SPENDTHRIFT AUTHOR.—The Paris correspondent of the Publisher's Circular, says that Alexander Dumas, the elder, is one of the men of our day who most loves money and most despises it. One day, ten years ago, he told the writer that he had made $700,000 by his pen, and had not $12 in his pocket. Since then he has probably earned $200,000 more, but it is not believed that he has a cent more in his pocket.

— An orator, in appealing to the "bone and sinew," said: "My friends, I am proud to see around me to-night the hardy yeomanry of the land, for I love the agricultural interest of the country; and well may I love them, fellow-citizens, for I was born a farmer; the happiest days of my youth were spent in the peaceful avocations of a son of the soil. If I may be allowed to use a figurative expression, my friends, I may say I was born between two rows of corn." "A pumpkin, by thunder!" exclaimed an inebriated chap just in front of the stage.

VINELAND
FARM AND FRUIT LANDS.
In a mild and healthful climate. Thirty miles south of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.
The soil is rich and productive, varying from a clay to a sandy loam, suitable for Wheat, Grass, Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country*. Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profit. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste*. It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.

WEDNESDAY, DECEMBER 27, 1865.

WASHINGTON ITEMS.—In consequence of the obstructions offered by citizens to the running of night trains on the railroad between Richmond and Washington, by the placing of ties on the track, the tearing up of rails, etc., the night trains have been withdrawn. Negro troops will look closely after these unquiet rebels.

Senator Sprague, Chairman of the Committee on Manufactures, is collecting information to show the unequal working of the Internal Revenue and Tariff laws, there being many articles that pay more revenue tax than duty on similar wares amounts to. It is the desire of Senator Sprague to so amend both acts as to protect American industry.

Raphael Semmes is to be tried by a naval court martial on a charge and specification preferred by Secretary Welles. The charge is violating the usages of war. The specification sets forth that after having the white flag on the Alabama he escaped to avoid actual surrender, and did subsequently, without having been exchanged, engage in hostilities.

Semmes has protested on the ground that he was in command of a naval brigade when Johnson surrendered to Sherman, and entitled to the priveleges of the capitulation.

[If Jeff. Davis can't be tried by Court Martial, how can we try Semmes in that Court? The whole includes the parts. Jeff. was the principal: Semmes only a subordinate.]

MEXICO.—Brownsville correspondence of Dec. 7 states that well informed people in Mexico think there are now not over 15,000 troops in the country. The Liberals had evacuated Monterey in consequence of the return of the French troops from Saltillo. No fighting occurred. The Liberal army was encamped near Camargo on the 1st inst. Large amounts of money and goods were taken from the merchants and other citizens of that place. Many soldiers of the Liberal army were deserting in consequence of the lack of clothing and other necessaries.

Some further correspondence had occurred between Gens. Weitzel and Mejia. Gen. Weitzel alleges that Mejia has, on mere suspicion, imprisoned innocent American citizens, and informs him, by direction of Gen. Sheridan, that if such outrages are repeated no apology for them will be accepted; that Mejia will not be permitted to commit acts against the United States which are not accidents, and that the government will not accept his personal apologies for bad faith. Mejia claims that the persons imprisoned were found in arms against the Imperial cause. The Imperial troops are reported to have robbed the citizens of Saltillo of large sums by forced loans.

A Mexican correspondence says the Liberal General Diaz is carrying all before him, and the whole State of Oaxaca is in arms against the Imperialists. The Liberals are masters of the whole coast between Vera Cruz and Tuspan, also south of Vera Cruz. Foraging parties of Austrians have met with several defeats. Marshal Bazaine writes to Mejia that the northern frontier is under the double protection of the Emperor of Mexico and the Emperor of the French.

NEW HAMPSHIRE ITEMS.

—— Rev. T. H. Miller is to preach at South Hampton next Sunday.

—— Rev. Moses Gerould, who supplied the Congregational church in Stoddard during the nearly three years absence of his son, the pastor, as a volunteer in the 14th regiment, has removed to Langdon to supply the Congregational church there.

—— The Christian Reporter, for the Congregational and Presbyterian Churches of New Hampshire, has completed its first year:—and is to be continued in the same (pamphlet) form for 1866. Altogether the best form for reference and preservation. Edited (ably) by Rev. Dr. Stone; published at Concord.

—— The Second New Hampshire Regiment of Veteran Volunteers, in command of Brevet Brig. Gen. Patterson, and numbering about 450 men, reached Concord Saturday evening. They took supper at the hotels and then marched directly to Camp Gilmore. The public reception was handsomely given on Christmas day.

—— Last Wednesday some person broke into the house occupied by the workmen of the "North" family of Shakers, in Enfield, and carried off several articles of wearing apparel of considerable value. The thief is supposed to be one Charles Godfrey, an ex-shaker, who has been prowling around the premises for several days.

—— Mr. L. Z. Ferris, class of '60, Andover, and late Principal of the Academy at Weymouth, Ms., was ordained November 30th, pastor of the Congregational church in Pittsfield. Sermon by Rev. Alvan Tobey, Durham; Charge to the Pastor by Rev. E. C. Cogswell, Northwood; Right Hand of Fellowship by Rev. W. O. Carr, Barnstead; Address to the people by Rev. L. S. Rockwood, North Weymouth, Ms.

Correspondence Chronicle.

RYE, Dec. 26th, 1865.

Mr. Editor:—That part of North Hampton known as "Little Boar's Head" is soon to become comparatively famous as a place of summer residence. The barren bluff, covered with rocks and scarcely grass enough between them to pasture a decent grasshopper—has been purchased by various parties within the last six months, at prices far exceeding the expectation of the lucky owners thereof. Workmen have for several weeks been engaged in digging cellars, wells, &c., and getting everything in readiness for the carpenters as soon as the weather will permit. Probably no less than five or six sets of buildings will be erected before the Fourth of July, which will make quite a village at "Little Boar's Head." It is undoubtedly the coolest place in Rockingham County during the heated term, and is altogether a most desirable place for a summer residence.

That Rye is not to be behindhand is evident from the business activity prevailing at the mills where lumber is "wont to be made." Besides the large addition to the Ocean House, additions and improvements will be made to the private houses, and it is not improbable that a fine summer residence will be built by a party of Boston gentlemen who have purcessed a lot for that purpose. Mr. J. C. Philbrick has put up a large stable and has it nearly completed: and there is a prospect that he may add to it a new hotel. Thele, with other buildings in contemplation, will make plenty of work and withal quite a lively building season.

At the Republican caucus last evening, the following gentlemen were elected delegates to the Conventions:

G. State Convention.—G. H. Jenness, Geo. Lougee.

Councillor — Wm. B. Rand, John O. Foss.

Senatorial—J. T. Walker, John T. Marden.

County—G. H. Jenness, J. Jenness Rand.

The ladies of the Cong. Society in Rye will hold a Levee at the Vestry on Wednesday evening, Jan. 3, 1866. The Rye ladies have heretofore got up some excellent entertainments, and we have no doubt the coming one will be equally successful. At any rate, everybody and the rest of mankind will be there to judge for themselves.

Yours truly, BUGGINS.

☞ We are informed that the North Church and Parish in Portsmouth have contributed $500 toward the $200,000 to be raised for building Congregational Meeting House.

☞ The Phrenological Journal for January is just received, and begins a new volume with a great variety of interesting matter.

☞ "The Youth's History of the Rebellion," by Wm. M. Thayer, (vol. 3, embracing the 3d year of the war,) has just been published dy Walker, Fuller & Co., Boston.

The fourth and concluding volume of this complete family history of the great civil conflict is nearly ready, and will be issued within a few days. When published, the four volumes will thereafter be put up in neat boxes, forming a useful and valuable present for every young person.

☞ The fire at the House of Correction, on Sunday night, was less destructive of life than was first stated;—Lawrence Gould having escaped, and he is safe. The three persons burned were, John Callahan, an Irish boy; John Dinger, *alias* Old Dutchy; and Jas. Duncan Hill. The woman mentioned in our first report was not burned, but saved, with the other surviving inmates, by Mr. Norton the Superintendent, and son, who deserve credit for their successful exertions, without which the loss of life must have been much greater.

The coroner's jury found a verdict of accidental burning; and they are satisfied the fire was not caused by an incendiary either within or from without; but are of the opinion that it was caused by a defective chimney. The chimney was built against the wall, but not built into it;—the plank partition where the fire began was built against this chimney, and when the partition burnt away, the chimney fell down. It appears therefore, that there was neither crime nor present carelessness in the origin of this fire,—but a great fault in the erection of a poor chimney.

The Jury of Inquest add to their report, that a building used for confinement should be thoroughly fire-proof.

☞ The British schooner Amo, Whipple, from St. John, N. B., for Salem, Mass., with a load of lumber, went ashore at Isles of Shoals in the gale of Thursday last. All hands safe. The vessel lies on a gravelly beach, and will probably be got off in a few days with comparatively little damage to hull and cargo, but with loss of mainsail, both anchors and chains.

Schooner George W. Snow, Haskell, of Deer Isle, from Elizabethport for Lynn, lost her deck-load of coal and split mainsail and jib in the gale of Sunday; and put into our harbor on Christmas Day. She will proceed to Lynn after repairing her sails

☞ We learn that a foot race came off at Kittery Foreside on Christmas day between two men named Dixon and Mathes, for a prize of $10. Distance half-mile. The result of the heat was so close, that the judges were at a loss to decide who was the winning man; so the purse was divided between the contesting parties.

☞ Capt. Wm. O. Sides, of the Veteran Reserve Corps, who has been on duty in Minnesota for seven months, has been granted leave of absence, and returned to his home in this city.

☞ The next Rehearsal of the Philharmonic Society, will be held at Mercantile Hall, on Monday Evening Jan. 1st, at half-past 7. tjan1

FIRE WATER.—*Messrs. Editors*: your correspondent "Water," in Thusday's paper, suggests a novel way of introducing water into the city, to be used for fires. But making it available in any part of the city at trifling expense, seems problematical. There are many places where it could be introduced in the way proposed, it would seem cheaper than by building resovoirs, (for instance, near the Universalist meeting house;) but to have the water at all time of tide at the corner of Congress and Vaughan streets, without a resovoir, it would seem that the pipes would have to be laid low, and the cut to sink them not only a long but a deep one, made at great expense. We are inclined to think that the supply from the Aqoduct, with pipes large enough, would be sufficient, and much cheaper. R.

TRUE NEIGHBORS.—*Messrs. Editors*:—We are much pleased to find the spirit inculcated by that portion of the Scriptures which tells us to "do unto others as we would that they should do unto us," so fully developed in the recent Congress Street conflagration; and one particular point we are happy to make mention of. The gentlemanly proprietor of the City Hotel, and his worthy helpmeet, in the kindest manner threw open their doors for those whose residences were in danger, saying—"Without money and without price, such as I have, you are welcome to it." It is at moments like these, that the unfortunate appreciate the feelings through which such courtesies are bestowed; and we take pleasure in publicly acknowledging this special instance of hospitality on the part of one who proved truly,

"*Great oaks from little acorns grow.*" The worst diseases known to the human race spring from causes so small as to almost defy detection. The volumes of scientific lore that fill the tables and shelves of the medical fraternity only go to prove and elaborate these facts. They guard yourselves while you may. The smallest pimple on the skin is a tell tale and indicator of disease. It may disfigure and die away from the surface of the body, but it will reach the vitals, perhaps, at last, and death be the result and final close. MAGOUN'S BILIOUS, DYSPEPTIC AND DIARRHŒA PILLS cure where all others fail. While for Burns, Scalds, Chilblains, Cuts, and all abrasions of the skin, MAGOUN'S SALVE is infallible. Sold by J. Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either; and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has studied the diseases of the skin a lifetime, has discovered a remedy for those discolorations, which is at once prompt, infallible and harmless.
Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Mixtures. Being liquid their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of the menses. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of all other female pills, and their use are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to natural health, have will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.00.**

MUSIC IN PORTSMOUTH.—The Concert of Christmas Night, besides being a very success ful entertainment in itself, was an event of no little importance to those who appreciate the value of our home musical matters and education. The Philharmonic Society, perhaps the largest and best organization of the sort Portsmouth ever had, was started by Mr. Day, and has been very successfully managed by him, with Messrs. E. B. Goodrich, C. H. Tompson, L. E. Martin, E. A. Joy, L. W. Brewster and others of the Board of Officers; while Mr. Christie, Mr. G. M. Goodrich, Mr. Davis, and many others, have rendered most efficient aid, not only in musical matters, but also in completing the arrangements generally. Not to mention the ladies, who of course make the Society all it is.

Well, by the most unselfish and united exertions, the managers have built up a home Society of more than a hundred members, and kept up the interest in severe rehearsal of difficult music for several months, so that now the enterprise may be regarded as decided, and the Society as one of our permanent institutions. And already may its influence be seen on some of our church choirs; and its value in developing and encouraging our home talent, should be a matter for no light consideration with all who have the social well being of the city at heart.

As to the Concert itself, it was interesting to us mainly as a means of encouraging and supporting the organization—and in this it was decidedly a success; but it was also one of the most creditable entertainments ever given here, and was so pronounced by the best judges. The choruses went well, and the parts were very evenly balanced. To be sure there was lacking the richness of an orchestra, and the grandeur of the organ; but the H. D. & Co. grand piano, under Miss Emery's hands, rendered most efficient accompaniment.

Of the soloists, most of them were well known before, as among the best musicians in our city; but a few new voices of good quality were here first introduced to the public—among which we may mention the high soprano of Miss Susie E. Foster, who took a very prominent part in the programme; and a young Mr. Huntress, who appeared only in chorus, but whose fine tenor organ will yet attract more notice. We understand he is a nice musician, and a valued member of our Cornet Band. Miss Mary Miller was so hoarse as to be hardly able to sing at all, and her pieces, with the exception of the solo and obligato in the Daughter of Error, we regarded as poorly adapted to do credit to her simple and sweet, birdlike style of vocalism—and we are sure that even the old and hackneyed song, "Angels ever bright and fair," as rendered by her on other occasions, would have given much better satisfaction than all she sang.

Miss Foster, who has been a pupil of Mr. Wetherbee, of Boston, and is a favorite scholar of his, gave unquestionable proof of possessing a clear, fresh voice of good compass and fine quality, (which with more practice and increased confidence, will gain in power,) and great talents for a public vocalist; to which a charming personal appearance and lively manners are not a little addition in prepossessing an audience. We congratulate this artistic young lady on the success of her *debut*, and the Society and our public on gaining so important an addition to our home musical force. Her solos in "The Lord is great," and the Tramp Chorus, and Comer's song of The Skylark, and a Scotch ballad, she rendered very finely, and to the great delight of the audiense, who applauded very heartily.

Mrs. L. E. Martin—whose solos were given with the accuracy and beauty which always characterize her performances—has a voice of rich and rare quality, and only lacks power in the high register, to render her a most accomplished vocalist. Misses Hatch and Remick sustained their alto parts in solo with much credit,—as indeed did all do well.

Mr. Tompson's bass solos were given with his accustomed accuracy; and Mr. Davis, of Sagamore, shew a bass voice of fine quality and much power and good culture; Mr. Goodrich sang, as usual, with good execution and much care,—and Morey's fine quartet, the solo by Mr. G., and the other parts by Messrs. Tompson and L. F. Butler and Miss Hatch, was applauded to a recall. There were other gentlemen present, whose voices would have been well received in solo; and we hope to hear them at the next Philharmonic Concert, whenever that may be.

Mr. Day, as conductor, was prompt and spirited, and pleasant and cheerful, as he ever is; and may well feel gratified with the success of his Music Society and their Concert, for which he has labored so hard, and for which results its members and the public owe him a debt of gratitude, if, as we think, such an institution is to be regarded not only as a means of delightful and healthful recreation, but as a most important means of public education, and social improvement.

All of which is most respectfully submitted, and comprises all we have to say, or can stop to say, about "the Philharmonic" to-day—except that we were sorry not to see the Misses Ham, those sweetest of singers, who have been so long identified with the best of our home music, in the grand choir; and we could but think what an addition Miss Lizzie's almost unrivalled echo song, or some of the charming duets or trios of the sisters, would have been to even that superb programme. We hope to see them added to this goodly company, on future occasions.

RATHWELL'S TABLEAUX OF THE NEW TESTAMENT.—This justly celebrated series of paintings is open this afternoon and evening, at the Temple.—It has excited interest wherever exhibited. The Montreal Gazette said of it, after it had been repeatedly exhibited in that city to large assemblies:

The imagination loves to dwell upon the varied scenes so faithfully depicted by the artist, who has displayed great judgment and superior ability in his work. In the illustration of Christ stilling the tempest, the lashing of the angry waves against the sides of the vessel, the heaving of the mountainous billows, the torrents of rain, Heaven's artillery, with its vivid flashes and terrific peals, and the commanding attitude of our Lord when sending forth his fiat "peace, be still"—pictured with startling clearness—combine to make a scene seldom witnessed, and strike the spectator with sublime awe. The representation of the verdant fields and fertile plains of Palestine and of its beautiful rivers and associations are deserving of high commendation. The entry of the King of Kings into Jerusalem also displays the eminent qualities of the artist to advantage. These tableaux assist one to understand more clearly the writings of the New Testament, and as such would be of great benefit to all those who are in any way connected with Sunday school instruction.

HASHEESH! HASHEESH!

One of the oldest Remedies known to Medical Science.

THE HASHEESH CANDY

Now imported and prepared by the SYLVAN ORIENT CO., under the supervision of one of the most thoroughly Medical Chemists in the country, is the only pleasant and reliable preparation of this Remedy ever offered to the public, and is fast taking the place of, and will soon supercede, all other Medicines now used for the alleviation or cure of

NERVOUSNESS, NEURALGIA, GENERAL DEBILITY, DYSPEPSIA, HEADACHE,

and all diseases of the Nervous System. In Oriental countries, HASHEESH has, for centuries, been the theme of Poets, Philosophers and Novel Writers, both for its marvelous influence on the mind, when used experimentally, and for its almost miraculous qualities, when prepared as a Medicine.

The Bengal Dispensatory says "the effects of HASHEESH are popularly known in the south of Africa, Turkey, Egypt, Asia Minor, India and in the adjacent territories; and in all the popular medicines of those nations, we find it extensively employed for a 'multitude of afflictions.'" In a standard treatise of Materia Medica, more than six hundred years old, it is described as the most valuable of all remedies.

—FOR—

THE SECRET SERVICE, THE FIELD, THE DUNGEON, AND THE ESCAPE.

By ALBERT D. RICHARDSON,

N. Y. Tribune Correspondent.

1,000 COPIES SELLING PER DAY!

The most interesting and exciting book ever published, embracing Mr. Richardson's unparalleled experience for four years. Travelling through the South in the secret service of The Tribune at the outbreak of the war, with our armies and fleets, both East and West, during the first two years of the Rebellion; his thrilling capture; his confinement for twenty months in seven different Rebel prisons; his escape, and almost miraculous journey by night of nearly 400 miles. It abounds in stirring events, and contains more of the fact, incident and romance of the war than any other work yet published.—Horace Greeley says of it:

"A great many books will yet be written concerning this war, in addition to the many already in print; but not one of them will give, within a similar compass, a clearer, fuller, more readable account, entirely from personal observation, of the nature, animus, purposes, tendencies, and instrumentalities of the Slaveholders' Rebellion, than does the unpretending narrative of Mr. Richardson."

To farmers, ladies, energetic young men, and especially returned and disabled officers and soldiers, in want of profitable employment, will find it particularly adapted to their condition.—Send for Circulars. Address

WASHINGTON HOTEL KEEPERS.—One of the high officials of Massachusetts recently visited Washington, and registered his name, not unknown to fame, at Willard's Hotel. Asking for a room, he was treated worse than the "whey-faced brother," described by Holmes.

"Whom John, obedient to his master's sign,
Conducts, inborious, up to ninety-nine;"

the waiter leading him up weary flights, to the first floor from the roof, and into a room, dirty and dreary; with dilapidated furniture, and utterly devoid of all comforts.—Naturally indignant, the gentleman descended to the office and insisted upon being shown better quarters. The proprietor blandly informed him that the house was full, but he would give him a room nearer the earth upon the payment of double per diem. As there was no escape from the scalping-knife, the honorable victim gracefully yielded, and was allowed to occupy a room on the third floor, in size and furnishing about equal to a servant's room at the Tremont, for which he was obliged to pay the sum of *ten dollars per day*. A visit to Washington now-a-days is as dangerous as in the olden time the journey was from Jerusalem to Jericho.—*New Bedford Mercury.*

☞ In the Kentucky State Senate, recently, Mr. Benton offered a resolution looking to the repeal of all laws in relation to slavery. Mr. Helm denied the validity of the adoption of the Constitutional Amendment by Southern States under compulsion. Even if their votes should be counted, the thing would not be binding on Kentucky. Her right to slavery was a reserved right, which could not be infringed upon. Mr. Cochran, of Shelby, went still further. "He denied the power of amending the Constitution so as to destroy slavery. Slavery was an inherent State right above the Constitution. If every State in the Union were to ratify the amendment, it still would not be binding upon Kentucky. And the man who would favor this measure was as much a rebel as Jeff. Davis. Abraham Lincoln and Andrew Johnson were as much, if not more, traitors to the Government than Jeff. Davis. The country was nothing more nor less than an Empire, with President Johnson as Dictator. When the President used the army to destroy slavery, he was in open rebellion against the Government. He hoped the resolution would be voted down," and it was voted down—yeas 15, nays 19.

— J. F. Davis, of the Maine Hotel, Auburn, may be set down as a temperance landlord, having served his capacity of hotel keeper for 25 years, and having never, during all that period, sold a drop of intoxicating liquors.

— Arched floors of concrete, or beaton, a mixture of broken stone, sand and hydraulic cement, are being put down in Paris without any support of vaults, girders, or the like. The soft material is simply packed in and molded on timber centerings, which are withdrawn when the concrete has "set."

THE LIGHT OF THE WORLD.

DR. MAGGIEL'S

PILLS AND SALVE.

These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these

Life-giving Pills!

Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be

A Very Fountain of Youth,

For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle aged, they will prove most invaluable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth ever

AN ETERNAL SPRING!

It was left for this day and hour to realize the long-sought, invaluable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth ever

AN ETERNAL SPRING!

It was left for this day and hour to realize the dream of youth, and now, in one glorious fact, the magic that made it fair.

These Famous Remedies

Cannot stay the flight of years, but they can force back, and hold off, diseases that may triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. Where taken as prescribed—

FOR BILIOUS DISORDERS

Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest

VEGETABLE COMPOUNDS.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

For Cutaneous Disorders

And all eruptions of the skin, the SALVE is most invaluable. Nothing has not been externally alone, but penetrates with the most searching effects to the very root of the evil.

SUFFERERS

From Dyspepsia

READ! REFLECT!! ACT!!!

TARRANT & CO

Gentlemen. I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabiala, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,

I am very respectfully yours,
S. D. C. HENRIQUEZ,

ANOTHER VIEW OF THE SOUTH.—We gave a few extracts from Gen. Grant's favorable view, derived from a five days' tour. Gen. Schurz has given a view not so favorable, derived from his tour of a few months. In view of his observations, Schurz advised our Government to "make haste slowly" in reconstruction, taking time for an *investigating committee*. Good advice and sound;—not to be disregarded without great great danger.

— The Louisiana Legislature adjourned to the fourth Monday in January. The House failed to pass the usual appropriation bills. The Governor has vetoed the bill suspending the collection of taxes for 1861, 1862, 1863 and 1864, on the ground that it would afford relief to those bad attempted to destroy the government, and who were absent from the city during the war, whilst the Union men who remained paid taxes.

☞ On Sunday night, at Montreal, the Merchants Exchange, a large four story building, opposite the Montreal Telegraph Co.'s office, took fire about 10 o'clock, and in spite of several streams of water, burnt fiercely until 2 o'clock next morning. The building was completely gutted. The Chief of the fire brigade and two firemen were injured by the falling stones.

☞ At Chicago, a terrible case of suffocation by gas occurred at the Bremen Hotel, 167 Lake street, Saturday night, resulting in the death of five men, and perhaps six. The victims all slept in the same room. It is supposed that after retiring, the cap of the gas pipe, which was merely stuck on with wax, fell off, allowing the gas under full pressure to enter the room. Five of the men were found dead Thursday morning. The other was still alive, but insensible.

A letter has been received by Secretary Seward from Gov. Orr, in which he says: "You may be assured of my unalterable purpose to aid in upholding the supremacy of the laws of the United States and the advancing the honor, interest and prosperity of a common country."

— The Richmond Times says a few mornings since we noticed at the First Market two beautiful, well-dressed females, young in years, from Powhatan county, who had driven a wagon from home loaded with produce, which they were offering for sale. These ladies were of high respectability—and before the war were in affluent circumstances. Their efforts to gain a livelihood by their own exertions should serve as an example for many young girls who are too proud to do any other work than that which is of the most agreeable character.

— The Portland Press learns that the First National Bank of Portland is using every reasonable effort to call in the bills (State issue) of the old International Bank, but they will not come at call. Seventeen $1,000 bills of the same bank are still out and the directors would be glad to get hold of them that they may be destroyed.

— Henry's breech loading rifle, carried off the prize offered by the Swiss Federal Government, for the best breech loading fire arms. "The Americans," says a Swiss paper, "are now the first in war, and the first in peace, because they are determined to be a free people."

— Gen. Hooker lies at his residence in New York completely paralyzed, being unable either to read or write.

In a mild and healthful climate. Thirty miles south of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md. The soil is rich and *productive*, varying from a clay to a sandy loam, suitable for Wheat, Grass, Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country*. Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, purchased of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste*. It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented for persons who desire to embark in a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, in the first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for society or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotten, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt, had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, DECEMBER 28, 1865.

SENATOR SAULSBURY.—It is generally known that in the U. S. Senate, Dec. 20, Mr. Sumner characterized the President's Message about the reconstructed rebel States, as a white-washing report. At the close of Mr. Sumner's remarks, as it is reported in the Boston Advertiser's Washington correspondence:

Mr. Saulsbury improved the occasion to inform the country that there was a split in the republican party, and that he should not offer his services as mediator. He also loudly exhorted the President to stand firm against the radicals, and pledged him the moral support of two million of democrats in States never in rebellion.

On the next day, Dec. 21, (as reported for the Associated Press) we read:

Mr. Saulsbury denied that he said the Democratic party would come into power through the agency of the President. He said an apprehension of something of the kind seemed to exist on the other side of the chamber.

The reader will see that Mr. Saulsbury does not deny what the Advertiser reported;—and his denial goes to show that he is hugely pleased at what some of our coppery neighbors call "a gleam of light."

Now it is quite possible that the President may live and prosper, notwithstanding Senator Sumner's criticism, severe and even harsh though it be. He might outlive even Mr. Sumner's opposition, if he should oppose. But to be sustained and approved by Senator Saulsbury, is dangerous to any man, or any policy: and the embrace of 2,000,000 copperheads is sure death to a man, a party, or a country. The offer or suggestion of such a thing ought to make an honest man pause, and ask, "What evil thing have I done, that such men should speak well of me?"

We trust that President Johnson will prove too shrewd and too honest to be caught in such a snare to be Tylerized and Fillmoreized,—and thrown like a worthless weed away. The loyal people, South and North, have a right to demand Liberty secured by Law:—Congress must make the law:—and the President must approve or disapprove. We shall see more clearly into this hereafter.

MEXICO.—The Herald's Vera Cruz correspondent, writing on the 13th inst., says the old Imperialist rumor that Juarez had resigned the Presidency of the Mexican Republic, is again being circulated. The story is a canard, intended, as in the previous cases, to affect the Mexican Republican loans. The Imperialists, just before the sailing of every French steamer, hatch up and circulate some rumor to bolster up Maximilian's cause in the minds of the public in Europe.

THE MERRIMAC RAISED.—The main portion of the old frigate Merrimac, with her propeller, weighing ten tons, and 30 tons of composition, have been raised and taken to the Portsmouth Navy Yard.

☞ A Richmond dispatch of the 26th says: "Christmas was observed by all classes. No demonstrations of mob violence occurred except at Manchester, opposite Richmond, where a large number of freedmen surrounded the jail and forced the release of two colored prisoners. Official reports from all other sections of the State represent the freedmen as quiet, and no apprehension exists on the part of the officers of the Bureau of any disturbance among them."

☞ Mr. John S. Howell, the patentee and inventor of the slide valve, received a medal and diploma from the Massachusetts Charitable Mechanics' Association at their recent exhibition. This valve effects a great saving of steam, and has been applied to quite a number of locomotive and stationary engines. Mr. Howell holds a responsible position in the machinists' department at the Navy Yard, and his invention has received the warmest commendations from experienced engineers.

☞ The Secretary of the Interior, in reply to an inquiry from Gen. Howard, decides that the Freedmen's Bureau cannot hold, and the government cannot set aside unoccupied government lands in Florida or any other State for the use or benefit of freedmen. He further says, however, that all homestead and pre-emption laws are as applicable to freedmen as to any other class of persons.

— The Biddeford Journal says that about 60 young men of Saco, having hitherto patronized dram shops largely, have formed themselves into a society under the name of "Dashaways," and pledged themselves to drink no intoxicating liquors for one year. They are actively engaged in inducing others to join.

— The express train that left Worcester at 9.25 Saturday morning ran over a man at Cordaville station, injuring him so that his life was despaired of. He was gathering up a quantity of cabbages which had fallen on the track, and was warned of the approach of the train, but persisted in his work till too late to escape.

Chronicle Correspondence.

NEW YORK, Dec. 25.

I wish you'd send us an Almanac, "F." We conclude ours must all be misprints, or else the clerk of the weather is playing a Reconstruction game, quite too deep for our fathoming. Any young man of good character and veracity, who knows when winter is coming, can make himself wealthy by selling his information to dealers in furs, overcoats and the "likes o' that" in our goodly city. Jack Frost is a gay deceiver. One day it is cold, then snow, then rain,—skates which come out the first day, go back the second, and the third are covered up with muffs and mittens; and any quantity of hard cider, mince pies, and small boys with gimlets, at the Park, are wasted and disconsolate. The latter will be reduced to a state of no peanuts, and abject poverty unless they treble their prices when the skating season does commence.

Dr. Osgood's old church on Broadway has been remodelled and is now the New York Theatre. A Vestibule has been built to the line of the iron railing at the pave, and some additions in the rear. Lucy Rushton is proprietress, and opened with "School for Scandal" on Saturday evening. It is proposed to build a new theatre on the lot next summer. A. T. Stewart owns the property, also two other theatres, Niblo's and the Olympic. Forrest closed a successful season at the former, Friday,—but was half disabled, the last week, in one side; rumor says paralysis,—possibly only rheumatism or gout.

The Herald in its spite against the Managers, villifies Edwin Booth in yesterday's issue, with the statement that the public so hate the name of Booth that they will not countenance the brother of the assassin on the stage. The Herald in this simply lies. It is but a bigoted minority of the public that recognize even a mental law of attainder; and few fail to find in Edwin Booth, the great grand master of his art, with specialities of representations, tending more than those of any other actor toward refinement and improvement, and a man whose private character is above reproach. The public will give him a quiet, but unanimous welcome, on behalf of his own superlative and unequalled merit, and in denial of such imputations as this of the Herald, that they have not the ability to distinguish between good and evil, right and wrong. Booth plays at the Winter Garden in January, and Owens also at the "Broadway."

Here, the boys usher in Christmas with horns, as they do the Guy Fawkes' anniversary down your way; and all day Sunday, and till late at night, youthful Gabriels in full tune, made music in the air.

Among others, a new commission house opens in this city with the new year; one of the firm being Mr. Sise, formerly of your city, and both graduates of Boston. It is noticeable that within the last two years, the leading Boston houses have established branches in New York, and that these are outstripping the main houses. We are sorry for Boston, but business centres toward New York as naturally as does the loadstone to the north pole. In a year or two it won't make much difference whether the cars stop in Boston on their way east and back or not,—unless it be to wood and water the engine, and let the passengers hear the organ play. (We beg leave to suggest most respectfully—as our private opinion, that the big organ would be quite an addition to Morris Bros., Pell & Trowbridge's Minstrels, or the "Theatre Comique.")

The neat "Parlor Croquet" is very popular among the Holiday presents. All the churches are elegantly and elaborately decorated. All the stores are closed to-day and will be, as usual, on New Year's. Balls are innumerable—a dozen every night. The opera is closed, and the Academy of Music floored over, for the "light fantastic."

The 71st and 7th regiments both give grand ball fetes in January, tickets to the latter $20. Revelry is supreme.

Those dance who never danced before,
And those who always danced, now dance the more.

Very *appropos* to the season for you, is the story of the criminal, who, asked by the judge why he hadn't tried to reform, replied "I did, I did, but at last I cheated a poor printer out of a year's subscription, and the Devil got such a hold on to me, that there was no use trying to get the best of him after that!"

Wish you lots of happy New Years. N.

— It is reported that Colonel O'Mahony has received dispatches from Head Centre Stephens, calling for prompt and decisive action by the Fenians. The crisis is said to be near at hand.

— At a late public ball in Vienna, an officer became entangled by the crinoline of his partner, and falling, broke one of his legs; the lady, rolling over him in her turn, fell on the other leg and fractured it likewise.

—— A Mr. Joshua Johnson, of Brookfield, was struck on the head by an uprooted sapling, while felling trees on a hillside in that town, a few days since; his skull was fractured, and he died in a day or two.

THE SECOND REGIMENT.—The Concord Monitor gives a full account of the Regiment and its reception.—We have room for only a few items.

The Second New Hampshire Volunteers was mustered into the service of the United States on the 8th of June, 1861, under Colonel (afterwards Brigadier General) Gilman Marston, numbering 1046 rank and file. Since its organization it has received upwards of 2,200 recruits. Aggregate present and absent at the present time, 729. It has participated in twenty-four engagements, from the first Bull Run to the fall of Richmond. The officers at present are as follows:

Colonel, Jonb N. Patterson.
Lieut. Colonel—Levi N. Converse.
Major—George T. Carter.
Surgeon—Wm. P. Stone.
Adjutant—Charles E. Plaisted.
Quartermaster—Abner F. Durgin.
Assistant Surgeons—William G. Stark, Willard C. Kempton.
Chaplain—John W. Adams.
Co. 1—Captain, Thomas E. Marshall; First Lieutenant, Robert C. Sides.
Co. K.—Captain, James I. Locke; First Lieutenant, Alex. Frazer; Second Lieutenant, George H. Coleman.

We learn that forty of the members who went out with the regiment returned with it, and that but one officer who went out as such returned with it, and that one was Col. Patterson, now nominated for Brevet Brigadier. He has been with the regiment in all its marches, and it we mistake not in every one of its twenty-four engagements, which are inscribed upon its honored battle flag. He was wounded at Gettysburg, where many of his fellow comrades fell.

Major Charles E. Plaisted entered the service as a private in Company K, and was promoted as Sergeant, Adjutant and Captain.

☞ A Fortress Monroe dispatch of Christmas Day, says: "In some localities in this district last night considerable excitement prevailed, owing to the unfounded rumor that the blacks were trying to get up an insurrectionary movement against the whites. The blacks celebrated Christmas as usual by a display of fireworks. No overt act was reported except at Norfolk, where a negro attacked a policeman with a club, who in self defense shot the negro."

NEW YEARS.—Of all the holidays, why not keep the coming in of the new year, in all its length and breadth, like the New Yorkers? When every being should wish a happy new year to his fellow being; and not only wish, but try to make it so. We cannot tell how the thing would work, till after we have tried it,—"to call on everybody and have everybody call on us." But judging from its being kept up so long in the "empire city," we must suppose it suits them, and thousands of others that go from other places to join in the great day of the year; if there are any who do not like it, they need not keep "open house." The exchange of sentiment and sociability we look upon as one of the principal enjoyments of life, and the anchorite disposition, that won't enjoy it, punishes no one so much as him or herself. Wish good to all, be friendly, and enjoy life as well as you can, every day and every year, and all the years. D.

☞ The New England Screw Steamship Co., give notice of a change in their pier at the New York end of the route, on the 1st prox., from Pier No. 9, North River, to Pier No. 38, East River. 38 is a new pier, 350 feet long; a new shed is now building, 300 feet long, which will make this one of the best steamboat accommodations in New York. The new steamer Dirigo will be ready to take her place on the line in January. She will have excellent accommodations for both freight and passengers. This line of steamboats from Portland to New York runs upon one of the pleasantest routes in New England, and is admirably managed. Their advertisement may be found on our fourth page.

— No vocabulary can furnish language sufficiently strong to the commendation of that excellent and indispensable article known as the J. Monroe Taylor Gold Medal Soap. The lady having sought to do in any household department, from the wash tub to the finest needle work, should not fail to supply herself with a year's stock. It only requires a person to use it once to use it their whole life. Most of the grocers sell it. 27

☞ In Baltimore Christmas night, two young men got into an altercation in Canal street, with regard to a disreputable female, when one of them assaulted the other with a razor, cutting his throat and killing him.

— The Portland Advertiser learns that Monday afternoon one of the employees of the Grand Trunk Railway repair shop, while in the act of lighting a cigar, suddenly fell backward across the door-stoop in such a manner as to dislocate his neck, causing his death in a few minutes after the accident.

APPLES.—It is estimated that 70,000 barrels of this fruit are held by Boston speculators.

— There is a child in Detroit with two perfectly formed noses, one Roman and the other Grecian.

— The Dalles (Oregon) papers say that enough of liquor has been sent across the mountains to keep every human being in Montana drunk all the winter.

NEW HAMPSHIRE

STATE MUSICAL FESTIVAL.

The Third Annual Session of the NEW HAMPSHIRE STATE MUSICAL FESTIVAL will be held at EAGLE HALL, CONCORD,

Commencing MONDAY EVENING, Jan. 8, 1866,
AND CONTINUING FOUR DAYS.

In accordance with the vote of the Convention last year, we have secured for Conductor Mr. L. O. EMERSON of Boston.

The following Soloists will appear: Mrs. J. M. Mozart, Soprano, of New York City; Miss Anna Carey, Contralto, of Boston; Miss Jennie Keyes, Soprano, Hartland, Vt.; Mr. James Whitney, Tenor, of Boston; Mr. E. P. Phillips, Tenor, of St. Albans, Vt.; Mr. W O Perkins, Basso, of Boston, Mr C M Wyman, Basso, of Keene; Mr M L Ingalls, Tenor, of Concord; Mr H E Holt, Tenor, of Concord; Mr Geo Leonard, Pianist, Holdenness; Mr E T Baldwin, Manchester; Mr J E Perkins, Pianist, Boston; Mr J P Cobb, Pianist, Boston. In addition to the above, many local Singers from different parts of New England will be in attendance, with some interesting contributions.

A special effort has been made by the Committee in charge, and others interested in the success of this enterprise, to secure a full attendance in the ORCHESTRAL Department, which will be under the direction of Mr. C. C. GRAMON, of Lowell, one of the well known and distinguished Violinists. And it is confidently expected that several orchestral productions will be offered at the Concerts.

☞ Most of the RAILROAD Companies have extended to us the courtesy of HALF FARE; including the Portsmouth & Concord Road.

☞ The "Chorus Wreath," a collection of Oratorio, Choruses, American and English Glees, and advance sheets of Mr. Emerson's new book of psalmody, will be adopted for use.

Three Grand CONCERTS will be given, on Wednesday, Thursday and Friday evenings, Jan. 10th, 11th and 12th.

Members should make their arrangements for accommodation as far as possible, before coming.

TICKETS.—Membership tickets, admitting to all exercises of the Festival,—Gentlemen, $1; Ladies, 50c. Concert Tickets, 30c. Rehearsal Tickets, 15c. Season Tickets, admitting Visitors to all exercises of the Festival, including Concerts and Rehearsals, $1.50.

Former members of this Association will ever remember with unmingled pleasure and satisfaction its three annual gatherings. There were in attendance last year upwards of 1000 members, forming a chorus magnificent and grand, which in effectiveness and power, has never before been equalled in this part of New England.

The Executive Committee have the hearty co-operation of the citizens of Concord, who have ever taken a special interest and pride in the success of this institution, and have shown a willingness to entertain those from abroad, which we are pleased to record. Every effort in the power of the Executive Committee has been made to render the coming annual gathering more grand and entertaining, if possible, than any previous one. To this end we depend upon the hearty co-operation and support of the intelligent musical public, which we respectfully solicit.

—DEALERS IN—

S. Vance's Submerged Well PUMP.

This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.

ITS ADVANTAGES.

FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one easily put it together.

SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.

THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.

FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws another third more water than other pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.

FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as at the iron pump which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.

SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.

☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,

☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony their excellence.

ALLCOCK'S POROUS PLASTERS.—These plasters have the compactness of kid leather and the flexibility of a silk glove. They have cured varicose veins and external aneurisms. For all affections of the chest, weight about the diaphragm or upper portion of the bowels, in colds and coughs, for injuries of the back, for all strains, or bruises, for a weak back, for nervous pains of the bowels, and other nervous affections and cramps, for heart affections,—in all these cases they have to be used to be properly appreciated.

DR. I. T. HENDERSON'S LETTER.

Farnville, Louisiana, March 8, 1860.

DR. T. ALLCOCK,—*Sir:* I have been suffering under a severe attack of *neuralgic disease* of my bowels for years, with *hypertrophy of the heart* and have tried everything known to the practice of medicine from the very best M. D.'s; but truth prompts me to say that your plasters have given me more permanent relief than anything else I have used, and I believe will produce a perfect cure.

The counter-irritant effect of your plasters is produced in such a mild and gradual way, they so invigorate the circulation around the parts which they are applied, and exert upon all nervous diseases such a great sedative influence, that I place them confidently at the head of every plaster now in use. Yours, very truly,

☞ In our mention of the Philharmonic Society, the name printed E. B. Goodrich should have been E. B. *Goodall*—for the Dr. is chairman of the Executive Committee; he was one of the originators of the Society, and has been one of its most active and useful members; and were it not for his great modesty, we should add that besides being the handsomest man in the organization, he has shown himself there, as everywhere, a thorough gentleman,—and, as ever, deeply interested in our home music, and ready to use his influence, talents and accomplishments for the common good. *Long* may he wave!

And since we are upon this subject again, accidentally, we will add that the name of Mr. Albert A. Fernald should have been included among the original working members of the Philharmonic,—who has aided to establish this institution, and is ever ready to lend a helping hand to such enterprises.

PLENTY OF MUSIC.—We hear it proposed that the Portsmouth Philharmonic Society shall give one of their grand Concerts in Exeter and Dover, at an early day.

A Musical Convention of the singers of Exeter and vicinity, is advertised in our paper, to commence Tuesday, Jan. 9th, and last four days.

Also, the grand State Musical Festival at Concord, begins on Monday, the 8th January, and holds till Friday night. This is the fourth of these great Conventions,—nothing approaching which has ever been gotten up elsewhere in the State; and they have hardly been excelled anywhere, even in the great cities. For details, see advertisement; and we will only add now, that the excellent Phœnix and Eagle Hotels reduce their fare to $1.50 per day to Musical Convention visitors, and the Elm House to $1.25,—while the citizens generally of that most hospitable city throw open their houses and hearts to the throngs of attendants on these splendid occasions—a great and merited tribute of confidence and respect to Messrs. Davis & Morey, the chief managers. With half-fare on the railroads, and half-fare at the hotels, or free keep at private residences—Portsmouth ought to send up a good delegation to hear and join with the more than thousand voices.

☞ Among the numerous sons of Portsmouth who have made their mark abroad, the saddlery firm of Messrs. Main & Winchester, of California celebrity, may be set down as one of the most successful. "There's nothing like leather," you know, especially when you can make a good "pile" out of it, though very much, we think, depends on the manner in which it is worked. The young gentlemen mentioned were pioneers in San Francisco, and strove through all sorts of obstacles and difficulties, up to the fullest and richest success—so report says, and so we are glad to believe; for next to "making out well" one's self, is to us the satisfaction of seeing other, enterprising and hard-working, people rewarded for their toil and deprivations.

Mr. Main has been at home here for several months, rusticating on his fine farm at Rye, on which he is now erecting a spacious and elegant stable; and Mr. Winchester has also recently come "home" for a visit. Their families are also here; and unlike many men who "make" money, these know how to *enjoy* it, too, which is much the higher, rarer and more difficult art. We were reminded again of this, by seeing Mr. Main, on Christmas, taking his family out sleighing, with the splendid span of bays we had previously heard of, which we suppose cost a couple of thousand dollars or more, and which match-up so nicely—"Lady Gilmore" of Concord, a noted mare in that locality; and "Lady Rice" of Boston, equally well known there—and the team is at once fit for family use, and yet it won't be left behind many of the best on "the mill dam" or Bloomingdale road. He has also got himself a new span of trotters from New York, which rumor says can easily distance three minutes; and with their elegant new carriages and equipments, they can now show a turn-out almost equal to those of theirs which they left behind, and which are so well known among horsemen as hard to beat in 'Frisco.

We don't know that our friends will excuse us for speaking thus publicly of their private business and recreation; but we do think that where people so well able as many of our citizens, are so dead to amusement and so slow to social enjoyment, especially out of doors, as are ours generally, such rare examples are to be commended. Success to Main & Winchester, say we, who have not forgotten how to enjoy themselves, while engaged in the most engrossing cares of a great and lucrative business.

☞ We learn that one of those excellent Church instruments, a Mason & Hamlin Cabinet Organ, is to be placed immediately in the meeting-house at Newington,—the balance of the necessary funds having been raised by a Christmas Tree there on Monday evening. Rev. Mr. Davis, from Massachusetts, has been pastor of the Society about a year, and is highly esteemed by his parish and the townspeople generally.

☞ British schooner Arno arrived below on Wednesday, having been ashore at the Isles of Shoals. She will proceed on her voyage at first opportunity. Damage trifling.

☞ Mr. E. A. Joy will give one of his grand Singing School Concerts on the evening of January 10, at the Temple.

☞ Mr. Harvey advertises a notice of interest to stockholders of the Eagle Coal Company.

— Edwin Booth and J. S. Clarke have leased the Boston Theatre. They have also leased the Walnut Street, Philadelphia, and Winter Garden, New York.

HASHEESH! HASHEESH!

One of the oldest Remedies known to Medical Science.

THE HASHEESH CANDY

Now imported and prepared by the SYLVAN ORIENT CO., under the supervision of one of the most thorough Medical Chemists in the country, is the only pleasant and reliable preparation of this remedy offered to the public, and is fast taking the place of, and will soon supercede, all other Medicines now used for the alleviation or cure of

NERVOUSNESS, NEURALGIA, GENERAL DEBILITY, DYSPEPSIA, HEADACHE,

and all diseases of the Nervous System. In Oriental countries, HASHEESH has for centuries been the theme of Poets, Philosophers and Novel Writers, both for its marvelous influence on the mind, when used experimentally, and for its almost miraculous qualities, when prepared as a Medicine.

The Bengal Dispensatory says "the effects of Hasheesh are popularly known in the south of Africa, Turkey, Egypt, Asia Minor, India and all the adjacent territories; and in all the popular medicines of those nations, we find it extensively employed for a multitude of afflictions." In a standard treatise of Materia Medica, more than six hundred years old, it is described as the most valuable of all remedies.

By ALBERT D. RICHARDSON,

N. Y. Tribune Correspondent.

1,000 COPIES SELLING PER DAY!

The most interesting and exciting book ever published, embracing Mr. Richardson's unparalleled experience for four years. Traveling through the South in the secret service of The Tribune at the outbreak of the war, with our armies and fleets, both East and West, during the first two years of the Rebellion; his thrilling capture; his confinement for twenty months in seven different Rebel prisons; his escape, and almost miraculous journey by night of nearly 400 miles. It abounds in stirring events, and contains more of the fact, incident and romance of the war than any other work yet published.—Horace Greeley says of it:

"A great many books will yet be written concerning this war, in addition to the many already in print; but not one of them will give, within a similar compass, a clearer, fuller, more readable account, entirely from personal observation, of the nature, animus, purposes, tendencies, and intrinsic nature of the Slave-holders' Rebellion, than does the unpretending narrative of Mr. Richardson."

Teachers, ladies, energetic young men, and especially crippled and disabled officers and soldiers, in want of profitable employment, will find it particularly adapted to their condition.—Send for Circular. Address

APPLE SPECULATORS BROUGHT TO GRIEF.—One of the largest apple dealers in the country, a Mr. Marshall of New York, has failed, and numerous persons in Western New York, farmers and agents, have lost heavily in consequence. The Rochester papers report that one of Mr. Marshall's agents, who was worth $30,000, has lost all, while many farmers have lost the price of their entire crops. Some of the banks are said to have an unpleasant amount of apple paper. The app'e specu lation was overdone.

NEW LOCOMOTIVE.—The Eastern Railroad, which under its present efficient and judicious management, has secured the unqualified approbation of the travelling public, as its large and increasing travel amply testifies, has just added a new and powerful locomotive, called the "Merrimac," and built by the Taunton Locomotive Company, to their rolling stock. It made its first trial trip to Salem on Thursday.—*Obs.*

— The column is an emblem of faith—it springs from earth to heaven; the arch symbolizes mercy—it descends from heaven to earth.

— God visits wasted opportunities, not less than wickedness, with ruin. This truism in morals is gradually attaining an awful significance.

— Man, while he loves, it is said, is never quite depraved. This depends upon whether it is love for run or woman—for good spirits or bad.

☞ The Secretary of the Treasury has received sixty dollars accompanied by the following note:

"Place the enclosed sixty dollars to the credit of the government. It is from a person who believes God will punish in another world those who keep that which does not belong to them."

The Treasury printers propose to establish by indubitable evidence, the fact that no fraud has been committed in the printing department of the Treasury, and that the extra paper is simply an excellent counterfeit.

— "Ed," said a customer who had just purchased a bottle of Scotch from a loose apothecary, "can you tell me why my whiskey always tastes smoky?" "Because it always comes in pipes," replied the compounder of pills.

— The Secretary of State has, by direction of the President, addressed a letter to Provisional Governor Holden of North Carolina relieving him from his trust, and expressing the President's acknowledgment of the fidelity, the loyalty and discretion that has marked his administration of affairs in that State. A copy of the letter has been sent to the Governor elect of South Carolina, with the tender of the co-operation of the United States wherever it may be found necessary in effecting the early restoration and permanent prosperity and welfare of the State over which he has been called to preside.

AN IMPORTANT WASHINGTON ITEM,—if true.—Perley, the able correspondent of the Boston Journal, writes from Washington as follows:

RECONSTRUCTION.—President Johnson is triumphantly carrying out his policy. State after State is being released from the authority exercised by right of conquest, and recognized again as entitled to exercise all rightful prerogatives, among them Alabama, which repudiated the second clause of the amendment giving Congress a right to legislate for the freedmen. Pardons are being issued by scores, and as matters now look, the re-admission of Congressmen can not be far distant. Senator Sumner seems to be the only man who dares to stand up in the Capitol and assert what every honest member of Congress knows to be true, although Gov. Raymond did not attempt to deceive the people. "I cannot," said the Governor, "assent to the intimations thrown out by the gentleman from Pennsylvania, (Mr. Thad. Stevens), that the President concurred in the views he had expressed, or that he had handled the whole subject of pacifying the States lately in rebellion, and of restoring the States to the practical use of their functions as members of the Union, to the hands of Congress. I can find no warrant in his message for believing that he thus designs to abandon duties which are evidently, in his judgment, devolved upon him, as the Executive in the Government, and as Commander in-Chief of the armies of the United States. On the contrary, I find him rehearsing, in clear and explicit language, the steps he has taken to restore the energy of the General Government and the States."

Gov. Raymond, it is well known, speaks "by authority," and it is equally well known that President Johnson does not approve of the policy of Mr. Speaker Colfax, of Mr. Sumner, of Mr. Stevens, and of many other Congressmen. In the opinion of the President, all that remains for Congress to do is to "judge of the elections, returns and qualifications of its own members," and to provide by suitable legislation for the restoration of the judicial branch of the civil authority. Senators and Representatives who have declared that they will do more than this, must so frame their legislation that it will meet the approval of President Johnson, or must place themselves in opposition to the administration, and endeavor to nullify the veto power by a two-thirds vote. This may not be acceptable news to many of our readers, but it is the truth, and nothing but the truth. Neither should "the whole truth" be withheld at a crisis like this. This is no time for veneering and putty—for soft solder and special pleading.

How far these statements are accurate, will be seen in a very few days:—but in the mean time let us say, that if the President fails to do justice in the premises, the course of events following will crush him; and if Congress fails to do its duty, by cringing to Executive or Military dictation, it will be with them ground to powder. The upper millstone of the free and loyal people, and the nether millstone of the old rebel aristocracy, will pulverize it into such dust as Moses made of the Golden Calf, and the Nation will bd compelled to drink again of the poisoned waters. But we hope for better things. U. T

— A Washington correspondent describes Senator —— on a "big drunk," riding down Pennsylvania avenue in an open carriage with two boozy friends and a big dog, making faces at passers-by, and disgusting all who were aware of the position he disgraced.

— Sundry parties have entered a suit in the District of Columbia Supreme Court against the Mayor of Washington, the members of the City Council, and the Register of that city, to restrain them from paying out of the corporation funds the expenses of the recent election to take the sense of the citizens relative to negro suffrage.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, DECEMBER 29, 1865.

☞ The grand Military Levee and Reunion, at Concord, New Year's Night, will without doubt be the most brilliant affair of the kind ever given in this State. Tickets are called for from all parts of New Hampshire, and elsewhere—and the gathering of fair women, and men who have *proved* their bravery, will be something to remember for a lifetime. All the Railroads leading to Concord, will carry for half price upon the grand occasion—full fare up, and free return tickets.

Gov. Smyth and staff, Ex-Gov. Gilmore and staff, and Gens. Griffin and Hinks with their staffs, will be present in full uniform; and the celebrities and notabilities will be without end. The managers extend a cordial invitation to all returned officers and soldiers to attend, whether such have received a formal invite or not.

NORTH CAROLINA.—At Wilmington the negroes made no organized demonstration on Christmas. There were a few isolated cases of collision between whites and blacks early Christmas morning. The negroes creating the disturbance were arrested by the police. A crowd of negroes rallied, when the recruited companies and detachments of the regular garrison came to the assistance of the police. About 100 negroes were arrested, but have not yet been disposed of. There was no other disturbance of consequence.

Major Wyckersham, Superintendent of the Freedmen's Bureau in the district, has ordered the chairman of the county court to revoke the sentence in the case of McCoy and Walker, the negroes ordered to be sold into servitude for larceny, in default of which all the members of the court are to be put under arrest.

Gen. Crooke, commanding, overrules the sentence on the ground that no law can be enforced which makes a distinction between blacks and whites. The statute which provides for the selling of free negroes into servitude may not, therefore, be enforced.

Sheriffs have been instructed, by the President, not to enforce the collection of the tax levied by the Constitutional Convention. This action was procured by merchants interested in the matter.

TEXAS. — On Wednesday, Wm. E. Strong, Inspector General on Gen. Howard's staff, returned to Washington from a three months' tour in the Southwest. He reports affairs in the interior of Texas in a deplorable state. Much destitution exists among the blacks and whites. The blacks are willing to work, but the whites are not in a condition to employ them. The latter are also complained of for bad treatment and violation of such contracts as had been entered into. Bitter hostility to the Government and general lawlessness prevailed.

So great was the ignorance of the whites that they scarcely knew the war was ended, and the blacks thought themselves yet slaves.

When President Johnson's brother was accidentally wounded by the discharge of his gun, a number of surgeons were applied to for professional treatment. Each one refused his services upon the ground that he was a brother of the President, and he was obliged to send nearly one hundred miles for a Federal surgeon, and died solely from want of prompt surgical aid.

[This latter fact goes to show the *animus* of those beautiful people who are to be *hurried* back into political power, on some plans of reconstruction. But such facts should make honest men pause.]

CELEBRATION OF THE ABOLITION OF SLAVERY.—In commemoration of the final abolition of slavery in this country, Governor Andrew of Massachusetts has ordered that national salutes be fired at noon on Monday next, Jan. 1, on Boston Common, at Plymouth, on Dorchester Heights, on Bunker Hill, at Concord, at Lexington and at the North Bridge, Salem.

THE NEW HAMPSHIRE ANNUAL REGISTER for 1866, and indispensable annual, is just published by Edson C. Eastman, Concord—and is for sale in Portsmouth, at the bookstores of Jos. H. Foster and James F. Shores, Jr.

☞ In Brazil, the American emmigrants, chiefly Southerners, represented by Colonel Wood, have selected a site for their settlement near Araraguara. It lies between two small rivers, and can have a railway connected with the capital. A vast tract, consisting of 8,000,000 acres of unoccupied Government land, has been selected. It is expected that a flow of immigration from the States composing the late Confederacy will soon set in.

— The History of Mexico shows that during the last forty years, Mexico has had thirty-seven different forms of government, thirty-two of which were "Republics," and seventy-five Presidents. Its revolutions during that time have amounted to over two hundred.

Correspondence of the Chronicle.

WASHINGTON, D. C. Dec. 26, 1865.

Mr. Editor—Christmas here, as usual, was the occasion for a general holiday, a consumption of untold gallons of strong drink in various shapes, and not a few fights of every grade. Egg-nog is the fashionable beverage, and what with the very varied quality and quantity of the liquors used in its composition, and the exceedingly doubtful character of a large portion of the eggs which our honest hucksters furnish the community, a gentleman who has many friends may well congratulate himself if he survives the ordeal, especially since he gets no sleep the night *before* by reason of the crackers, horns, cannon and every other conceivable "engine of vile noise," with which the enterprizing youth make all the small hours hideous; and none the night *after* because he ate turkey for dinner.

Congressmen with all their bravery dare not look *this* danger in the face. They have stampeded, almost to a man, and will take good care not to return till the danger is fairly past. Even your humble servant was constrained to retreat as far as Baltimore, but is at his post this morning, though somewhat late, to view the remains and count the slain.

To recruit and repair damages will be the chief business until the meeting of Congress, enlivened however by further consideration of the negro suffrage question, and the agitation of some other matters interesting to ingenious contractors. Among these I may advert to the railroad question, based ostensibly upon a paragraph of the President's message, viz: "No State can be justified in any device to tax the transit of travel and commerce between States." Now this proposition relates as is well known solely to the gigantic monopoly legalized by the State of New Jersey as the Camden & Amboy railroad. This road has the exclusive privilege, for a term of years, of transporting passengers and freight across the State, and pays for it a specified tax on each passenger, and each ton of freight.

The President's object is simply to break this up by appropriate legislation, probably in favor of the Raritan route, which was last session before Congress and suffered defeat there, as was very truthfully hinted at the time in the Senate, by virtue of a bargain made to secure the passage of the anti-slavery constitutional amendment.

This expression has however been seized as a means by which to push forward the enterprise of a totally new road, from this place to New York, avoiding, as is promised, "all the inconveniences of the other route." The road is planned to be built by the Government, and would be an excellent fat job for somebody. If there were no other reason against it, this feature should ensure the rejection of the project. But there is besides no reason in it, excepting the monopoly referred to. There can be no objection to the present route in the minds of any candid man.

Five years ago there were in truth great annoyances for the traveller in the way of ferries, uncomfortable cars and frequent changes, but the immense business brought by the war compelled a reform, and at present there is no route in the country better supplied with commodious cars, and engines of great power, than the through line between New York and this place. The road-bed and track, are unexceptionable, the numerous changes have been abolished, and the passengers may sleep undisturbed the entire distance.

The Baltimore and Ohio Company deserve special notice in this connection. It is well known that their road bither, is but a branch of the main stem, running to Wheeling, and when the war began was in bad condition. In spite of the repeated destruction by the rebels of some of the most costly portions of the main road, and the immense drafts made upon them to repair it, they have laid a double track on the Washington branch, its entire length, of extra heavy rails on a wonderfully substantial bed of broken stone. Their cars and their locomotives are new and models in every respect, the latter principally from Massachusetts works, and every attention is paid to comfort, speed and safety.

Compare these advantages with those likely to accrue from a new road with its rough bed, its numerous crossings of large streams that cannot be bridged in a moment, and built too, under government patronage, and hence sure to be *cheaply* put together; then consider that the two routes will be of necessity parallel, since the present one takes the shortest practicable, and you will doubtless agree with me that no good can come out of the project, but further and useless expend ture of the public money. Internal improvements are, I believe, proper objects for Congressional action, but they should be such as are of paramount importance and not, as has too often been the case,—mere schemes to filch the public purse. P.

☞ In Dubuque, Dec. 27, Jaegar & Co.'s distillery was blown to atoms by the explosion of the boiler. The fireman was killed. Loss $60,000; insured against fire for $25,000.

— At Norfolk, Va., Dec. 27, Joseph Edwards, a Baltimore rough, was shot at Ford's Theatre, by a soldier, at whom Edwards had discharged a pistol.

— Advices from Jamaica to Dec. 14 have been received. All was apparently quiet.

CHRISTMAS AT THE SOUTH.—Dispatches following places to Dec. 27, speak for themselves:

Raleigh, N. C.—There never was a more orderly Christmas week. Thus far the blacks are behaving as well as usual. No apprehension exists of disturbances from them, here or elsewhere, as far as can be learned. All classes have rejoice at the prospect of a speedy restoration of the State to its former position, and they have not been more cheerful for years. Measures were taken to preserve order throughout this military district by closing the bare rooms during the holidays.

Wilmington, N. C.—With the exception of a few isolated cases of collision between the whites and the blacks Christmas morning, there has been no disturbance. There is no apprehension of further difficulty and no danger anticipated.

Petersburg, Va.—There has been no disturbances caused by negroes, who behaved themselves very well in this city and adjacent country. There is no apprehension or uneasiness about them.

Norfolk, Va.—There was no serious disturbance among the blacks on Christmas Day, nor has there been any since then. A few brawls in Norfolk and Portsmouth were the result of whiskey, and had no political signification whatever. It is true many blacks of this county have provided themselves with pistols, but it is not thought there is any purpose of insurrection.

Richmond, Va.—There never was more harmony between the whites and blacks at this season. No aggressive disposition is manifested on the part of either.

☞ On Thursday, at Trinity Church, Boston, Rev. Geo. Maxwell Randall, D. D., was consecrated Missionary Bishop of Colorado, with the usual ceremonies of the Protestant Episcopal Church. Bishop Hopkins presided, acting as Conservator. The music was by a choir of clergy, under the direction of Rev. J. S. B. Hodges. The new Bishop's very elegant Episcopal robes were a present from the ladies of his Boston society.

BUTTER.—The St. Albans (Vt.) Messenger of the 26th says: "Butter has had but a slight sale to-day, buyers being very reluctant in paying 40 cents for the best qualities."

— Why, Mrs. C., how nice and clean your clothes always look! What kind of soap do you use? Well, Mrs D., it gives me great pleasure to say that I use the Gold Medal Soap, manufactured by J. Monroe Taylor, 110 Libanon street, New York, and I find it as he keeps the quality as good as now, I shall never use any other. Every one who will try it, will say just as I am now telling you. Try it and be convinced. 28

A special Washington dispatch says it is rumored that Secretary Harlan will soon resign and be succeeded by Secretary Doolittle.

The Appropriation Committe intends to report a bill providing for the assumption of the war debts of the loyal States by the General Government.

—The editor of the N. Y. Observer says though he sees nearly all the Southern religious papers, and meets with many Southern clergy, he has not seen a line nor heard a word in favor of union between Southern and Northern churches at present.

— The President has, through the Secretary of State, relieved Judge Sharkey of the trust of Provisional Governor of Mississippi, and recognized his duly elected successor in the person of Governor Humphreys. Texas and Florida are the only two remaining States to be relieved.

— A Richmond letter says there is a general wish among Southern men for a foreign war, and that high officers of the rebel army would gladly enlist as privates in a war with France or England, in order to wipe out the disgrace of rebellion, and begin a new and honorable record.

— Parepa was paid $1000 for singing in the "Messiah," at Hartford, Monday night. She was offered $1200 to sing in Providence in the same oratorio, but was already under engagements.

— A child was recently born near Birmingham with two heads, three arms and three legs. The two heads which are face to face, are united at the lower part of the breast.

— Over three hundred thousand Frenchmen have committed suicide since the beginning of the present century.

— The White Mountain Bank at Lancaster is in the hands of assignees—closing up—bills not current.

— Capt. D. Goldthwait of Saco, brought down 20 ducks at a single shot, while gunning on Ram Island, 14 of which he bagged. Pretty good shooting that, but nothing compared to two instances cited in the New Orleans Picayune of the 12th inst., as having been made at the "Jump," a locality well-known to all sportsmen on lower Mississippi. It states that 70 teal were killed at a single shot, and 500 in eight consecutive shots.

In addition to the above, many leading Singers from different parts of New England will be in attendance, with some interesting contributions.

A special effort has been made by the Committee in charge, and others interested in the success of this enterprise, to secure a full attendance in the ORCHESTRAL Department, which will be under the direction of Mr. J. C. GIBSON, of Hennniker, the well-known and distinguished Violinist. And it is confidently expected that several instrumental productions will be offered at the Concerts.

☞ Most of the RAILROAD Companies have extended to us the courtesy of HALF FARE, including the Portsmouth & Concord Road.

☞ The "Chorus Wreath," a collection of Oratorio, Choruses, American and English Glees, and advance sheets of Mr. Emerson's new book of psalmody, will be adopted for use.

Three Grand CONCERTS will be given, on Wednesday, Thursday and Friday evenings, Jan. 10th, 11th and 12th.

Members should make their arrangements for accommodation, as far as possible, before coming.

Ladies and gentlemen desiring Board during the Convention, will find in most instances a furnished free by the citizens of Concord, will address Mr. MORSEY, as below.

TICKETS.—Members' tickets, admitting to all exercises of the Festival,—tenTickets, $1; Ladies, 50c. Concert Tickets, 30c. Rehearsal Tickets, 15c. Season Tickets, admitting visitors to all exercises of the Festival, including Concerts and Rehearsals, $1.50.

Former members of this Association will ever remember with unmingled pleasure and satisfaction its first annual gathering. There were in attendance last year upwards of 1000 members, forming a chorus magnificent and grand, which in effectiveness and power, has never before been equalled in this part of New England.

The Executive Committee have the hearty cooperation of the citizens of Concord, who have ever taken a special interest and pride in the success of the institution, and have shown a willingness to entertain those from abroad, which we are pleased to record. Every effort in the power of the Executive Committee has been made to render the coming annual gathering more grand and entertaining, if possible, than any previous one. To this end we depend upon the hearty cooperation and support of the intelligent musical public, which we respectfully solicit.

"Great oaks from little acorns grow." The worst diseases known to the human race spring from causes so small as to almost defy detection. The volumes of scientific lore that fill the tables and shelves of the medical fraternity only go to prove and elaborate these facts. Then guard yourselves while you may. The smallest pimple on the skin is a tell tale and indicator of disease. It may fade and die away from the surface of the body, but it will reach the vitals, perhaps, at last, and death be the result and final close. Lyon's Periodical Drops!
THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, renovating them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female remedy, and are considered by all who know aught of their virtues, the surest, safest and most infallible preparation in the world for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by DR. JOHN L. LYON, 195 Chapel Street, New Haven, Conn, who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases requiring a male weakness. **Price $1.50 per bottle.**

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spots) and Lentigo, or Freckles, are often very annoying, painful and tedious blemishes of the complexion, for the discolored spots show more plainly upon the face of a blonde than of a brunette; but they greatly marr the beauty of either; and any preparation that will effectually remove them, without *injuring the texture or color of the skin*, is certainly a desideratum. Dr. B. C. PERRY, who has made diseases of the skin a speciality, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.

ALLCOCK'S POROUS PLASTERS.—These plasters have the compactness of kid leather and the flexibity of a silk glove. They have cured varicose veins and external aneurisms. For all affections of the chest, weight about the diaphragm or upper portion of the bowels, in colds and coughs, for injuries of the back, for all strains or bruises, for a weak back, for nervous pains of the bowels, and other nervous affections and cramps, for heart affections,—in all these cases they have to be used to be properly appreciated.

DR. I. T. HENDERSON'S LETTER.

Farmville, Louisiana, March 8, 1866

DR. T. ALLCOCK,—*Sir:* I have been suffering under a severe attack of *neuralgic disease* of my bowels for years, with *hypertrophy of the heart* and have tried everything known to the practice of medicine from the very best M. D's: but truth prompts me to say that your plasters have given me more permanent relief than anything else I have used, and I believe will produce a perfect cure.

The counter-irritant effect of your plasters is produced in such a mild and gradual way, they so invigorate the circulation around the parts to which they are applied, and exert upon all nervous diseases such a great soothe influence, that I place them confidently at the head of every plaster now in use. Yours, very truly,

I. T. HENDERSON, M. D.

☞ A Concord gentleman, a friend of ours, who takes an interest (as what "live" man or woman, not to mention patriot, does not?) in the great New Year's Levee at Concord,—in the course of a private business letter to us, wonders that the Stars and Bars newspaper of this city, should speak otherwise than in commendation of the affair—as everybody and every paper else does.

We have not seen the article or item referred to—in fact, we don't see the paper itself six times in a year, though we believe we "exchange" with it; but if our Concord friend, and the Committee of Arrangements, were more acquainted in this region, they would know better than to send that editor complimentary tickets to anything, or to expect aught save abuse of any decent thing, from the fellow. Why, he don't know any better—and abuse of his superiors is his sole stock in trade.

As an instance: The Lyceum Committee a couple of years ago—a company of public spirited gentlemen who labor without other reward than a knowledge of benefiting the community — advertised in that paper, (solely for the sake of not being exclusive, and without expectation of deriving any benefit therefrom,) and sent the editor some tickets. Well, the booby accepted the tickets, took his full pay for advertising, and denounced and derided the lectures on "political" grounds, probably. All right, perhaps, in this free country; but this year, (though not known to us until long after,) the Committee voted to give no editor tickets, and Br. Stars and Bars' application for them we believe was respectfully refused. Generally speaking, the profession pay far higher than anybody else for their "free" tickets; but bestowed in the direction referred to, they are as effectually thrown away, as pearls before swine.

☞ We deeply regret to learn that Mr. Thomas Norton, one of our oldest and most experienced architects, was severely injured on Thursday afternoon. He was engaged in cementing the roof of Mr. Dore's building, on Myrtle street; when by the breaking of the nails at the roof end of the hoisting beam rigged to raise the material, Mr. Norton was precipitated to the ground, with a roll of paper he was hoisting—a distance of 25 or 30 feet. He struck on the back of his neck, and turned completely over in his descent, and was carried to his home insensible; but rallied considerably in the evening, and it is thought received no fatal injury or broken bones, though it is feared his spine is affected. He was attended by Drs. Boardman and Folsom.

☞ Adjt. Charles E. Plaisted, of this city, who believe was one of the few original members of the famous N. H. 2d Regt. has returned to his home in this city. We are glad to see him looking so well. His brother, Lieut. Jas. W. Plaisted returned home some time since. They are sons of Wm. Plaisted who patriotically consented for all the boys he had to fight, perchance to die, for their country.

☞ Skiff & Gaylord's Minstrels give their opening concert this evening. They have just returned from a very successful Western tour. The Chicago Times says:

Skiff & Gaylord's Minstrels,—a highly deserving troupe, whose performances, along with much of genuine interest, exhibit the commendable negative virtue of avoiding altogether the gross and unrefined, have given three entertainments to large and increasing audiences.

☞ Paymaster C. J. Emery has been detached from this naval station and ordered to duty at Hong Kong, China, as fleet paymaster.

☞ The holidays seem to affect the rogues favorably. Not a single case in the Police Court for nearly a week.

— The Chairman of the South Carolina delegation to the President declares his belief that emancipation has already increased the self respect of the negroes; and many very prominent planters, hitherto successful in their business, are of opinion that the negroes, if well treated, will work under the new system.

THE SECRET SERVICE, THE FIELD, THE DUNGEON, AND THE ESCAPE.

By ALBERT D. RICHARDSON,

N. Y. Tribune Correspondent.

1,000 COPIES SELLING PER DAY!

The most interesting and exciting book ever published, embracing Mr. Richardson's unparalleled experience for four years. Travelling through the South in the secret service of The Tribune at the outbreak of the war, with our armies and fleets, both East and West, during the first two years of the Rebellion; his thrilling capture; his confinement for twenty months in seven different Rebel prisons; his escape, and almost miraculous journey by night of nearly 400 miles. It abounds in stirring events, and contains more of the fact, incident and romance of the war than any other work yet published.—Horace Greeley says of it:

"A great many books will yet be written concerning this war, in addition to the many already in print; but not one of them will give, within a similar compass, a clearer, fuller, more readable account, entirely from personal observation, of the nature, animus, purposes, tendencies, and instrumentalities of the Slaveholders' Rebellion, than does the unpretending narrative of Mr. Richard on."

Teachers, ladies, energetic young men, and especially returned and disabled officers and soldiers, in want of profitable employment, will find it particularly adapted to their condition.—Send for Circulars. Address

HASHEESH! HASHEESH!

One of the oldest Remedies known to Medical Science.

THE HASHEESH CANDY

Now imported and prepared by the SYLVAN ORIENT CO. under the supervision of one of the most thorough Medical Chemists in the country, is the only pleasant and reliable preparation of this Remedy ever offered to the public, and is fast taking place of, and superseding, all other Medicines now used for the alleviation or cure of

NERVOUSNESS, NEURALGIA, GENERAL DEBILITY, DYSPEPSIA, HEADACHE,

and all diseases of the Nervous System. In Oriental countries, HASHEESH has, for centuries, been the theme of Poets, Philosophers and Novel Writers, both for its marvelous influence on the mind, when used experimentally, and for its almost miraculous qualities, when prepared as a Medicine.

The Bengal Dispensatory says "the effects of Hasheesh are popularly known in the south of Africa, Turkey, Egypt, Asia Minor, India and all the adjacent territories; and in all the popular medicines of those nations, we find it extensively employed for a multitude of afflictions." In a standard treatise of Materia Medica, more than six hundred years old, it is described as the most valuable of all remedies.

LITTLE CHILDREN.

Cherubs of this world of changes!
Sweetly budding charms of time!
Love's true alchemists of gladness,
Turning tasks to golden rhyme!
Music like the brooklet's babble,
Round the shining stepping-stones
Your dear footsteps' golden pattern
Mingles with your gleeful tones.

Rays of brighter realms beam ever
In the homes where children dwell—
Lighting up the genial hearthstone
With a joy no heart can tell!
Oh! these babes of blessing lead us
By the hand to holiest scenes—
Even as our Saviour taught them,
And we're blest by these mild means.

Heavenly Father! teach our conscience
Well to weigh thy gifts of grace,
That our feet may falter never,
While we haste to seek thy face:
With these dear and guileless children,
Walking trustful at our side,
Lead us, Lord! the way of wisdom,
Up to where Thou dost abide!

— The Waterbury American publishes among its marriages, one that occurred in Meriden, Ct., on Thanksgiving evening, with the following just for a flyer, "No cards—very little money."

— The Vicksburg Journal has advices, which it deems reliable, of an alarming character from Yazoo. The people of that county are reported to be flying to the towns for protection, and the negroes are represented to be arming themselves. The latter claim that between now and Christmas the land must be given up or they will take it by force. The colored troops stationed in the county are espousing the cause of the negroes, and serious troubles are apprehended.

THE LIGHT OF THE WORLD.

DR. MAGGIEL'S

PILLS AND SALVE.

These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these

Life-giving Pills!

Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be

A Very Fountain of Youth,

For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle-aged, they will prove most invaluable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth over

AN ETERNAL SPRING!

It was left for this day and hour to realize the dream, and show, in one glorious fact, the magic that made it fair.

These Famous Remedies

Cannot stay the flight of years, but they can force back and hold aloof, diseases that might triumph over the aged and feeble. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

FOR BILIOUS DISORDERS

Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once; and the usual concomitants of the most distressing disease are removed. These remedies are made from the purest

VEGETABLE COMPOUNDS.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

For Cutaneous Disorders

And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but reaches with the most searching effects to the very root of the evil.

DR. MAGGIEL'S PILLS

Invariably Cure the Following Diseases:

Asthma,
Bowel Complaints,
Coughs,
Colds,
Chest Diseases,
Costiveness,
Dyspepsia,
Diarrhœa,

SUFFERERS

From Dyspepsia

READ! REFLECT!! ACT!!!

TARRANT & CO

Gentlemen, I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done me.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Calnalis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,

I am very respectfully yours,

S. D. C. HENRIQUER,

Merchant, Curacoa, S. A.

LONDON PARAGRAPHS. — Governor Eyre of Jamaica has been suspended from his functions pending an official inquiry, and Sir Henry Storks appointed temporarily in his place. Storks sailed for Jamaica Dec. 18.

The Times says Eyre's position will be that of Governor on leave.

The Morning Post thinks Eyre's suspension may have a bad effect on the negroes. [The Post is an organ of the snobs: Gov. Eyre's suspension (on a rope) might have a good effect on the old aristocracy of Jamaica.]

Sir Henry Storks, Sir Edmund Head and Mr. Charles Livingstone are understood to be the Commission of inquiry for Jamaica. From this report and the testimony they will take, we may get at the truth in the case,—which will *not* be favorable to the old aristocracy.

The Fenian O'Donovan, owing to a similar conviction six years ago, has been sentenced to penal servitude for life.

A Fenian named Hollegan has been convicted and sentenced to seven years penal servitude.

The London Observer says Napoleon is apprehensive that Maximilian will follow his Empress to Europe, and has prevailed upon the Mexican Minister at Paris to proceed to Mexico and endeavor to dissuade Maximilian from abdicating. He would sail on the 15th. The Observer thinks he will not be in time and that Maximilian will be in Europe before New Year's.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, under the Act of 1837,)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him, without question, to offer superior facilities for obtaining Patents.
All necessary of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGART
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. **R. H. EDDY.**

Portsmouth, N. H.

SATURDAY, DECEMBER 30, 1865.

CHRISTMAS RIOT IN ALEXANDRIA.—At Alexandria, Va., (close to Washington city,) there was a disgraceful riot on Christmas day, which has been variously reported, and much exaggerated. First we learned from the Washington Star ("conservative,") that

It was commenced by a party of negroes, who, while going about the city with a drum, broke in the door of a man named Rankin. The latter fired upon the party, killing one and wounding another. The disturbance extended to other portions of the city and lasted till late at night. Shooting was going on in every direction. Four white men are reported to have been killed, and a number wounded. Six negroes are also reported to have been killed.

But Perley said of this report:

It was "so distorted of course as to make it appear that the negroes there were in the wrong, and that they should be everywhere disarmed, especially those veterans who have not returned the weapons with which they have fought for the Union."

Now, we get from the Alexandria Journal, and from Perley, (who visited Alexandria to investigate,) the real facts in the case, which show that ex-rebels, especially *ex rebel soldiers* were wholly the aggressors, and that while they were insolent and injurious to the negroes in general, they were most furious against those who wore the United States uniform, and had been in our military service. The Alexandria Journal says:

"*Whiskey* flowed in streams from many restaurants. Early in the morning it was observed that all the young *reconstructed* citizens were well armed. Rioting commenced at an early hour and by one o'clock in the afternoon had assumed such fearful proportions that the Mayor found it necessary to call on the military to suppress it. Three companies of Hancock's veterans proceeded to arrest every one found engaged in rioting and guilty of disorderly conduct. Many persons had been seriously wounded before they appeared. Between 50 and 100 of the ringleaders of the various disturbances then going on throughout the city were arrested and mostly sent to the slave pen, and were compelled to remain there during the remainder of the day. Some of them were yesterday morning released, while the more guilty are still in confinement."

Perley says:

The rioters were returned rebel soldiers who had determined to celebrate their peace Christmas by making war upon the "niggers," and I was assured by many reliable persons that many of these secesh soldiers appeared in their grey uniforms, and were armed with the revolvers of British manufacture which they should have given up when they were paroled. Gangs of these rebels were going from house to house drinking freely, and at each stopping place rebel camp songs were sung and the streets resounded with cheers for Jeff. Davis, Lee, Jackson, Johnson and other rebel leaders. The "niggers" had, of course, to be looked after.

While the rebels had it their own way, no police meddled with them; but when some negro ex-United States soldiers resisted, and others rallied, then the cowardly F. Fs. cried out for the military. It came, and arrested some of the F. Fs.! One white man, Mitchell, an aggressor, is supposed to be mortally wounded, and two black men and one woman, are dangerously hurt: but no lives lost, so far as we see. Perley suspects that these and similar scenes have been got up for the purpose of so provoking the colored people to use firearms in self defence, as to give a pretext for disarming them.

WASHINGTON ITEMS.—The citizens of Alexandria are signing petitions to Congress to receive them back into the District of Columbia, and to appropriate $100,000 to rebuild the aqueduct of their canal which has become dilapidated.

A. D. Richardson, Junius H. Browne and W. D. Davis, three of the war correspondents who were in Salisbury prison, have been summoned to appear at the trial of their jailor, Major Gee, at Raleigh.

Gen. Augur, commanding the Department of Washington, has ordered Lieutenant Colonel Eyre, in command at Alexandria, to arrest all parties concerned in the riots in that city on Christmas day, and not to release any persons arrested on the demands of the civil authorities, but to refer all such cases to the Department Headquarters.

Information has been received of the confiscation by the Provost Marshal at Lexington, Va., of a large quantity of hides belonging to a tannery of that place, and in part the property of the widow of Stonewall Jackson.

☞ A Nashville dispatch of the 28th says:

A negro was killed by a soldier of the 16th regulars in the street last night.

Rumors of a terrific tornado in Pulaski reached here this morning, but not tangible enough to report. Reliable information from the operators at Pulaski says a tornado visited that town, blowing down a number of houses and killing a number of persons and burying them in the ruins. One lady was killed, but her body has not been recovered. The telegraph lines are down between here and Pulaski. No further particulars received.

Very few negroes were arrested on Christmas day, though there were hundreds perambulating the streets all day.

Local.

☞ Mr. John E. Townsend, of this city, who has earned a good reputation among the lovers of aquatics in this vicinity by his success in drafting and building yachts, has contracted to build a yacht of forty tons for Thomas E. Appleton Esq., of Boston. The yacht is to be built of the best material and in the most approved manner, and Mr. Townsend will commence operations immediately: the boat is to be completed about the first of June. We understand that he also has offers from several other parties in Boston to build yachts. It pleases us to record the success of our young townsman, whose efforts are thus adding a new line of business to the industrial resources of our port—the best source of wealth and importance for any community.

☞ Rathwell's Tableaux, or Panorama of the Holy land, as exhibited at the Temple for two evenings and one afternoon only, was quite satisfactory to all spectators who felt interested in the New Testament History; and peculiarly suited to fasten, on the minds of children and youth, a permanent and lively picture of the leading scenes depicted. The coloring and lighting made the scenery distinct and impressive; and many of the pieces were handsome paintings, particularly the closing view of Jerusalem and the Roman conquerors.

☞ Among the centres of industry in this city, moving in a quiet way, yet exerting a considerable influence upon the prosperity of the city, are the Rockingham Mills, under charge of Chas. Rook, Esq. A recent improvement has been the addition of a dye house, at a cost of $2000. This will be a great benefit to the Mills, as in their multifarious manufactures they are obliged to use materials of more tints than ever rainbow shew.

☞ Don't forget the Concert this evening. Tis the last chance to hear this pleasing troupe. They gave great satisfaction to their audience last evening, justifying the lavish encomiums bestowed upon them by the whole Western press.

☞ There will be services appropriate to the opening year at the Universalist Church on Sunday evening, (New Year's Eve) at 7 o'clock.

NEW HAMPSHIRE ITEMS.

—— Josiah George, toll-gate keeper at West Lebanon, shot and killed himself on the 18th.

—— The question about the election of Mayor, in Manchester, is decided, and Mayor Healey is declared to be legally chosen.

—— A company of (real) negro minstrels from Georgia are giving concerts in Manchester, and are said to be good performers in their line,—of course free from the absurd and disgusting caricatures got up by counterfeit darkies.

—— The editor of the Amherst Cabinet says he has kept an account with his Jersey cow "Buttercup," and she has made one pound of butter from 4 1-3 quarts, her feed being English hay and stalks, with two quarts of shorts a day. Who has a cow that will do it from less?

—— In the District Court held at Exeter, the information filed against John F. Cutter of Hollis, who left Hollis in 1863 and joined the rebel army in Kentucky, for the confiscation of his property, was dismissed on the ground that the property was in the hands of trustees, and the pardon of the President relieved it from liability to confiscation.

[In this case the pardon is mischievous: the criminal goes unwhipt of justice.]

A DISAPPOINTMENT.—Perley says:

The successful inauguration of the President's policy as the policy of the country is unquestionably not over acceptable to some who aided in placing him at the head of the Government, but it is far more distasteful to the Democrats. They had hoped that their aid would have been invoked, and that they would have formed such an alliance with the more conservative of the Republicans as to have secured for *them* the control of the administration. The Lafium of power, their promised land, was again in view, flowing with milk and honey, and the old democratic dairymen had their pails all ready. But President Johnson *blanked* them as he did some of his political co-workers, and moved forward in his work of reconstruction. When the Republic shall have emerged from the present brief period of discussion, transition and preparation, to enter upon a clearly defined path of progress, it will be found that the Democratic party has made nothing by its attempts to Tylerize the present chief magistrate.

☞ Information is desired by the War Department of the names and residences of the 27 soldiers belonging to what was known among the rebels as the "foreign Battalion," and who escaped at or about the time of the execution of seven Union soldiers by order of the rebel General Moore, before, or at Savannah, in December, 1864. Such of those soldiers as may be reached by this paragraph are requested to communicate with the Judge Advocate General at Washington. Their names and residence, together with such information as they may possess in regard to the above referred to execution.

A STORY, STRANGE, BUT TRUE, is told in the Boston Journal. Upwards of two years ago a native of Portugal, who had been in this country but a short time, enlisted at Portsmouth, N. H., received his bounty of $500 and was sent into camp at Concord. The recruit was scarcely able to understand his commanding officer, and unable to articulate a word of English, but he proved a good soldier and received his discharge two or three months since, coming to Boston and taking board at a well known Portuguese house. In course of time the board bill was presented, but the returned soldier had no funds to cancel the demand. He told his landlord a story about enlisting and serving in the army, but could not name the place or recruiting station where he enlisted; neither could he name the place or camp to which he was first taken after enlisting. He regretted his inability to remember where he first went into camp, for the reason, as he stated, that his bounty money, consisting of four "hundreds" and two "fifties" in greenbacks, had been hidden by him in a crevice in the barracks, at that place, and there left by him when he went to the field. His story was hardly credited, but upon his offering to give any person who would find his bounty money $100, his boarding master and others took him to Readville and other rendezvous in the hope that the soldier might recognize the place; but all efforts proved unsuccessful, and being unable to pay his board, his landlord felt obliged to set him adrift.

Thus rendered homeless, and being entirely destitute, another countryman of his—in comfortable circumstances and well known for his kindness to the distressed—took an interest in him, and after frequent conversations, furnished him with $15 with which he was to go to New Bedford and ship on board a whaling vessel. He parted with his friend, and one day last week, after being absent ten or twelve days, he reappeared in Boston and gave his friends to understand that he started from the Old Colony depot and followed the railroad track, as he supposed for New Bedford, but at the intersection of the Old Colony road, he took that track and found himself far down on Cape Cod, in the midst of the recent gale and entirely destitute. This story has since been corroborated by parties who saw him on the Cape.

On further conversation with him, his friend managed to ascertain that the word "port" had something to do with the place where he enlisted or encamped, and he determined to make an effort to ascertain where he did enlist, and what became of his bounty money, if any he had. It was at length ascertained by his friend that he enlisted in Portsmouth, and was sent to Concord. The two proceeded to Concord, and on arriving there, the soldier recognized the keeper of a saloon near by, and was recognized in turn.

The friend, with the soldier, proceeded to the camp ground, and the latter suddenly leaving his friend, stepped into an outhouse connected with the barracks, and almost instantly reappeared holding a very small roll of paper in his fingers, which he handed to his friend, who found it to contain the four "hundreds" and two "fifties" which had remained safely in the crack where he deposited them two years and six months ago.

It was ascertained by the friend that his unfortunate countryman since his discharge, and during his trip to the Cape, had suffered much, and was nearly famished with hunger, besides having lost his discharge paper, and all record of his having served in the army. Upon returning last week, the Portuguese was comfortably clad throughout, and his friend learning that he had never received a cent of pay from the government, took the proper measures, and has succeeded in obtaining the whole amount due his countryman for his more than two years services in the Union army.

It is necessary to add that the Portuguese soldier paid his board, "and offered his friend $100 for recovering his money, but only half that amount was accepted.

— It is but simple justice to the manufacturer of the J. Monroe Taylor Gold Medal Soap, to award him the credit of being far ahead of all competitors in catering to the luxury of the ladies, who prize nice, clean, white clothes (and what lady does not?) Our wife says she could not keep house without it. It is decidedly the Soap of the world. It is a peculiar institution of itself, and such a luxury to use it, that after one trial it is always found to be one of the most useful articles in the household. NEW HAMPSHIRE

STATE MUSICAL FESTIVAL.

The Third Annual Session of the NEW HAMPSHIRE STATE MUSICAL FESTIVAL will be held at EAGLE HALL, CONCORD,

Commencing MONDAY EVENING, Jan. 8, 1866,
AND CONTINUING FOUR DAYS.

In accordance with the vote of the Convention last year, we have secured for Conductor Mr. L. O. EMERSON of Boston.

The following Soloists will appear: Mrs. J. M. Mozart, Soprano, of New York City; Miss Anna Carey, Contralto, of Boston; Miss Jennie Keyes, Soprano, Hartland, Vt.; Mr. James Whitney, Tenor, of Boston; Mr. L. P. Phillips, Tenor, of St. Albans, Vt.; Mr W O Perkins, Basso, of Boston, Mr O M Wyman, Basso, of Keene; Mr M L Ingalls, Tenor, of Concord; Mr H E Holt, Tenor, of Boston; Mrs Shepard, Pianist, Holderness; Mr E Z Baldwin, Conductor; Mr J E Perkins, Pianist, Boston; Mr J F Cobb, Pianist, Boston. In addition to the above, many leading singers from different parts of New England will be in attendance, with some interesting contributions.

A special effort has been made by the Committee in charge, and others interested in the success of this enterprise, to secure a full attendance in the ORCHESTRAL Department; which will be under the direction of Mr. C. C. GIBSON, of Henniker, the well-known and distinguished violinist. And it is confidently expected that several orchestral productions will be offered at the Concerts.

☞ Most of the RAILROAD Companies have extended to us the courtesy of HALF FARE; including the Portsmouth & Concord Road.

☞ The "Chorus Wreath," a collection of Oratorio, Choruses, American and English Glees, and advance sheets of Mr. Emerson's new book of psalmody, will be adopted for use.

Three Grand CONCERTS will be given, on Wednesday, Thursday and Friday evenings, Jan. 10th, 11th and 12th.

Former members of this Association will ever remember with unmingled pleasure and satisfaction its first annual gatherings. There were in attendance last year upwards of 1000 members, forming a chorus magnificent in numbers, which in effectiveness and power, has never before been equalled in this part of New England.

The Executive Committee have the hearty co-operation of the citizens of Concord, who have ever taken a special interest and pride in the success of this institution, and have shown a willingness to entertain those from abroad, which we are pleased to record. Every effort in the power of the Executive Committee has been made to render the coming annual gathering more grand and entertaining, if possible, than any previous one. In this we depend upon the hearty cooperation and support of the intelligent musical public, which we respectfully solicit.

☞ The accident to Mr. Thomas Norton, terminated fatally on Thursday evening. He himself repeatedly declared, from first regaining consciousness, that his back was broken; but from his moving the upper part of his body so well, it was hoped that this was not the case, though the entire helplessness of his lower limbs caused it to be feared. The dislocation was high up, almost between the shoulders, and his death occurred in a few hours after the accident. By this sad mishap the community loses one of its most active, energetic and useful members; and his large family,—which was one of the most pleasant, harmonious and united we ever met, is in a moment afflicted beyond possible reparation or consolation.

Mr. Norton was widely known as a very capable and energetic builder, especially in the framing of large and heavy buildings, &c.; and our long and intimate acquaintance with him, led us to appreciate him as not little of an artist withal—although his tremendous energy and engrossing employment, usually in a different direction, left but little opportunity to exhibit the finer qualities of his great good taste.

The immediate cause of the terrible accident, whereby one of our most powerful men and valuable mechanics is in a moment changed to a helpless clod—was, as we have stated, the falling of a temporary derrick or hoisting-beam rigged on the roof of a building. This had been moved by Mr. Norton himself, who was called elsewhere after merely tacking a nail or two to keep the apparatus in place till his return, an hour after—when, forgetting to finish the nailing, the strain of hoisting at once carried the beam over the eaves, and Mr. Norton with it. He fell perhaps 30 feet, turning over in the descent, and struck with fearful force on the back of his neck.

Mr. Norton's age was 56 years, and his life has been one of great activity and enterprise. He built the Portsmouth Steam Mill, Sagamore Mill, and many others of our largest frame buildings; and there was no job too great for him to grasp or too difficult for him to comprehend, or so intricate but that he could carry it along almost "entirely in his head," without much written plan or specifications. His physical power was tremendous, and his endurance to the end of human capability. We think we never saw a man who could do more work, or who better enjoyed doing it. And he was very considerate of good mechanics in his employ, and always fair and just to all.

Personally, as well as in business matters, his associations with the writer of this, had been long, varied and intimate; and we feel almost as if we had lost a guardian or first adviser, as well as old friend. As we looked, almost from the very door of his residence, where his now inanimate body lay, at the neat stable building he has recently erected on Lincoln Hill, South Road, and which he told us was the first and only French roof he ever framed, we could but regarn it with mournful pleasure, as a monument at once to his industry and good taste.

At the time of his death, he was under several engagements to erect large buildings in various parts of the city, and he literally died with the harness on,—as indeed he would have done at any future time, unless absolutely unable to be employed. But he has gone—his work is done—his record made up. And others must take up the burden he bore so well, and perform life's duties, from which he never shrank.

Mr. Norton, besides occupying a prominent and important position in his business, had filled several public offices of trust and honor, and always with credit and to good acceptance—Town Officer in various capacities, Chief Engineer of the city, Representative to the Legislature, &c. He was an active member and past officer of the Mechanic Association, President of the Mechanic Fire Society, and a Free Mason, at the time of his death—all which Societies will appear at his funeral. Good friend, we give thee hail and farewell—and peace to thy memory! F.

SPECIE PAYMENTS RESUMED. — We were inclined to make this remark on Thursday, when we received four large packages of coppers from one individual; and the receipt on Friday of a two-dollar gold piece, from a subscriber in Matanzas, Cuba, in payment of his subscription to the Gazette, has led us to "speak out." He further writes us, in words more valuable than gold:

I find myself much attached to the "oldest paper." We are inclined to expect weakness and imbecility with a great number of years; but here we find all the freshness, vigor and fire of youth, combined and tempered with the experience and wisdom of its great age. Independent in everything, outspoken on all things, it just meets my idea of what an American paper should be. Aside from this, New Hampshire people, at home and abroad, ought to have sufficient local pride and State patriotism to give, not a living merely, but a liberal support to this ancient relic of antiquity.

Very Truly Yours, A. J. W.

☞ Services appropriate to the occasion will be held in the Unitarian church on Sunday evening, (New Years Eve.)

THE BASIS OF REPRESENTATION.—Schurz says in a Washington letter:

"It is gratifying to know—and I can state this upon good authority—that the President is in favor of a very important amendment to the constitution, which is already before the two Houses of Congress. It is the amendment making the number of voters the basis of representation. It ought to be taken up immediately after the holidays, passed, and submitted to the different Legislatures for ratification. Whatever may be thought of the theory upon which this amendment rests, its practical effect upon the solution of the most difficult problem before us, can hardly be questioned, and in the course of time it may be found that upon this basis many differences of opinion among those who ought to go together can be reconciled."

[If this is done, and done promptly—it will settle a great many questions, and settle them on the true basis.]

Agents Wanted

—FOR—

THE SECRET SERVICE, THE FIELD, THE DUNGEON, AND THE ESCAPE.

By ALBERT D. RICHARDSON,

N. Y. Tribune Correspondent.

1,000 COPIES SELLING PER DAY!

The most interesting and exciting book ever published, embracing Mr. Richardson's unparalleled experience for four years. Travelling through the South in the secret service of The Tribune at the outbreak of the war, with our armies and fleets, both East and West, during the first two years of the Rebellion, his thrilling capture; his confinement for twenty months in seven different Rebel prisons; his escape, and almost miraculous journey of nights of nearly 400 miles. It abounds in stirring events, and contains more of the fact, incident and romance of the war than any other work yet published.—Horace Greeley says of it:

"A great many books will yet be written concerning this war, in addition to the many already in print; but no one of them will give, within a similar compass, a clearer, fuller, more readable account, entirely from personal observation, of the natures, animus, purposes, tendencies, and instrumentalities of the Slaveholders' Rebellion, than does the unpretending narrative of Mr. Richardson."

Teachers, ladies, energetic young men, and especially returned and disabled officers and soldiers, in want of profitable employment, will find it particularly adapted to their condition.—Send for Circulars. Address

HASHEESH! HASHEESH!

One of the oldest Remedies known to Medical Science.

THE HASHEESH CANDY

Now imported and prepared by the SYLVAN ORIENT CO. under the supervision of one of the most thorough Medical Chemists in the country, is the only pleasant and reliable preparation of this Remedy ever offered to the public, and is fast taking the place of, and will soon supersede all other Medicines now used for the alleviation and cure of

NERVOUSNESS, NEURALGIA, GENERAL DEBILITY, DYSPEPSIA, HEADACHE,

and all diseases of the Nervous System. In Oriental countries, HASHEESH has, for centuries, been the theme of Poets, Philosophers and Novel Writers, both for its marvelous influence on the mind, when used experimentally, and for its almost miraculous qualities, when prepared as a Medicine.

The Bengal Dispensatory says "the effects of Hasheesh are popularly known in the south of Africa, Turkey, Egypt, Asia Minor, India and all the adjacent territories; and in all the popular medicines of those nations, we find it extensively employed for a 'multitude of afflictions.'" In a standard treatise of Materia Medica, more than six hundred years old, it is described as the most valuable of all remedies.

A FRIEND OF EARLY DAYS.—Jeremy H. Titcomb, Esq., many years a resident of Great Falls, and the man who built all the dams and drained all the ponds which the Manchester Manufacturing Company used built and drained; then the keeper of the Atlantic House on Wells Beach: then almost completely blown to pieces and sight almost entirely destroyed while building a section of the Cocheco Railroad; then an emigrant to the West, and for the last four years dam building again amid the haunts of youthful days—but as good bye yesterday, and started off for his western home. Though nearly sixty-five years of age, he is as tough as a pitch knot. He has never drank alcoholic liquors, or even tea or coffee, nor eat mustard and the other hot condiments, or used tobacco.—*Rochester Courier.*

— Prince Christian of Holstein, who is about to become the husband of the Princess Helena, has arrived at Windsor Castle on a visit to her Majesty. Prince Christian, who is apparently much older than his intended royal bride, is tall, has a fair complexion, and is decidedly what the fairer sex would call a handsome man.

ISRAEL MARDEN & CO.,
No. 39 Congress St., Portsmouth, N. H.,
—DEALERS IN—
S. Vance's Submerged Well PUMP.
This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.
ITS ADVANTAGES.
FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can take it to pieces and put it together.
SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.
THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above them to run down into the well, and thus prevent freezing.
FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws double and pumps more than ordinary pumps, and works so easily that even a child can pump without fatigue. It is the way the greatest labor-saving pump now offered to the public.
FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged is protected from the action of the air, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.
SIXTH, CHEAPNESS.—This Pump is the made that it costs but a trifle, and is warranted to keep good in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.
☞ Manufactured by S. VANCE & CO., No. 21 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,
ISRAEL MARDEN & CO.,
39 Congress Street.
☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony their excellence.

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!
TARRANT & CO
Gentlemen. I am a resident of Curacoa, and have often been disposed to write you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.
For four or five years my wife has been sadly afflicted with dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned physician, Doctor Cabiais, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.
I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.
Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,
I am very respectfully yours,
S. D. C. HENRIQUEZ,
Merchant, Curacoa, S. A.
New York, June 28th, 1865.

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Billious Attacks, Liver Complaints, Rheumatic Affections, &c.
Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.
